*Two stories in which Ranger Rick and his friends point out the danger of phosphate detergents and look for missing opossum babies accompany factual information on opossums.*

*Fresh off a fearsome encounter with the Neverland crocodile, Jocelyn Hook decides the most practical plan is to hunt down her father's famous fortune. After all, she'll need the gold to fund her adventuring in the future. (And luckily, Hook left her the map.) But the map proves to be a bit harder to crack than Jocelyn had hoped, and she's convinced that the horrible Peter Pan might be the only one with the answers. Of course, he doesn't really feel like helping her, so Jocelyn takes the only reasonable course of action left to her: she kidnaps his mother. Evie, though, is absolutely thrilled to be taken prisoner, so Jocelyn's daring ploy doesn't have quite the effect she'd planned for. Along with the problem of her all-too-willing captive, Jocelyn must also contend with Captain Krueger, whose general policy is that no deed is too dastardly when it comes to stealing Hook's treasure. And with the ever-shifting Whens of the Neverland working against her as well, Jocelyn, Evie, Roger, and the rest of the Hook's Revenge crew have their work cut out for them. In this rambunctious showdown between characters new and old, Jocelyn puts her own brand of pirating to the test in a quest to save her future and those she loves. Praise for Hook's Revenge "Whether a fan of J.M. Barrie's classic tale or new to Neverland, readers will be clamoring for more from this enchanting world." -- School Library Journal, starred review "Readers will delight both the story and the storytelling." -- Bulletin of the Center for Children's Books, starred review "Featuring a lively, colorful cast, and a droll narration with snarky asides by an anonymous, self-proclaimed pirate authority, this entertaining take on the Peter Pan story neatly blends action-adventure and comical and heartfelt moments." -- Booklist*

Successful management of radical innovation is a key to growth. Managing radical innovation involves decisions for risky projects and unknown markets with a high growth potential. This research work identifies nearly 40 best practice cases illustrating processes, methods and organizational structures that enhance successful management with radical innovations. The practice cases selected from over 90 interviews with global technology-driven companies are framed in an overall strategic management concept that helps you to navigate through some the most difficult phases in a radical innovation project.

Juvenile homicide and fatal maltreatment remain serious and pervasive problems in the developed world and especially in the United States, where in 2005 some 1,500 children died from neglect and physical abuse. Alarming statistics such as this, as well as an upsurge in the media attention paid to all things forensic, underscore the pressing need for the utmost rigor in the scientific investigation of child abuse cases. This well timed volume is a response to the climate of public and press interest in such inquiries, where the forensic aspects of the casework generate an enormous amount of attention. The contributions cover a wide range of topics and explore many of the finer details of investigations into juvenile fatalities suspected of being abuse-related. The chapters reflect both the multi-disciplinary nature of such investigations, and also the need for law enforcement professionals to take a rounded, holistic approach to the casework involved. The motivational factors that lead many professionals enter this arena of investigation are, of course, personal and individual. However, at the core of their commitment and their work is a shared need for justice, plain and simple. Victim advocacy and protecting the rights of children, both living and deceased, remains a key impetus for those professionals who specialize in child abuse research. At the heart of this book is the aim of providing both a vital resource for investigators, and a purposeful voice for the young victims of abuse, unable as they are to stand up and speak for themselves.

Scott Kelby, author of the top-selling digital photography book of all time, is back with an entirely new book in his popular series that picks up right where part 4 left off. It's more of that "Ah ha—so that's how they do it," straight-to-the-point, skip-the-technojargon stuff you can really use today that made part 1 so successful. In parts 1

through 4 of this series, the most popular chapter in the book has always been the last chapter: "Photo Recipes to Help You Get 'The Shot'." In each of those chapters, Scott shows a final image and then describes how to get that type of shot. Here, in part 5, he gives you what you've been waiting for: an entire book of nothing but those amazing photo recipes. But, he took it up a big notch by adding a behind-the-scenes photo for every single recipe. Now you can see exactly how it was done, so you can get that exact same look every time. In these extra pages, each spread allows you to dig in a little deeper and really unlock the power of these recipes. Scott breaks each spread into four segments: (1) he explains exactly what you're seeing behind the scenes, (2) he lists all of his camera settings, and lens and lighting info—it's all there, (3) he gives you his thought process, so you learn exactly why he does it this way, and (4) he shares all the post-processing in Lightroom or Photoshop that goes on after the shoot (this is something other books leave out). Plus, the whole book is packed with tips and insights you won't find anywhere else. This isn't a book of theory, full of confusing jargon and detailed concepts. This is a book on which button to push, which settings to use, and exactly how and when to use them. With around 100 of the most popular photographic "tricks of the trade," the entire book is designed to get you shooting like a pro starting today. You're gonna love it.

Lately, Anviksha Punjabi can't seem to get anything right. She is in the middle of ending her second marriage, is barely keeping any friends, and repeatedly getting into trouble at work. And as if all that weren't enough, she must put up with her gregarious and over-bearing 67-year-old mother as a housemate. Afraid that if this goes on, she'll finally unravel completely, Anviksha decides that she needs a break - a Bollywood style, solo-trip across Europe kind of break. What she doesn't expect is that her mother, Smita Punjabi, will insist on coming along. The unlikely duo embarks on a journey complete with nudists, an unwelcome blast from the past, a British dog named Bhindi, and several eligible bachelors, and slowly, what was supposed to be a soul-searching journey for one, turns into a life-altering experience for two.

*In the first biography of Joan Crawford to give the full, uncensored story, bestselling author David Bret tells Crawford's rags to riches climb, from working in a Kansas City laundry to collecting an Oscar for her defining role in Mildred Pierce, and on to her devotion to Christian Science and reliance on vodka. He discusses the star's legendary relationship with Clark Gable, her countless love affairs, her marriages -- three of them to gay men -- and her obsession with rough sex. Bret divulges what really happened that led her to disinherit two of her four children, earning her the nickname "Mommie Dearest," as well as how her loathed mother forced Crawford to work as a prostitute, appear in pornographic films, and sleep her way to the top. Bret analyzes Crawford's films, many of which were constructed purely as vehicles where actress and character were often indistinguishable. Overtly generous towards her coterie of gay friends, she was heartless towards her enemies, particularly Bette Davis, her co-star in Whatever Happened to Baby Jane, with whom she shared a lifelong feud. Drawing on a wealth of unpublished material and interviews, David Bret presents a unique, fascinating portrait of a single-minded, uncompromising woman.*

From the YouTube slam poetry star of "Shrinking Women" (more than 5 million views!) comes a novel in verse about body image, eating disorders, self-worth, mothers and daughters, and the psychological scars we inherit from our parents. Fifteen-year-old Ivy's world is in flux. Her dad has moved out, her mother is withdrawn, her brother is off at college, and her best friend, Anna, has grown distant. Worst of all, Ivy's body won't stop expanding. She's getting taller and curvier, with no end in sight. Even her beloved math class offers no clear solution to the imbalanced equation that has become Ivy's life. Everything feels off-kilter until a skipped meal leads to a boost in confidence and reminds Ivy that her life is her own. If Ivy can just limit what she eats—the way her mother seems to—she can stop herself from growing, focus on the upcoming math competition, and reclaim control of her life. But when her disordered eating leads to missed opportunities and a devastating health scare, Ivy realizes that she must weigh her mother's issues against her own, and discover what it means to be a part of—and apart from—her family. This Impossible Light explores the powerful reality that identity and self-worth must be taught before they are learned. Perfect for fans of Laurie Halse Anderson and Ellen Hopkins. Praise for This Impossible Light: ? "In an exceptional novel in verse, slam poet Myers debuts with a powerful commentary on maternal inheritance and eating disorders....striking use of the flexibility of free verse...absorbing and evocative." —Publishers Weekly, starred review "Every YA library needs this book." —VOYA "Written in evocative verse, with notes of wonder and despair, the cadence flows across and down the pages with grace. Lifted beyond the confines of the problem novel with its lyricism and resonance." —Kirkus Reviews "This verse novel's form perfectly mirrors its content as readers move from poem to poem, from thought to thought, following Ivy through the false logic that triggers and sustains her disordered eating—and into the beginning of the much more difficult steps of grief and recovery." —Horn Book "The undeniable teen appeal makes it a first purchase for any YA collection." —School Library Journal "More than a touching debut, this is a surefire coping companion, too." —Booklist

Speedlitter's Handbook

Writing is not just about conveying 'content' but also about the representation of self. (One of the reasons people find writing difficult is that they do not feel comfortable with the 'me' they are portraying in their writing. Academic writing in particular often poses a conflict of identity for students in higher education, because the 'self' which is inscribed in academic discourse feels alien to them.)The main claim of this book is that writing is an act of identity in which people align themselves with socio-culturally shaped subject positions, and thereby play their part in reproducing or challenging dominant practices and discourses, and the values, beliefs and interests which they embody. The first part of the book reviews recent understandings of social identity, of the discursive construction of identity, of literacy and identity, and of issues of identity in research on academic writing. The main part of the book is based on a collaborative research project about writing and identity with mature-age students, providing: - a case study of one writer's dilemmas over the presentation of self;- a discussion of the way in which writers' life histories shape their presentation of self in writing;- an interview-based study of issues of ownership, and of accommodation and resistance to conventions for the presentation of self;- linguistic analysis of the ways in which multiple, often contradictory, interests, values, beliefs and practices are inscribed in discourse conventions, which set up a range of possibilities for self-hood for writers.The book ends with implications of the study for research on writing and identity, and for the learning and teaching of academic writing.The book will be of interest to students and researchers in the fields of social identity, literacy, discourse analysis, rhetoric and composition studies, and to all those concerned to understand what is involved in academic writing in order to provide wider access to higher education.

***This volume of essays examines the ways in which magical practices are found in different aspects of contemporary capitalist societies. From contract law to science, by way of finance, business, marketing, advertising, cultural production, and the political economy in general, each chapter argues that the kind of magic studied by anthropologists in less developed societies - shamanism, sorcery, enchantment, the occult - is not only alive and well, but flourishing in the midst of so-called 'modernity'. Modern day magicians range from fashion designers and architects to Donald Trump and George Soros. Magical rites take place in the form of political summits, the transformation of products into brands through advertising campaigns, and the biannual fashion collections shown in New York, London, Milan and Paris. Magical language, in the form of magical spells, is used by everyone, from media to marketers and all others devoted to the art of 'spin'. While magic may appear to be opposed to systems of rational economic thought, Moeran and Malefyt highlight the ways it may in fact be an accomplice to it.***
