**Award-winning writer Ben Bova returns with *Power Failure*, another tense political thriller starring Jake Ross, science advisor to Senator Frank Tomlinson, as they continue their complex power maneuvers in this near future science fiction novel. Dr. Jake Ross came to Washington to try to make a difference, but he's learned the only way to get something done in Washington, assuming your ideals survive the corrosive atmosphere, is to gather power. Ross has gathered a great deal, riding in the wake of Frank Tomlinson. But now Tomlinson has decided to shoot for the moon. If they win, they get it all. If they lose, the game is over for Jake Ross. In the *Power* trilogy, Bova's vision of a future powered by solar satellite transmission is tantalizingly within reach. *Jake Ross Series #1 Power Play #2 Power Surge #3 Power Failure* At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.**

When Henry Swann is asked by his quirky partner, Goldblatt, to find a missing person who's swindled his ex-wife out of a small fortune, he just can't say no. Although he doesn't actually expect to get paid, he figures it might give him a chance to finally learn more about his partner's mysterious past. His search takes him into the controversial, arcane world of psychics, fortunetellers, and charlatans, while raising questions in his own mind about whether or not there is an after-life. While working on his partner's case, he's approached by a former employer, attorney Paul Rudder, to track down a missing witness who might be able to provide an alibi for his client, Diamond, a notorious mob hitman who's scheduled to go on trial in a week for murder he claims he didn't commit. Swann's search for the missing witness, who happens to be the defendant's girlfriend, takes him from Brooklyn to a small beach town across the bay from Mobile, Alabama. But what does she really know and will she even come back with him to testify for her boyfriend? Praise for SWANN'S DOWN: "From Manhattan to Coney Island to the steamy shores of Alabama, Charles Salzberg delivers a top-flight mystery with his latest Henry Swann outing. Highly recommended." —Tom De Haven, New York Times bestselling author as Richard Castle "Psychics, double-crosses, and missing persons—Charles Salzberg's latest Henry Swann book has it all. Swann's Down is a gritty, no-frills PI novel that brings to mind greats like Reed Farrel Coleman's Moe Prager and Michael Harvey's Michael Kelly. Whether this is your first Swann adventure or the latest, you won't want to miss the brass-knuckle page-turner that is Swann's Down. Trust me." —Alex Segura, author of Blackout and Dangerous Ends "Swann's Down gives readers two intriguing mysteries for the price of one

skip tracer Henry Swann pursues a woman who might alibi a murderer and a psycho who swindled the ex-wife of Swann's partner. Swann's wry wit, quotes from authors and philosophers, genius for questioning suspects, and dark past make him a character readers will follow anywhere as he seeks his quarry. This is another thrilling addition to this excellent series." —Rich Zahradnik, Shamus Award-winning author of *Light Out Summer* "Henry Swann dives in where others fear to tread in Swann's *Down Fast*. Funny. And smart. This time out, Swann crosses paths with a psycho hitman, a phony psychic and Swann's mysterious partner, a disbarred lawyer. Who could do more? I hope we'll see a lot more of Swann in the future and that this isn't Swann's swan song." —Paul D. Marks, Shamus Award-winning author of *White Heat* and *Broken Windows*

IF YOU CAN READ A GPS DEVICE, YOU CAN NAVIGATE--AND SUSTAIN--YOUR COMPANY'S PATH TOWARD DRAMATIC GROWTH AND PROFIT SIMPLE IS BETTER! Businesses today are overwhelmed by complex, expensive, and time-consuming initiatives. These ideas sound great in the boardroom but fail when deployed in the real world. You need a business tool that takes your organization where it needs to go and is so simple and repeatable that anyone can use it. Just like a GPS helps get us where we are going, Leading Your Business Forward lays out a proven but simple process that any business can follow! Using the same five simple steps in every car's global positioning system--Acquiring, Settings, Where To, Recalculating, and Arriving--this book demonstrates just how quickly you can energize and transform your workplace. Leading Your Business Forward utilizes a simple Leadership GPS to show you how to: DETERMINE YOUR ORGANIZATION'S LONG-TERM GOALS ENGAGE YOUR STAFF TO WORK TOWARD THEM GAUGE AND IMPROVE PERFORMANCE ON AN ONGOING BASIS MANAGE SUCCESS SO IT STICKS You will learn how to apply GPS-based methods to mobilize operations while incorporating "destination-focused" initiatives. The authors explain why high-performing companies devote enormous energy toward three vital components: goals, people, and systems. And while the world's most profitable corporations all share a clearly defined vision and mission, what's often missing is a direct link between tactical operational goals and strategic direction. Not anymore. With Leading Your Business Forward you'll learn to incorporate measurable goals into your company's daily regimen. Plus, you'll have the management tools to maintain teams that are engaged, focused, accountable--and poised to drive results. Leading Your Business Forward provides everything you need to determine baseline indicators of capability and measure employee engagement, while setting a course for transformation--from the inside out. Set Your Company's Course for Unparalleled Growth! Over the past decade, business leaders have been given a number of different road maps to success,

all of which promised viable how-to solutions for business growth. They were very good maps, yet, with few exceptions, they did not guide us to a sustainable level of success. What's missing? A true GPS for leaders. Utilizing the five simple steps associated with your car's GPS system, this guide shows executives how to manage expectations and measure employee engagement and accountability while boosting productivity. Having brought their critical insight and innovation to bear at firms like Michelin Tire, Harley-Davidson, Learjet, Lockheed Martin, Boeing, Styrolution, DuPont, Boar's Head, Kroger, Revlon, Pfizer, Genentech, and Merck, the authors now present the ultimate resource for leaders. This volume of essays examines the ways in which magical practices are found in different aspects of contemporary capitalist societies. From contract law to science, by way of finance, business, marketing, advertising, cultural production, and the political economy in general, each chapter argues that the kind of magic studied by anthropologists in less developed societies – shamanism, sorcery, enchantment, the occult – is not only alive and well, but flourishing in the midst of so-called 'modernity'. Modern day magicians range from fashion designers and architects to Donald Trump and George Soros. Magical rites take place in the form of political summits, the transformation of products into brands through advertising campaigns, and the biannual fashion collections shown in New York, London, Milan and Paris. Magical language, in the form of magical spells, is used by everyone, from media to marketers and all others devoted to the art of 'spin'. While magic may appear to be opposed to systems of rational economic thought, Moeran and Malefyt highlight the ways it may in fact be an accomplice to it.

"Before in-car GPS devices, before highway numbers, even before road atlases, there were "photo-auto guides." A century ago, early motorists used these to make cross-country trips by taking the right turn at the yellow farmhouse, or the uphill fork near the big oak." "This book reproduces a 1905 guide used to navigate from Chicago to Lake Geneva and Beloit, with photos of the same scenes a century later. It shows a Chicago region that has been transformed - and even more remarkable, a few scenes that have remained unchanged. The original maps and modern maps help you carefully retrace the route. Whether you want to journey from Chicago to Lake Geneva, or just travel through time, you'll enjoy the trip."--BOOK JACKET.
