**#1 NEW YORK TIMES, WALL STREET JOURNAL, AND BOSTON GLOBE BESTSELLER • One of the most acclaimed books of our time: an unforgettable memoir about a young woman who, kept out of school, leaves her survivalist family and goes on to earn a PhD from Cambridge University “Extraordinary . . . an act of courage and self-invention.”—The New York Times NAMED ONE OF THE TEN BEST BOOKS OF THE YEAR BY THE NEW YORK TIMES BOOK REVIEW • ONE OF PRESIDENT BARACK OBAMA’S FAVORITE BOOKS OF THE YEAR • BILL GATES’S HOLIDAY READING LIST • FINALIST: National Book Critics Circle’s Award In Autobiography and John Leonard Prize For Best First Book • PEN/Jean Stein Book Award • Los Angeles Times Book Prize Born to survivalists in the mountains of Idaho, Tara Westover was seventeen the first time she set foot in a classroom. Her family was so isolated from mainstream society that there was no one to ensure the children received an education, and no one to intervene when one of Tara’s older brothers became violent. When another brother got himself into college, Tara decided to try a new kind of life. Her quest for knowledge transformed her, taking her over oceans and across continents, to Harvard and to Cambridge University. Only then would she wonder if she’d traveled too far, if there was still a way home. “Beautiful and propulsive . . . **"The United States Code is the official codification of the general and permanent laws of the United States of America. The Code was first published in 1926, and a new edition of the code has been published every six years since 1934. The 2012 edition of the Code incorporates laws enacted through the One Hundred Twelfth Congress, Second Session, the last of which was signed by the President on January 15, 2013. ***Session, enacted between January 2, 2013, the date it convened, and January 15, 2013. By statutory authority this edition may be cited "U.S.C. 2012 ed." As adopted in 1926, the Code established prima facie the general and permanent laws of the United States. The underlying statutes reprinted in the Code remained in effect and controlled over the Code in case of any discrepancy. In 1947, Congress began enacting individual titles of the Code into positive law. When a title is enacted into positive law, the underlying statutes are repealed and the title then becomes legal evidence of the law. Currently, 26 of the 51 titles in the Code have been so enacted. These are identified in the table of titles near the beginning of each volume. The Law Revision Counsel of the House of Representatives continues to prepare legislation pursuant to 2 U.S.C. 285b to enact the remainder of the Code, on a title-by-title basis, into positive law. The 2012 edition of the Code was prepared and published under the supervision of Ralph V. Seep, Law Revision Counsel. Grateful acknowledgment is made of the contributions by all who helped in this work, particularly the staffs of the Office of the Law Revision Counsel and the Government Printing Office"--Preface.***

**Inhaltsangabe:Introduction: The global banking sector is currently undergoing fundamental changes. Banks face new challenges created by socio-economic and political developments and the potential of new information and communication technologies. Competition has risen to formerly unknown levels and active management of costs has become an ongoing tasks. Unlike the manufacturing industries most banks still cover large parts of their value chain by themselves. Lead by Anglo-Saxon institutes global banks have started in recent years to use the advantages of globalization by splitting up their value chains and by offshoring selected functions to countries offering wage differentials. According to experts banks have just started to create their global sourcing model, so that the offshoring volume is projected to increase further. While most banks have started their offshoring initiatives with IT functions, business process offshoring and even knowledge process offshoring have now become the main drivers of the move to the key offshoring locations like India, China and Eastern Europe. Banks from Switzerland have been spectators to the global move towards a global delivery model for many years. Only its two large global banks - UBS and Credit Suisse - have started offshoring initiatives yet trying to catch up with their global competitors. They face challenges especially from the legal and regulatory side, which are specific to offshoring from Switzerland, and have to balance cost discipline with keeping the high standards in quality, security and confidentiality, which are the base for the high reputation of the Swiss banking market. **Business Process Outsourcing**

The book deals with the emerging concept of BPO s and KPO s in the service industry. With the advent of the era of competition and gradual opening up of the economy, there is relocation of manufacturing and service all over the world based on cost and people considerations. At this juncture, the concept of outsourcing has come up as a major development with flourishing call centres. The service providers are moving into value creation and enhancement of changing perception of employees as a ground for competitive advantage in the industry with an intention of long term sustainable growth. At the same time knowledge process outsourcing have come to occupy a prominent position with increasing competence in the field. The knowledge services provide new vertical opportunities and global financial institutions are recognizing India s capabilities for high end outsourcing in this area The book, therefore is an attempt to bring forward the changing trend in business practices in vogue in various organizations in the globalized world. Contents Part I:

United States Code: Title 18: Crimes and criminal procedure to Title 19: Customs duties [sections] 1-1654

Preface 2012 edition: The United States Code is the official codification of the general and permanent laws of the United States. The Code was first published in 1926, and a new edition of the code has been published every six years since 1934. The 2012 edition of the Code incorporates laws enacted through the One Hundred Twelfth Congress, Second session, the last of which was signed by the President on January 15, 2013. It does not include laws of the One Hundred Thirteenth Congress, First session, enacted between January 3, 2013, the date it convened, and January 15, 2013. By statutory authority this edition may be cited "U.S.C. 2012 ed." As adopted in 1926, the Code established prima facie the general and permanent laws of the United States. The underlying statutes reprinted in the Code remained in effect and controlled over the Code in case of any discrepancy. In 1947, Congress began enacting individual titles of the Code into positive law. When a title is enacted into positive law, the underlying statutes are repealed and the title then becomes

legal evidence of the law. Currently, 26 of the 51 titles in the Code have been so enacted. These are identified in the table of titles near the beginning of each volume. The Law Revision Counsel of the House of Representatives continues to prepare legislation pursuant to 2 USC 285b to enact the remainder of the Code, on a title-by-title basis, into positive law. The 2012 edition of the Code was prepared and published under the supervision of Ralph V. Seep, Law Revision Counsel. Grateful acknowledgment is made of the contributions by all who helped in this work, particularly the staffs of the Office of the Law Revision Counsel and the Government Printing Office. -- John. A. Boehner, Speaker of the House of Representatives, Washington, D.C., January 15, 2013--Page VII.
