Preliminary readings refer back to related chapters in Fundamentals of Nursing, 9th Edition. NEW! Additional critical thinking models visually clarify case study takeaways. UPDATED! Content mirrors new information in Fundamentals of Nursing, 9th Edition. Now in its second edition, Canadian Perspectives on Advanced Practice Nursing provides a comprehensive and uniquely Canadian review of the roles of clinical nurse specialists and nurse practitioners, the two streams of advanced practice nursing (APN) in the country. With contributions from notable professionals and academics of the field, the text explores the history and evolution of APN in Canada, from its rural and remote outpost beginnings to the present, and proposes a vision for its future within the health care system. Key issues are examined in relation to economic, educational, legislative, political, regulatory, and social environments that have shaped the continued integration of APN roles across the country. Additionally, the contributors apply the Canadian Nurses Association's pan-Canadian framework and role competencies to real clinical cases. Speciality roles, including geropsychiatry, ambulatory care, and neonatal, are also examined. New to this edition are chapters that focus on the unique challenges of developing APN roles in Quebec; the social determinants of health of Indigenous, inner-city, rural and remote, LGBT2SQ, and refugee and migrant populations in Canada; and other critical issues, such as performance assessment and global perspectives. Thoroughly updated, this second edition of Canadian Perspectives on Advanced Practice Nursing is a must-read for those in the nursing profession, especially students in nursing programs.

Helping undergraduate students evolve into nursing professionals prepared to meet the demands of their vocation, Fundamentals of Canadian Nursing equips students with a broad and solid foundation. The third Canadian edition addresses the key concepts that nurses must know to practice knowledgeably, accurately, legally, ethically, and with sensitivity and compassion in the dynamic Canadian health care system. Fundamentals of Canadian Nursing focuses on 3 important tenets: process, such as critical thinking, clinical reasoning, decision making; concepts like health promotion, disease prevention, and caring; and skills, such as health assessment, hygiene, and safety. Additionally, the textbook highlights basic nursing care across the lifespan in a variety of settings. Written in clear and accessible language, beginning nurses learn about best practices with real-world applications from the experts. Representing a pan-Canadian experience, the lead editors enlisted two authors, each from different provinces to reflect different geographical experiences, for many chapters. Special features facilitate learning and highlight the 5 major themes that form the framework for this edition—Primary Health Care, Critical Thinking, Clinical

The Future of Nursing explores how nurses' roles, responsibilities, and education should change significantly to meet the increased demand for care that will be created by health care reform and to advance improvements in America's increasingly complex health system. At more than 3 million in number, nurses make up the single largest segment of the health care work force. They also spend the greatest amount of time in delivering patient care as a profession. Nurses therefore have valuable insights and unique abilities to contribute as partners with other health care professionals in improving the quality and safety of care as envisioned in the Affordable Care Act (ACA) enacted this year. Nurses should be fully engaged with other health professionals and assume leadership roles in redesigning care in the United States. To ensure its members are well-prepared, the profession should institute residency training for nurses, increase the percentage of nurses who attain a bachelor's degree to 80 percent by 2020, and double the number who pursue doctorates. Furthermore, regulatory and institutional obstacles -- including limits on nurses' scope of practice -- should be removed so that
