**Healthcare providers, consumers, researchers and policy makers are inundated with unmanageable amounts of information, including evidence from healthcare research. It has become impossible for all to have the time and resources to find, appraise and interpret this evidence and incorporate it into healthcare decisions. Cochrane Reviews respond to this challenge by identifying, appraising and synthesizing research-based evidence and presenting it in a standardized format, published in The Cochrane Library (www.thecochranelibrary.com). The Cochrane Handbook for Systematic Reviews of Interventions contains methodological guidance for the preparation and maintenance of Cochrane intervention reviews. Written in a clear and accessible format, it is the essential manual for all those preparing, maintaining and reading Cochrane reviews. Many of the principles and methods described here are appropriate for systematic reviews applied to other types of research and to systematic reviews of interventions undertaken by others. It is hoped therefore that this book will be invaluable to all those who want to understand the role of systematic reviews, critically appraise published reviews or perform reviews themselves.**

A Comprehensive Guide to Taxation in Malawi is exactly that, a comprehensive guide to Malawi tax. It is meant to assist a wide variety of users from students to the business community. It aims to bring a practical approach to taxation and enable an appreciation of real-life scenarios for tax purposes. It is meant to bring taxation to life, to simplify taxation concepts and bring a comprehensive view of tax to the reader. It brings novel topics that are traditionally not discussed in tax books such as inheritance tax, deferred tax, trusts, stamp duties tax audits, and transfer pricing.

Leviathan or The Matter, Forme and Power of a Common-Wealth Ecclesiastical and Civil is a book written by an English materialist philosopher Thomas Hobbes about problems of the state existence and development. Leviathan is a name of a Bible monster, a symbol of nature powers that belittles a man. Hobbes uses this character to describe a powerful state ("God of the death"). He starts with a postulate about a natural human state ("the war of all against all") and develops the idea "man is a wolf to a man". When people stay for a long time in the position of an inevitable extermination they give a part of their natural rights, for the sake of their lives and general peace, according to an unspoken agreement to someone who is obliged to maintain a free usage of the rest of their rights - to the state. The state, a union of people, where the will of a single one (the state) is compulsory for everybody, has a task to regulate the relations between all the people. The book was banned several times in England and Russia.

A Guidebook on the Elements of Crime

**Article 10 § 2.**

**This book builds an overarching view of the essential elements, themes, and teachings of the worlds oldest surviving faith tradition Hinduism. Each theme is divided in easy to follow lessons. Highly philosophic content of Vedic chants is made simple enough for students as young as 5. For in-depth study, several appendices guide students into scholarly understanding of complex philosophic ideas such as the nature of reality, the nature of the mind, and the cosmic laws enshrined in the Vedic and post-Vedic texts. As a teacher with 20+ years of experience, the author presents ancient wisdom in simple language. Many books have been written about Hinduism, many of them incomplete and confusing. This book will appeal to those seeking an easy to read, logical approach to both understanding and teaching Hinduism. The book will be useful to parents, grandparents, teachers and students alike.**
