

Chse Class 7 Golden Guide

A Tale of Two Cities (1859) is a historical novel by Charles Dickens, set in London and Paris before and during the French Revolution. The novel tells the story of the French Doctor Manette, his 18-year-long imprisonment in the Bastille in Paris and his release to live in London with his daughter Lucie, whom he had never met. The story is set against the conditions that led up to the French Revolution and the Reign of Terror.

The growth and adventures of an elephant and his young master.

History, Geography and Civics provides an in-depth and engaging introduction to teaching and learning socio-environmental education from F-6 in Australia and New Zealand. It explores the centrality of socio-environmental issues to all aspects of life and education and makes explicit links between pedagogical theories and classroom activities. Part I introduces readers to teaching and learning history, geography and environmental studies, and civics and citizenship, as well as issues in intercultural and global education. Part II explores the use of media and sources, values and attitudes, assessment and creative teaching. Each chapter provides links to the Australian Curriculum, including cross-curriculum priorities: sustainability, Aboriginal and Torres Strait Islander education, and Asia and Australia's engagement with Asia. History, Geography and Civics encourages the reader to consider their own beliefs, values and attitudes in relation to their teaching and includes provocations and reflective questions to foster discussion and engagement.

The Three Questions

The book that inspired the major new motion picture Mandela: Long Walk to Freedom. Nelson Mandela is one of the great moral and political leaders of our time: an international hero whose lifelong dedication to the fight against racial oppression in South Africa won him the Nobel Peace Prize and the presidency of his country. Since his triumphant release in 1990 from more than a quarter-century of imprisonment, Mandela has been at the center of the most compelling and inspiring political drama in the world. As president of the African National Congress and head of South Africa's antiapartheid movement, he was instrumental in moving the nation toward multiracial government and majority rule. He is revered everywhere as a vital force in the fight for human rights and racial equality. LONG WALK TO FREEDOM is his moving and exhilarating autobiography, destined to take its place among the finest memoirs of history's greatest figures. Here for the first time, Nelson Rolihlahla Mandela tells the extraordinary story of his life—an epic of struggle, setback, renewed hope, and ultimate triumph.

Targeting Mental Maths series consists of eight workbooks for classes 1-8, based on the National Curriculum Framework 2005. The books provide highlights and hints to the role and relevance of numbers in our day-to-day life. Each topic is divided into concepts and each concept is on one page for giving lots of practice. The series aims at helping students to seek and discover interesting lateral patterns and relationships and examples taken from daily life—thus laying a sound foundation for later years.

Three Men in a Boat published in 1889, is a humorous account by English writer Jerome K. Jerome of a two-week boating holiday on the Thames from Kingston upon Thames to Oxford and back to Kingston. The book was initially intended to be a serious travel guide, with accounts of local history along the route, but the humorous elements took over to the point where the serious and somewhat sentimental passages seem a distraction to the comic novel. One of the most praised things about Three Men in a Boat is how undated it appears to modern readers - the jokes have been praised as fresh and wit

Lakhmir Singh's Science is a series of books which conforms to the NCERT syllabus. The main aim of writing this series is to help students understand difficult scientific concepts in a simple manner in easy language. The ebook version does not contain CD.

Alberuni's India

An astonishing, richly interwoven story from #1 bestselling author Joanne M. Harris (The Gospel of Loki, Chocolate), beautifully illustrated by the multiple award-winning Charles Vess (Stardust, The Books of Earthsea). Long ago and far away, Far away and long ago, The World was honeycomb, we know, The Worlds were honeycomb. The beauty of stories is that you never know where they will take you. Full of dreams and nightmares, Honeycomb is an entrancing mosaic novel of original fairy tales from bestselling author Joanne M. Harris and legendary artist Charles Vess in a collaboration that's been years in the making. Dark, gripping, and brilliantly imaginative, these magical tales will soon have you in their thrall. Each original tale is a small piece of the larger picture - a clue or a message, a theme, or a warning - interwoven with the tale of the Lacing King as he travels the Worlds and encounters a multitude of characters: a toymaker who wants to create the perfect wife; a princess whose heart is won by words, not actions; a tiny dog whose confidence far outweighs his size; and the vengeful Spider Queen, and deadly Harlequin. . . . Turn the page, and be swept up in the adventure. Perfect for fans of Sandman, The Djinn in the Nightingale's Eye, Piranesi and The Midnight Library, this tour de force is a beautiful achievement, from two exceptional creators at the top of their game.

The present book on NCC is published for the benefit of all the cadets of National Cadet Corps. The book covers all aspects of NCC training in appropriate detail and comprises the latest study material on both common and specialised subjects with exhaustive exercises. The Adventures of Sherlock Holmes is a collection of twelve stories written by Arthur Conan Doyle, featuring his famous detective. Venture back in time to Victorian London to join literature's greatest detective team -- the brilliant Sherlock Holmes and his devoted assistant, Dr. Watson -- as they investigate a dozen of their best-known cases. Originally published in 1892, this is the first and best collection of stories about the legendary sleuth. It's also the least expensive edition available. Featured tales include several of the author's personal favorites: "A Scandal in Bohemia" -- in which a king is blackmailed by a former lover and Holmes matches wits with the only woman to attract his open admiration -- plus "The Speckled Band," "The Red-headed League," and "The Five Orange Pips." Additional mysteries include "The Blue Carbuncle," "The Engineer's Thumb," "The Beryl Coronet," "The Copper Beeches," and four others.

The series, Awareness Social Sciences for classes VI, VII and VIII is based on the syllabus as specified by NCERT for the latest sessions. The syllabus has tried to link the academic curriculum with real life and, thus, dwelled on connecting the students' understanding with the real world around them. Accordingly, this book has incorporated real life examples , case studies, story lines and narratives which could be immensely helpful in assimilation and to inculcate interests among the students significantly.

Targeting Mathematics series consists of nine textbooks; one for Primer and eight textbooks for classes 1-8. These books have been formulated strictly in accordance with the Continuous and Comprehensive Evaluation (CCE) approach of Central Board of Secondary Education (CBSE) and are based on the latest syllabus. The series also conforms to the guidelines of National Curriculum Framework 2005. The books have been written by experienced and renowned authors.
