The SAT II: German is a one-hour exam consisting of 80 to 85 multiple-choice questions that are designed to measure the gradual development of competence in

the German language acquired over a period of years. About 50% of the test measures vocabulary and structure in context or grammar. The rest measures reading comprehension. In light of Educational Testing Service's

stated intention to comply with the German spelling reform (Rechtschreibreform), REA, too, has sought to adhere to the spelling reform throughout this book. SCORING THE SAT II: GERMAN TEST How do I score

my practice tests? The SAT II: German Test, like all other SAT Subject Tests, is scored on a 200-800 scale. Your exam is scored by crediting one point for each correct answer and deducting one-third of a point for

each incorrect answer. There is no deduction for answers that are left blank. Use the worksheet below to calculate your raw score and to record your scores for the six practice tests. When will I receive my score report and what

will it look like? You can expect to receive your score report within about five weeks after you take the test. This report will include your scores, percentile ranks, and interpretive information.

STUDYING FOR THE SAT II:

before going to sleep. Only you can determine when and where your study time will be most effective. Be consistent and use your time wisely. Work out a study routine and stick to it! When you take the practice tests, try to

make your testing conditions as much like the actual test as possible. Turn your television and radio off, and sit down at a quiet desk or table free from distraction. Make sure to clock yourself with a timer. As you complete each
