Rhetoric is ubiquitous in modern discourse: from arguments delivered in the High Court, to advertisements disseminated in the high street. For the legal and political advocate, persuasion is also a professional technique that must be perfected properly to practise each art. In contrast with the classical era and the middle ages, in which grammar, rhetoric and dialectic were basic features of all education, modern curricula almost entirely neglect any theoretical study of the methods of rhetoric. Rediscovering Rhetoric re-introduces to modern practitioners and students a grasp of the speeches, writings and methodologies of the great classical scholars of rhetoric. Part 1 - Law and Language in the Greco-Roman Tradition provides a contextualised introduction to significant theorists of rhetoric in the classical period, and consists of four chapters written by practising barristers and a current Justice of the Federal Court of Australia. Part 2 - The Practice of Persuasion comprises essays by practitioners distinguished in their pursuit of legal persuasion - one former and two current Justices of the High Court of Australia - illuminating their experiences of argument from the perspective of both bench and bar. Part 3 - The Politics of

Persuasion performs a similar function to Part 2, in the related domain of politics. It includes a chapter by Graham Freudenberg, former speechwriter for Gough Whitlam and others. Together the three parts provide a unique inter-disciplinary perspective on the theory and practice of legal and political persuasion.

The annual McPherson Lecture Series, inspired by the famous Hamlyn Lecture Series in England, hosts a celebrated international scholar or legal expert to deliver a series of three lectures. In this, the third, volume, The Honourable James Jacob Spigelman, considers the theme of statutory interpretation and human rights. The first of the these lectures, 'The Common Law Bill of Rights', considers the principles of the law of statutory interpretation which constitute, in substance, a common law bill of rights. The second lecture, 'The Application of Quasi-constitutional Laws', considers the developing jurisprudence of the application of the special interpretive provision in human rights

legislation and how the principles of statutory interpretation are applied to legislation of this character. The final lecture, 'Legitimate and Spurious Interpretation', considers the difficulties posed for interpretation by the need to balance conflicting human rights and the limits of interpretation. These thought-provoking and timely essays tackle an important and controversial area of law, that has real repercussions for the reputation of the law, the role of judges and the independence of the court system in Australia.

In this acclaimed memoir, Mezlekia recalls his boyhood in the arid city of Jijiga, Ethiopia, and his journey to manhood during the 1970s and 1980s. He traces his personal evolution from child to soldier--forced at the age of eighteen to join a guerrilla army. And he describes the hardships that consumed Ethiopia after the fall of Emperor Haile Selassie and the rise to power of the communist junta, in whose terror thousands of Ethiopians died. Part autobiography and part social history, *Notes from the Hyena's Belly* offers an unforgettable portrait of Ethiopia, and of Africa, during the defining and turbulent years of the last century.

The Cambridge History of Later Greek and Early Medieval Philosophy

At last: an authoritative, up to date account of the troubled reign of King Stephen, by a leading scholar of the Anglo-Norman world. David Crouch covers every aspect of the period - the king and the empress, the aristocracy, the Church, government and the nation at large. He also looks at the wider dimensions of the story, in Scotland, Wales, Normandy and elsewhere. The result (weaving its discussions around a vigorous narrative core) is a work of major scholarship. A must for specialist and amateur medievalists alike.

In contemporary philosophy, substantive moral theories are typically classified as either consequentialist or deontological. Standard consequentialist theories insist, roughly, that agents must always act so as to produce the best available outcomes overall. Standard deontological theories, by contrast, maintain that there are some circumstances where one is permitted but not required to produce the best overall results, and still other circumstances in which one is positively forbidden to do so. Classical utilitarianism is the most familiar consequentialist view, but it is widely regarded as an inadequate account of morality. Although Professor Scheffler agrees with this assessment, he also believes that consequentialism seems initially plausible, and that there is a persistent air of paradox surrounding typical deontological views. In this book, therefore, he undertakes to reconsider the rejection of consequentialism. He argues that it is possible to provide a rationale for the view that agents need not always produce the best possible overall outcomes, and this motivates one departure from consequentialism; but he

shows that it is surprisingly difficult to provide a satisfactory rationale for the view that there are times when agents must not produce the best possible overall outcomes. He goes on to argue for a hitherto neglected type of moral conception, according to which agents are always permitted, but not always required, to produce the best outcomes.

Graffiti writing was born in the streets of Philadelphia in the late 1960s. But it was in New York in the early 1970s that it became a full-fledged urban art, gradually taking over the landscape of the city, from its walls to its subway cars. This is a writing manual, a detailed examination of how graffiti writers have developed the twenty-six letters of the alphabet. It includes the contribution of ten of the international scene's most talented creators answer Woshe's questions about matters that include their practice, their relationship with letters and their backgrounds. It includes a map of New York with the sites where the most important graffiti are located.

Who shall write the history of the American Revolution? Who can write it? asked John Adams in 1815. Renowned scholars Henry Steele Commager and Richard B. Morris have provided a prudent, perceptive answer--the participants themselves--and in the process have fashioned from the vast

source material a thrilling chronological narrative. The Spirit of 'Seventy-Six allows readers to experience events long-entombed in textbooks as they unfold for the first time for both Loyalists and Patriots: the Boston Tea Party, Bunker Hill, the Declaration of Independence, and more. In letters, journals, diaries, official documents, and personal recollections, the timeless figures of the Revolution emerge in all their human splendor and folly to stand beside the nameless soldiers. Profusely illustrated and enhanced by cogent commentary, this book examines every aspect of the war, including the Loyalist and British views; treason and prison escapes; songs and ballads; the home front and diplomacy abroad. In short, the editors have wrought a balanced, sweeping, and compelling documentary history.

By the early ninth century, the responsibility for a series of social, religious and political reforms had become an integral part of running the Carolingian empire. This became especially clear when, in 813/4, Louis the Pious and his court seized the momentum generated by their predecessors and broadened the scope of this correctio ever further. These reformers knew they constituted a movement greater than the sum of its parts; the interdependence of imperial authority and ecclesiastical reformers was driven by comprehensive, yet surprisingly diverse expectations. Taking this diversity as a starting point, this book takes a fresh look at these optimistic decades. Extrapolating from a series of detailed case studies rather than presenting a grand narrative, it offers new interpretations of contemporary theories of correctio, and shows the self-awareness of its main instigators as they pondered what it meant to be a good Christian in a good Christian empire.

Is it possible that the insurance and reinsurance industries cannot handle a major catastrophe? Ten years ago, the notion that the overall cost of a single catastrophic event might exceed \$10 billion was unthinkable. With ever increasing property-casualty risks and unabated growth in hazard-prone areas, insurers and reinsurers now envision the possibility of disaster losses of \$50 to \$100 billion in the United States. Against this backdrop, the capitalization of the insurance and reinsurance industries has become a crucial concern. While it remains unlikely that a single event might entirely bankrupt these industries, a big catastrophe could place firms under severe stress, jeopardizing both policy holders and investors and causing profound ripple effects throughout the U.S. economy. The Financing of Catastrophe Risk assembles an impressive roster of experts from academia and industry to explore the disturbing yet realistic assumption that a large catastrophic event is inevitable. The essays offer tangible means of both reassessing and raising the level of preparedness throughout the insurance and reinsurance industries.

Aiden From the second I saw her, I knew she'd be my ruin. Sitting all alone at the bar, she looked like an angel. Eurydice in human form; her beauty eclipsed by demons. Now, I'm one of them. The ghost she's tried for years to escape. Thinking I wouldn't be able to find her. But I never stopped trying, and now that I have, her past sins should be the least of her worries. Riley From the moment he saw me, I knew I'd ruin his life. Alone at the bar, I dared the monster to come and play. Orpheus in the flesh, with his sad songs and strange obsessions. I became one of them. The siren who calls to the darkest parts of him. Only, I disappeared before he could act on it. But now he's here, and he wants me to repent for my sins. *** *Vipers and Virtuosos is a full-length, standalone dark rockstar romance inspired by the myth of Orpheus and Eurydice.
