Enter the “fascinating” and frightening world of modern forensic psychology as experienced by one of the most respected practitioners in the field today (Robert K. Tanenbaum, New York Times–bestselling author). At the heart of countless crimes lie the mysteries of the human mind. In this eye-opening book, Dr. Cheryl Paradis draws back the curtain on the fascinating world of forensic psychology, and revisits the most notorious and puzzling cases she has handled in her multifaceted career. Her riveting, sometimes shocking stories reveal the crucial and often surprising role forensic psychology plays in the pursuit of justice—in which the accused may truly believe their own bizarre lies, creating a world that pushes them into committing horrific, violent crimes. Join Dr. Paradis in a stark concrete cell with the indicted as she takes on the daunting task of mapping the suspect's madness or exposing it as fakery. Take a front-row seat in a tense, packed courtroom, where her testimony can determine an individual's fate—or if justice will be truly served. The criminal thought process has never been so intimately revealed—or so darkly compelling—as in this “excellent and entertaining” journey into the darkest corners of the human mind (Booklist).

This book offers a complete overview on non colorectal non neuroendocrine (NCRNNE) liver metastases and describes in detail the currently available therapies. Each chapter focuses on the treatment of metastases from a particular

primary malignancy and also provides valuable information on incidence, natural history and diagnosis. NCRNNE liver metastases are rare entities compared with colorectal and neuroendocrine metastases, for which the treatments are well codified. While more publications have appeared on the topic in recent years, an in-depth study has to date been lacking. Furthermore, most published series are insufficiently comparable as they comprise patients with NCRNNE hepatic metastases from a variety of primary malignancies and consequently overlook differences in tumor behavior, frequency of isolated hepatic metastases, response to neoadjuvant or adjuvant therapy and interval between diagnosis of the primary tumor and the liver metastases. This book, with its more specific approach, will serve not only as an up-to-date guide to diagnosis and treatment but also as a reference on which to base future studies.

Reviews topics covered on the exam, offers test taking tips, and includes six practice exams.

The book *?tu Vidy?* emerged in search of answers to questions asked by adolescent girls and women in India during the author's interactions with them as part of Menstrual Health workshops, conducted over a span of a decade across rural India. In an attempt to decode menstrual practices, the author undertook a journey across India and studied various indigenous knowledge systems such as *?a?-Dar?ana*, *?yurved*, *Tantra*, *Cakra*, *Y?g*, *?gama ??stra*, *Jyotis?a ?a?stra*, and several sub-texts from these categories. As a result, the book goes beyond just describing cultural practices and takes a deep dive into explaining the scientific and logical reasoning behind the origin of these practices. This book is for all Indian women who have unanswered questions pertaining to menstrual practices, for menstrual researchers who will find a treasure trove of potential areas for research pertaining to menstrual health, for sportswomen to discover the ancient techniques that worked in sync with women's periods and not against it, and also for the feminist who assumes that cultural practices around menstruation are a taboo that needs to be done away with. The correct understanding of the science behind menstrual practices, as given in this book, will help women prevent menstrual difficulties, develop a positive attitude toward menstruation, and learn to work in sync with nature's cycles. *?tu* (pronounced as *ruthu*) is one of the terms for menstruation in Sanskrit. *Vidy?* means knowledge. *?tu Vidy?* is the author's attempt to bring together various indigenous knowledge systems that provide information about the science of menstruation, which is relevant even to this day.

First published in 1920, this book is a translation-the only known work of British scholar CLARENCE EDWIN ROLT (1880-1917)-of *On the Divine Names and The Mystical Theology*, by Dionysius the Areopagite, a first-century bishop of Athens. The author is often also referred to as "pseudo-Dionysius" because a variety of anachronisms suggest that the manuscript was actually written much later by an unknown writer. Despite the book's unclear origins, the writings are still greatly valued for their theological insight. Saint Thomas Aquinas often quoted from pseudo-Dionysius, as did many other famous and influential theologians and philosophers. Pseudo-Dionysius deals, here, with the *Supra-Personality of God*. *Personality*, by definition, is a quality limited to

an individual. God, on the other hand, is the opposite of an individual. God is in all things, so one cannot speak of a personality for the divine. Rather, pseudo-Dionysius proposes a Supra-Personality, which describes aspects and qualities of the universal being. Religious scholars and Christians wanting a different understanding of the relationship between God and the universe will find this a challenging but ultimately thought-provoking study.

The Extraordinary Life of Anna Swan

CIBSE Guide C.

You can't always get what you wish for. Or can you? Two siblings' family life is threatened by the dual misfortunes of their father's shock redundancy and Dad's inheritance of a dilapidated old house in Devon. But hope comes in the unlikeliest form! When cheeky die-hard Londoner Mia Fishlock (11) and her adorably violent little brother, Kaz, discover the decrepit washing machine in their spooky new home has magic

power, granting wish after wish, they delightedly rename the washing machine the Wishing Machine! But, with magic power comes great responsibility. As does much screwball potential for the wishes to go horribly wrong. The Wishing Machine is a contemporary fairy-tale story set in the harsh real world, providing the young and the young at heart with a thoroughly modern and humorous twist on the traditional fairy-tale theme of Be Careful What You Wish For!

On a balmy August morning in 1846, a child was born to Ann and Alexander Swan in the couple's small wood cabin in Millbrook, Colchester County, Nova Scotia. This in itself was not odd, as home was where babies were most often born in the mid 19th century. What was surprising, however, was that Anna Swan weighed an amazing 6 kilograms (13 pounds) -almost twice the size of an average newborn. Anna Swan grew to an astonishing size -nearly 2.5 meters (almost 8 feet) tall. She was billed as "The Nova Scotia Giant Girl" at P.T. Barnum's American Museum in New York. But despite her unusual and challenging physical attributes, she rose above adversity and led the life of love, happiness and great accomplishments. This is her remarkable story.

Althusser and Law is the first book specifically dedicated to the place of law in Louis Althusser's philosophy. The growing importance of Althusser's philosophy in contemporary debates on the left has - for practical and political, as well theoretical reasons - made a sustained consideration of his conception of law more necessary than ever. As a form of what Althusser called 'Ideological State Apparatuses', law is at the forefront of political struggles: from the destruction of Labour Law to the

exploitation of Patent Law; from the privatisation of Public Law to the ongoing hegemony of Commercial Law; and from the discourse on Human Rights to the practice of judicial courts. Is Althusser still useful in helping us to understand these struggles? Does he have something to teach us about how law is produced, and how it is used and misused? This collection demonstrates that Althusser's ideas about law are more important, and more contemporary, than ever. Indeed, the contributors to *Althusser and Law* argue that Althusser offers a new and invaluable perspective on the place of law in contemporary life.

On a South Pacific island during the last decades of the twentieth century, indigenes, migrant workers and European managers struggle to understand and define themselves and their place in the incomprehensible world shaped by the Van Island Palm Oil Development Company. A volatile and brutal state of affairs explodes as rape, murder and anarchy become the order of the day. Out of the chaos comes a yearning for comfort and leadership which manifests itself as a belief in Annu, the one who will save us. When he does appear, however, he is lynched by the foolish mob, as a scapegoat. The irresistible myth persists, nonetheless. Those who submit to its magic, and keep faith with it, find a way out of the traumatic condition, and are guided to a place where they may live in harmony, with themselves, with their brothers and their sisters and with nature. Nick Ashton-Jones presents a rich diversity of characters - indigenes and migrants, rich and poor, the sophisticated and the meek - with whom we can all identify. Love and hate occupy the same space in the mind but, though adversity and with a willingness to believe in Annu, love triumphs. Annu is our humanity. A ripping and often humorous yarn but also a serious metaphor for spiritual survival in the modern world.

While in a state of despair after the death of his brother, the author is visited by Acharya, an Indian mystic. Using astral projection, Acharya takes him out of the physical world onto the astral planes of the 'afterlife'. Each astral plane teaches something new about life and death, karma and the ego. Through a series of meetings with the 'dead' - including his brother - the author comes to realise how irrational it is to fear death. Through his teaching, Acharya opens up a whole vision of life in the world that follows this, a world where anything is possible. Based on notes taken immediately following out-body experiences, this book is both enlightening and absorbing. It gives the reader a direct insight into the unknown mysteries of life and death.
