

Cambridge English Empower B2 Class Repol

"The course is designed to maximise the performance of school-age learners. It features eight units covering the core topics, vocabulary, grammar and skills needed for all four exam papers for the revised Cambridge English: First (FCE) for Schools exam from 2015. Two teen-inspired topics in each unit ensure the entire exam syllabus is covered, and can also act as a basis for CLIL-based extension activities and projects. Grammar sections and a Grammar Reference help students build up the accurate language structure necessary for the Use of English parts of the new Reading and Use of English paper, while B2-level vocabulary is targeted, drawing on insights from English Profile, and brought together in a Wordlist based on key vocabulary from the units. 'Exam tips', and grammar and vocabulary exercises teach students to avoid common mistakes identified in Cambridge's unique collection of real exam papers, the Cambridge Learner Corpus."--Publisher description.

This collection brings together research on learning-oriented language assessment from scholars working across geographic and educational contexts, highlighting the opportunities of assessment practices which seek to better align assessment and learning tasks and support effective learning. The volume begins by introducing learning-oriented assessment (LOA) and the context around its growing popularity, especially in accountability-oriented settings which favor summative large-scale tests. The first part of the book charts the development of LOA's theoretical and conceptual underpinnings, outlining the ways in which they have been informed by theories of learning and key elements. The second part demonstrates LOA in practice, drawing on examples from different countries and instructional settings to explore such topics as the role of technology in LOA and developing feedback materials based around LOA principles and developed for core literacy skills. Offering a holistic view of learning-oriented assessment and the real-world affordances and challenges of its implementation, this book is key reading for graduate students, researchers, and practitioners in language testing and assessment, TESOL, and language education.

Arabic With Husna is a first of its kind, comprehensive Qur'anic Arabic curriculum that leverages best teaching practices based on experience with thousands of students, enhanced study materials designed to optimize student learning and most importantly video resources in order to ensure a rich, engaging, meticulously organized and result driven learning experience for children and adults alike. This curriculum was put together by a team of educators in collaboration with Ustadh Nouman Ali Khan at the Bayyinah Institute. Book 1 is a thorough study of the Ism (noun) in Arabic. At the end of the book, a student will be able to describe in detail the meaning and properties of each Ism in the first ten ayaat of Surah Kafh.

The Class Audio CDs provide all the audio content from the Upper Intermediate Student's Book. Language in Social Life is a major series which highlights the importance of language to an understanding of issues of social and professional concern. It will be of practical relevance to all those wanting to understand how the ways we communicate both influence and are influenced by the structures and forces of contemporary social institutions. In all modern societies individuals are subject to tests, whether to enter educational programs, to pass from one level to the next or to grant certificates to practice. Yet, tests are powerful tools which are often introduced in undemocratic and unethical ways as disciplinary tools

for carrying out various policy agendas. Tests can be detrimental to people's lives as they are capable of affecting and defining the knowledge and behaviour of those who are being tested. The Power of Tests applies a critical perspective of language tests by examining their uses and consequences in education and society and by viewing tests not as isolated events but rather as embedded in social, educational and political contexts. The book is divided into four parts: the first part establishes the power of tests through echoing the voices of test takers, describing the features of the power of tests, and the temptations that tests offer to bureaucrats who use them for power and control. The second part reports on studies that provide empirical evidence about intentions and effects of a number of large scale language tests. The third part interprets the results by examining their consequences on education and society, arriving at a model of tests' use. The final section of the book offers strategies for controlling and minimizing the misuses of tests by introducing the notion of Critical Language Testing which calls for the examination of the consequences and misuses of tests, monitoring of power and pointing to their unethical uses. It also provides a comprehensive discussion of the responsibilities of language testers, including a new Code of Ethics, as well as strategies for guarding and protecting the rights of test takers.
