these formulas and tables when you take the actual exam. You should also use this material when taking the practice tests in this book.

ABOUT THE TEST

The Advanced Placement Chemistry Examination is

File Type PDF

Chapter 2

offered each May at participating schools and multi-school centers throughout the world. The Advanced Placement Program is designed to allow high school students to pursue college-level

File Type PDF

Chapter 2

studies while attending high school. The participating colleges, in turn, grant credit and/or advanced placement to students who do well on the examinations. The Advanced Placement

File Type PDF

Chapter 2

Chemistry Test

Chemistry course is designed to be the equivalent of a college introductory chemistry course, often taken by chemistry majors in their first year of college. Since the test covers a broad range of topics, no student

File Type PDF

Chapter 2

Chemistry Test

is expected to answer all of the questions correctly. The exam is divided into two sections:  
1) Multiple-choice:  
Composed of 75 multiple-choice questions designed to test your ability to recall and

File Type PDF

understand a broad range of chemical concepts and calculations. This section constitutes 45% of the final grade and you are allowed 90 minutes for this portion of the exam. Calculators are not permitted for this section of

the exam. 2) Free-response section: Composed of several comprehensive problems and essay topics. This section constitutes 55% of the final grade and the student is allowed 90 minutes for this portion of the

SCORING The  
multiple-choice  
section of the  
exam is scored by  
crediting each  
correct answer  
with one point, and  
deducting only  
partial credit (one-  
fourth of a point)

for each incorrect answer. Omitted questions receive neither a credit nor a deduction. The essay section is scored by a group of more than 1,000 college and high school educators familiar with the AP Program.

These graders

File Type PDF

Chapter 2

evaluate the accuracy and coherence of the essays accordingly. The grades given for the essays are combined with the results of the multiple-choice section, and the total raw score is then converted to
