The guide all MBAs and executive students need. If you're enrolled in an MBA or executive education program, you've probably encountered a powerful learning tool: the business case. But if you're like many people, you may find interpreting and writing about cases mystifying and time-consuming. In *The Case Study Handbook, Revised Edition*, William Ellet presents a potent new approach for efficiently analyzing, discussing, and writing about cases. Early chapters show how to classify cases according to the analytical task they require (making a decision, performing an evaluation, or diagnosing a problem) and quickly establish a base of knowledge about a case. Strategies and templates, in addition to several sample Harvard Business School cases, help you apply the author's framework. Later in the book, Ellet shows how to write persuasive case-analytical essays based on the process laid out earlier. Examples of effective writing further reinforce the methods. The book also includes a chapter on how to talk about cases more effectively in class. Any current or prospective MBA or executive education student needs this guide.

New fully revised and updated edition of our popular and student-focused guide to passing this unusual examination. We have extensively revised the text to take into account the lessons learned from the latest examination (True Taste Limited, November 2016), integrating some related tips provided by the Case Study examiners at the 2017 ICAEW Tutor Conference. We have also added our review of the 2017 ICAEW Study Manual for Case Study which has been heavily redrafted by the examiners. This new edition of Cracking Case has been rewritten from scratch, representing our first substantial rewrite for several sittings. We have reduced the number of chapters from 24 to 18 whilst maintaining all essential content and tips. The new edition further improves our popular and ICAEW prize-winning "Planning & Reminder Sheets", lovingly honed and prepared to keep you focused on mark-scoring points - as used on our November 2016 tuition courses, which achieved a pass rate of 98%. This book is aimed at both re-sit students and first timers who wish to ensure a pass in this highly unusual examination. Includes 20 discount voucher against our July 2017 live mock exam pack: 5 realistic mock exams based on the live July 2017 Advance Information, giving you 5 opportunities to practise your timing and technique whilst only reading one set of (relevant) Advance Information. (We are aiming to release the mock pack in June 2017.) Explains the ACA Simplified "40 Task Approach(TM)" to cracking the ACA Case Study. Organised into 18 Chapters and 5 Appendices, this book will take you through our carefully designed and practical approach to gaining the marks you need to pass. Includes detailed "student eye" views from 2 students who increased their grades by 20 percentage points each between the July 2012 and November 2012 sittings using the 40 Task Approach(TM). Our unique method is completely focused on the markscheme and unlocks the secrets of a pass through a simplified approach which is radically different from the standard "4 Column Planning Grid" endorsed by many other providers. Successfully used by the July 2014 ICAEW international Case Study prize winner who scored 92% at his first attempt and also by the 2014 ICAEW East Midlands Case Study prize winner who placed first in his region after attending our retake course (having failed first time with another provider). Please also see the numerous other 5 star reviews on Amazon.co.uk posted by students we have helped since the first edition of "Cracking Case" was published.
