"The Pro Tours' Hottest Coach" (Golf Digest) reveals the secrets that helped Phil Mickel the 2010 Masters and can utterly transform every player's game. When a resurgent P Mickelson won the Tour Championship in September 2009, he was quick to credit a s simple putting lessons from veteran golf champion and instructor Dave Stockton. As a coach, Stockton has taught a long list of pro players-including Annika Sorenstam, Yani (winner of four LPGA tournaments), Adam Scott (Texas Open champion), Hunter Mahan (Phoenix Open champion), and Morgan Pressel (World Ladies Championship of Japan winner)-the putting strategies that finessed their game. Stockton's breakthrough conc every player has their own Signature Stroke, which is unconscious. Good putting come mind, Stockton says, not from a series of stiff mechanical positions. With visualization frame of mind, an efficient pre-putt routine, and connection to the individual internal s signature, any player can make far more putts. Putting has always been taught as an the full swing, when in reality it is far different- almost a different game. Unconscious will help players get out of the rigid, mechanical, overthinking trap. In Unconscious Put Stockton shows how players at every handicap level-from pros to weekend golfers-can effortlessly and with confidence by integrating a new mental approach with a few sim physical routines that will keep them locked on target. reason or another, become stuck. The 'stuckness' originates from many different places: woundedness, fear, control, unbelief, religious barriers - and creates a frustration in the heart that becomes unbearable. Many artists, unable to understand what's really going on, either headlong into 'creativity for creativity's sake' or turn to unhealthy alternatives in order to overcome the pain they are feeling. Many more simply give up, hide the gift by stuffing it down under 'Christian work ethic' and just try to go on with life as usual. Whatever the flavor of 'stuckness', the Father wants His artists to be fully released to worship Him through their creative expression. His desire is that nothing holds them back from the creative freedom for their life. If you're an artist, it's time to walk in the destiny and fullness that God's has for you. Your heart beating fast, your imagination vivid, your eyes wide with wonder and awe - that's His desire for you! A life fully alive, fully engaged, fully embracing the creative freedom He's given you. He's been waiting for this moment your whole life."

The underpinning theme of this book is how children develop as writers and how self-awareness raises achievement. It offers creative approaches to increasing pupil motivation and performance by involving, amongst other things, Drama and ICT. The contributors offer practical advice on ways to meet the needs of boys, able children, SEN pupils and those learning English as an additional language; how to plan effective lessons; how to be flexible within the framework of the NLS; and the role of assessment and how it contributes to self-understanding. Central to all classroom practitioners and students, this innovative book improves general understanding of the process related to composition and transcription and helps to raise the standards of writing in all classrooms.

When a child is struggling with a learning disability or behavioral disorder, it can be overwhelming for their parents, who often do not know what to do or where to turn for help. This groundbreaking book is a "must have" for any parent, educator, or person who cares for and wants to help children who face challenges in school. It will help you to recognize the warning signs that may

indicate a potential problem with a child and explain how to find the best help. This superb guide shows you how to obtain the necessary assessment(s) that will help you to better understand a child's strengths and weaknesses. It also describes what an educational "accommodation" is and how it can serve as a bridge to learning. Every child has the legal right to fully access the learning environment and to show what they truly know when taking tests. The authors describe how accommodations specifically target a child's weaknesses in order to level the playing field in the classroom and during test taking situations. Accommodations can be as simple as giving the child extra time to finish a test or allowing them to take a test in a smaller group to minimize distractions. In addition, this handbook outlines the relevant research to help you understand the big picture of a child's learning and emotional needs. The authors offer extensive discussion of issues such as attention and concentration, memory, executive functioning, language, visual perception and processing, emotional functioning, and social skills. Throughout, they stress that, by focusing on behaviors and not labels, you will be able to better understand the whats, whys, and hows of a child's learning and emotional challenges.

The mental well-being of children and adults is shockingly poor. Marc Brackett, author of Permission to Feel, knows why. And he knows what we can do. "We have a crisis on our hands, and its victims are our children." Marc Brackett is a professor in Yale University's Child Study Center and founding director of the Yale Center for Emotional Intelligence. In his 25 years as an emotion scientist, he has developed a remarkably effective plan to improve the lives of children and adults - a blueprint for understanding our emotions and using them wisely so that they help, rather than hinder, our success and well-being. The core of his

approach is a legacy from his childhood, from an astute uncle who gave him permission to feel. He was the first adult who managed to see Marc, listen to him, and recognize the suffering, bullying, and abuse he'd endured. And that was the beginning of Marc's awareness that what he was going through was temporary. He wasn't alone, he wasn't stuck on a timeline, and he wasn't "wrong" to feel scared, isolated, and angry. Now, best of all, he could do something about it. In the decades since, Marc has led large research teams and raised tens of millions of dollars to investigate the roots of emotional well-being. His prescription for healthy children (and their parents, teachers, and schools) is a system called RULER, a high-impact and fast-effect approach to understanding and mastering emotions that has already transformed the thousands of schools that have adopted it. RULER has been proven to reduce stress and burnout, improve school climate, and enhance academic achievement. This book is the culmination of Marc's development of RULER and his way to share the strategies and skills with readers around

the world. It is tested, and it works. This book combines rigor, science, passion and inspiration in equal parts. Too many children and adults are suffering; they are ashamed of their feelings and emotionally unskilled, but they don't have to be. Marc Brackett's life mission is to reverse this course, and this book can show you how.

While working as a hotel manager, Jon would often assist his guests with their automotive needs, calling on auto clubs to help with a tire change, dead battery or keys locked in a car. Sometimes it would take so long for help to arrive that he would simply grab some tools and do it himself. That's when he realized he could put his own business savvy and strong work ethic into starting and running his own "lock & road" service. His company, Quick Pick Lockout Service, would gross over half a million dollars in it's first three years and, in the process, win AAA's prestigious Member's Choice Award for three consecutive years. (Music Pro Guide Books & DVDs). Here, record producer Beinhorn reveals how to deal with interpersonal issues record producers face when they work with artists one on one or in small groups. The situations and solutions are based upon the author's personal and professional experience working with a variety of different artists, such as Herbie Hancock, the Red Hot Chili Peppers, Soul Asylum, Hole, Soundgarden, Ozzy Osbourne, Courtney Love, Marilyn Manson, Social Distortion, Korn, and Mew.

Beinhorn's unique methods and perspective, applied to record producing and music

making in the studio, opens the door to successful collaborative efforts. The author shows you how to find what he calls your sensory connection to the creativity process, which ultimately helps you find the intent behind your creative choices. You can read dozens of articles and books that feature a hundred different people talking about what microphones they used when they recorded Record X or how they set their stereo buss compressor, but you will never find out what prompted them to make these choices. Beinhorn's focus on collaborative effort enables record producers and artists to find solutions while working as a creative team. This perspective is especially valuable as it is transdisciplinary and can be applied to many occupations and modes of creativity outside of record production.

This book version is in full color and ideal for teams and group learning! Hannah Grady Williams- a 23-year-old Gen Z'r herself-gives leaders a rare glimpse into Gen Z's worldview and provides practical tools they can implement immediately. After graduating from college at 18, Hannah set out to consult firms, from start-ups to Fortune 500 companies, including the likes of Chick-fil-A franchises and 9Round Fitness. You've read articles about the next generation at work. You know

Gen Z is more diverse, entrepreneurially driven, and technologically savvy than any other generation. But why should you care? And more importantly: What's the first step your organization should take to embrace and lead Gen Z effectively? This isn't your traditional textbook report. It's your no-BS guide to connect with Gen Z in the workplace, simplifying how leaders and recruiters can adapt their strategies to attract, retain, engage, and lead the next generation of employees, with actionable, step-by-step assessments and exercises. When companies hire Gen Zers, they are no longer hiring just an employee—they are hiring a brand. Gen Z brings digital consumer expectations to the workplace, demands innovation and efficiency, and shares some surprisingly "old-fashioned" habits with their Gen X and baby boomer colleagues. Yes, there are some stark differences from their millennial predecessors, and you'll want to hear them straight from the voice of Gen Z. In *A Leader's Guide to Unlocking Gen Z*, Hannah Grady Williams answers these questions: Who is Gen Z . . . and why do you need to know? What is the "NarcisStory" and why must leaders understand it to effectively recruit, retain, and communicate with Gen Z? What do HR executives, recruiters, business owners, and forward-thinking managers need to do to remain relevant? What are simple steps leaders and companies can take with Gen Z to unlock their potential? Gen Z is rewriting how we do business, and these are decisive times. Companies who adapt now will have the competitive edge, and *A Leader's Guide to Unlocking Gen Z* is the key to unlocking the potential of this high-performing and rapidly emerging generation.
