*5 full tests fully aligned with the revised Cambridge IGCSE First Language English 2020 syllabus. Ideal for use in the final year of the Cambridge IGCSE First Language English course, this book provides scaffolded support for students approaching the examination. The book contains five full examination papers organised by task type, accompanied by model and sample responses, mark schemes, examiner grades and comments, learning and exam strategy training, and examiner tips.*

*This modern and self-contained book offers a clear and accessible introduction to the important topic of machine learning with neural networks. In addition to describing the mathematical principles of the topic, and its historical evolution, strong connections are drawn with underlying methods from statistical physics and current applications within science and engineering. Closely based around a well-established undergraduate course, this pedagogical text provides a solid understanding of the key aspects of modern machine learning with artificial neural networks, for students in physics, mathematics, and engineering. Numerous exercises expand and reinforce key concepts within the book and allow students to hone their programming skills. Frequent references to current research develop a detailed perspective on the state-of-the-art in machine learning research.*

*Contains practice material for the International English Language Test System.*

*An Introduction for Scientists and Engineers*

*Essays in Technology Management and Policy*

*Examination Papers from the University of Cambridge Local Examinations Syndicate*

*The Journal of Education*

*Cambridge English Proficiency 2 Student's Book without Answers*

An investigative approach to Cambridge IGCSE Geography, written in partnership with the Geographical Association. Encourage students to make links between case studies and their own local contexts as well as exploring the core themes and skills of the studies and processes. Prepare for exam success with full coverage of the core themes of Paper 1 (Population and Settlement, The Natural Environment, Economic Development and the Use of Resources) as well as the geographical and fieldwork skills element on achieving the best grades with excellent exam support for each Paper, with exam-style questions, answers at different levels and accompanying comments. Be confident in the content and approach - this resource is written by highly experienced Geographical Examiner, and produced in partnership with the UK Geographical Association - the home of best practice in Geography teaching.

These books will act as tools for preparation and revision for students. These books have an edited Answer Guide for each paper based on the marks scheme written by CIE Principal

This book examines the manner in which successful firms develop, transfer, protect, and capture value from technological innovation. In essence, it is about "knowledge management", which lies at the foundation of firm level competitive advantage in today's global economy. The essays contain some of the fundamental contributions to the field of knowledge management by one of its best-known thinkers; they also constitute an immensely practical guide for those managers who wish to look below the surface of what is going on in Silicon Valley and elsewhere. Contents:Capturing Value from Technological InnovationSustaining Value Creation and CaptureLicensing, Technology Transfer, and the Market for Know-HowTechnological Change and Competition PolicyTechnological Innovation and the Theory of the Firm Readership: Professionals and academics in management studies. Keywords:Reviews:"Anyone interested in strategy or policy towards knowledge industries will learn much from this collection, written throughout with the elegance and lucidity which is a hallmark of Teece's work."Research Policy
