200 or higher, which is equivalent to 56% correct, is needed to pass. In other words, you need to answer approximately 67 questions correctly to achieve a passing score. If you do not achieve a passing score, review the detailed explanations for the questions

you answered incorrectly. Note which types of questions you answered wrong, and re-examine the corresponding review. After further review, you may want to retake the practice tests. When will I receive my score report and what will it look like?

Approximately one month after you take the test, your score report will be mailed to you. You will receive two original score reports and are responsible for sending one to the Bureau of Teacher Certification. A copy of your score report is provided to

one Florida college or university and one Florida school district. You should have requested this information on your registration application. When you receive your score report and have passed with a 200 or higher, only the word PASS will be reported. If you do

not pass, you will receive a numeric score and will have to retake the test.

Studying for the FTCE It is very important for you to choose the time and place for studying that works best for you. Some individuals may set aside a certain number of hours every

morning to study, while others may choose to study at night before going to sleep. Other people may study during the day, while waiting on line, or even while eating lunch. Only you can determine when and where your study time will be most effective. Be

consistent and use your time wisely.

Work out a study routine and stick to it.

When you take the practice tests, simulate the conditions of the actual test as closely as possible. Turn your television and radio off, and sit down at a quiet table free from distraction. As

you complete each practice test, score your test and thoroughly review the explanations to the questions you answered incorrectly; however, do not review too much at any one time.

Concentrate on one problem area at a time by reviewing the question and

explanation, and by studying our review until you are confident that you have mastered the material. Keep track of your scores. By doing so, you will be able to gauge your progress and discover general weaknesses in particular sections. Give extra attention

to the reviews that cover your areas of difficulty, as this will build your skills in those areas. Test-Taking Tips

Although you may not be familiar with tests like the FTCE, this book will help acquaint you with this type of exam and help alleviate your test-taking

anxieties. Listed below are ways to help you become accustomed to the FTCE, some of which may be applied to other tests as well. Become comfortable with the format of the FTCE. When you are practicing, simulate the conditions under which

you will be taking the actual test. Stay calm and pace yourself. After simulating the test only once, you will boost your chances of doing well, and you will be able to sit down for the actual FTCE with much more confidence. Read all of the possible

answers. Just because you think you have found the correct response, do not automatically assume that it is the best answer. Read through each choice to be sure that you are not making a mistake by jumping to conclusions. Use the process of elimination. Go through

each answer to a question and eliminate as many of the answer choices as possible. By eliminating two answer choices, you have given yourself a better chance of getting the item correct since there will only be two choices left from which to make

your guess. Do not leave an answer blank; it is better to guess than to not answer a question on the FTCE test. Work quickly and steadily. You will have two and one-half hours to complete the test, so work quickly and steadily to avoid focusing on any one

problem too long. Taking the practice tests in this book will help you learn to budget your precious time. Learn the directions and format of the test.

Familiarizing yourself with the directions and format of the test will not only save time, but will also help

you avoid anxiety (and the mistakes caused by getting anxious). Be sure that the answer circle you are marking corresponds to the number of the question in the test booklet. Since the test is multiple-choice, it is graded by machine, and marking one wrong

Before you leave for the test center, make sure that you have your admission ticket and two forms of identification, one of which must contain a recent photograph, your name, and signature (i.e., driver's license). You will not be admitted to

However, you may not wear one that

no breaks. Procedures will be followed to maintain test security. Once you enter the test center, follow all of the rules and instructions given by the test supervisor. If you do not, you risk being dismissed from the test and having your scores cancelled. When all
