**Are you considering becoming an engineer? Do you know someone who could be? This a great book for them to learn what they are getting into. Engineering offers a life full of fun, excitement, and job satisfaction. However, getting through all the difficult technical courses, dealing with professors who don't know how to talk on a student's level, and the normal hoops of college life can make the path to becoming an engineer quite challenging. I hope to provide readers with an insight to what to expect as an engineering student.**

Readers can also expect a few tricks of the trade to help them not only survive, but help them thrive as an engineering student. There are hordes of books for students that strive to be medical doctors or lawyers, but there is a lack of literature for the student who wants to become an engineer. This book fills that void.

The name of Tait, Taite, Taitt, Taitte, Tate, Tatte, Tayt, Tayte, Teat, Teate, Teit and Teite has its origin in Norway where it was used as a personal name. It is an Anglo-Saxon name meaning "cheerful". The family was found in England in the ninth century. John Tate, born ca 1687 in St. Petersburg parish, New Kent, Virginia, is the first proven ancestor. His wife's name was Lucy. He married secondly, Mary, but all children were by the first wife. John died by November 1768. James Tate, born 1618 came from St. Katherine, near London on 27 April 1635. This appears to be the emigrant ancestor. He settled in Virginia.

*Everett Monroe can't keep his eyes off his gorgeous tenant. He'd like to put his hands on her too, but she's prickly, closed-off, and gives new meaning to the word disgruntled. In other words, she's his perfect match and he'll do anything to make her see it too. Willa Hill has finally left her teen runaway past behind and wants a fresh start--alone. Men are nothing but trouble and she's had enough man-trouble to last a lifetime. Too bad her irresistibly sexy, nerdy-hot landlord doesn't agree. When their mutual yearning becomes a white-hot fling and passion crosses carefully drawn, albeit one-sided boundaries, Everett finds himself in love and Willa finds herself in a pickle. Because, unfortunately, when she returned to Green Valley, her problems came too. When the past she escaped crashes into the future she finds herself wanting more than anything, will Willa stay in Green Valley? Or will she run away again? 'Carpentry and Cocktails' is a full-length contemporary romance, can be read as a standalone, and is book #5 in the Green Valley Library series, Green Valley World, Penny Reid Book Universe.*

*Thirteenth-century Bohemia is a dangerous place for a girl, especially one as odd as Mouse, born with unnatural senses and an uncanny intellect. Some call her a witch. Others call her an angel. Even Mouse doesn't know who—or what—she is. But she means to find out. When young King Ottakar shows up at the Abbey wounded by a traitor's arrow, Mouse breaks church law to save him and then agrees to accompany him back to Prague as his personal healer. Caught in the undertow of court politics at the castle, Ottakar and Mouse find themselves drawn to each other as they work to uncover the threat against him and to unravel the mystery of her past. But when Mouse's unusual gifts give rise to a violence and strength that surprise everyone—especially herself—she is forced to ask herself: Will she be prepared for the future that awaits her?
