

Checklist Manifesto Atul Gawande

A guide to the Agile Results system, a systematic way to achieve both short- and long-term results that can be applied to all aspects of life.

The Checklist Manifesto: How to Get Things Right by Atul Gawande Book Summary Abbey Beathan (Disclaimer: This is NOT the original book.) An essential read for any individual working to do things the right way. With the unstoppable technological growth and the constant evolution and optimization of any given process, every activity has gained more complexity. Everyday, it is becoming harder and harder to keep up with complicated procedures and it's normal to feel overwhelmed, but what can we do to address this? Checklists, an old but gold method. (Note: This summary is wholly written and published by Abbey Beathan. It is not affiliated with the original author in any way) "One essential characteristic of modern life is that we all depend on systems - on assemblages of people or technologies or both - and among our most profound difficulties is making them work." - Atul Gawande Checklists were invented long ago, but they are still used. They were created out of necessity to execute the extremely complicated process of flying military aircraft but they still have a lot of relevance. And that's because checklists have evolved as well with the passing of time. Gawande with his medical experience demonstrate how even surgeons tasked to do complex surgeries use checklists to aid them during the procedure and it has reduced the rate of fatalities by more than a third. There are a lot of proof about how influential checklists are in the modern era and in The Checklist Manifesto you'll learn all about it. Gawande shares with us riveting stories about the importance of checklists. Their power might shock you but they will also convince you of their utility. P.S. The Checklist Manifesto is an extremely informative book that will teach you the importance of checklists, an invention many people nowadays mistakenly underestimate. P.P.S. It was Albert Einstein who famously said that once you stop learning, you start dying. It was Bill Gates who said that he would want the ability to read faster if he could only have one superpower in this world. Abbey Beathan's mission is to bring across amazing golden nuggets in amazing books through our summaries. Our vision is to make reading non-fiction fun, dynamic and captivating. Amazing Refresher if you've read the original book before Pricelss Checklist in case you missed out any crucial lessons/details Perfect Choice if you're interested in the original book but never read it before Disclaimer Once Again: This book is meant for a great companionship of the original book or to simply get the gist of the original book. "One of the greatest and most powerful gift in life is the gift of knowledge. The way of success is the way of continuous pursuit of knowledge" - Abbey Beathan A GLIMPSE BEHIND THE FAÇADE OF SUCCESS In The Illusion of Invincibility, Paul Williams and Andreas Krebs take a no-punches-held look at the stories we tell ourselves about business success. The rags-to-riches tale is tempting, but we don't have to search far to see that most organizations rise for a time, only to experience a dramatic fall from grace. Just look at some of the companies that used to be household names: Nokia, AOL, Pan Am, Woolworth and Blockbuster. Move from good to great: You'll learn the secrets to clear-eyed, value-driven leadership with stories from top managers from international companies, major family businesses, start-ups, consulting firms, the public sector, and NGOs. They offer lessons on how to be a successful and reflective boss in an age of digitization and disruption. Each chapter includes a "stress test" to help you to take an honest look at your own organization and yourself. Can leaders today be inspired by the Incas? You may be surprised. When the authors added a few days to a business trip to Peru, instead of relaxing, they found themselves exploring one of the greatest civilizations in human history...with unexpected lessons about successful businesses and great leadership. The Illusion of Invincibility examines the why of success and failure. It's a smart, funny, and radical look at how to build and sustain a great organization, inspired by those who have done it well...in today's world and five hundred years ago. THESE HABITS WILL MAKE YOU EXTRAORDINARY. Twenty years ago, author Brendon Burchard became obsessed with answering three questions: 1. Why do some individuals and teams succeed more quickly than others and sustain that success over the long term? 2. Of those who pull it off, why are some miserable and others consistently happy on their journey? 3. What motivates people to reach for higher levels of success in the first place, and what practices help them improve the most After extensive original research and a decade as the world's leading high performance coach, Burchard found the answers. It turns out that just six deliberate habits give you the edge. Anyone can practice these habits and, when they do, extraordinary things happen in their lives, relationships, and careers. Which habits can help you achieve long-term success and vibrant well-being no matter your age, career, strengths, or personality? To become a high performer, you must seek clarity, generate energy, raise necessity, increase productivity, develop influence, and demonstrate courage. The art and science of how to do all this is what this book is about. Whether you want to get more done, lead others better, develop skill faster, or dramatically increase your sense of joy and confidence, the habits in this book will help you achieve it faster. Each of the six habits is illustrated by powerful vignettes, cutting-edge science, thought-provoking exercises, and real-world daily practices you can implement right now. If you've ever wanted a science-backed, heart-centered plan to living a better quality of life, it's in your hands. Best of all, you can measure your progress. A link to a free professional assessment is included in the book.

Getting Results the Agile Way

The Illusion of Invincibility

The old saying goes, 'To the man with a hammer, everything looks like a nail.' But anyone who has done any kind of project knows a hammer often isn't enough. The more tools you have at your disposal, the more likely you'll use the right tool for the job - and get it done right. The same is true when it comes to your thinking. The quality of your outcomes depends on the mental models in your head. And most people are going through life with little more than a hammer. Until now. The Great Mental Models: General Thinking Concepts is the first book in The Great Mental Models series designed to upgrade your thinking with the best, most useful and powerful tools so you always have the right one on hand. This volume details nine of the most versatile, all-purpose mental models you can use right away to improve your decision making, productivity, and how clearly you see the world. You will discover what forces govern the universe and how to focus your efforts so you can harness them to your advantage, rather than fight with them or worse yet- ignore them. Upgrade your mental toolbox and get the first volume today. AUTHOR BIOGRAPHY Farnam Street (FS) is one of the world's fastest growing websites, dedicated to helping our readers master the best of what other people have already figured out. We curate, examine and explore the timeless ideas and mental models that history's brightest minds have used to live lives of purpose. Our readers include students, teachers, CEOs, coaches, athletes, artists, leaders, followers, politicians and more. They're not defined by gender, age, income, or politics but rather by a shared passion for avoiding problems, making better decisions, and lifelong learning. AUTHOR HOME Ottawa, Ontario, Canada

Turning Simple Disciplines into Massive Success & Happiness

The Checklist Manifesto by Atul Gawande | Key Takeaways & Analysis Preview: The Checklist Manifesto is a non-fiction investigation of human fallibility in high-stakes environments, such as medical surgeries, airline flights, and skyscraper construction. It explains how the introduction of procedural checklists can improve performance, reduce error, and ultimately save lives--especially in today's increasingly complex world. Gawande shows how checklists increase efficiency, as well as engender a culture of teamwork and discipline... PLEASE NOTE: This is key takeaways and analysis of the book and NOT the original book. In Business Brilliant, Lewis Schiff combines compelling storytelling with ground-breaking research to show the rest of us what America's self-made rich already know: It's synergy, not serendipity that produces success. He explodes common myths about wealth and explains how legendary entrepreneurs such as Richard Branson, Suze Orman, Steve Jobs, and Warren Buffet have subscribed to a set of priorities that's completely different from those of the middle class. Schiff identifies the seven distinct principles practiced by individuals who may or may not be any smarter than the rest of the population, but seem to understand instinctively how money is made. This guide also reveals how these business icons excel in areas of team building, risk management, and leadership development to accumulate their wealth. He offers a practical four-step program, from choosing one's livelihood and pinpointing skills to focus on, to negotiating job terms and salary, in order to bring upon greater success. Business Brilliant by Lewis Schiff, coauthor of The Middle Class Millionaire: The Rise of the New Rich and How They are Changing America and The Armchair Millionaire, can help you can achieve better results in your business and in your career.

Mind Management, Not Time Management

Gathers poems, a selection from the author's autobiography, and a dozen stories about doctors, patients, errors in judgement, and breakthroughs

Acclaim for The Education of a Speculator, a provocative and penetrating look into the mind, the soul, and the strategies of one of the most controversial traders of all time "A compelling and an entertaining read." -The Wall Street Journal "Victor Niederhoffer gives us page after page of distilled investment wisdom. Taken together, this is pure nectar to those who aim for consistently superior stock market performance." -Barron's "The Education of a Speculator offers plenty of insights into the way markets work, but the epiphanies are what a reader might expect from Lao-tzu rather than, say, Graham and Dodd." -Worth magazine "The Education of a Speculator is the first meaningful book on speculating. Successful speculating is as fine an art as chess, checkers, fishing, poker, tennis, painting, and music. Niederhoffer brings forth the best from each of these fields and shows the investor how their principles can enrich one's life and net worth." -Martin Edelston, President, Boardroom Inc., publishers of Boardroom Classics and Bottom Line/Personal "With an original mind and an eclectic approach, Victor Niederhoffer takes the reader from Brighton Beach to Wall Street, visiting all stops of interest along the way. What emerges is a book full of insights, useful to the professional and layman alike." -George Soros, Principal Investment Advisor, The Quantum Fund

" An exhilarating but highly structured approach to the creative use of time. Kadavy ' s approach is likely to spark a new evaluation of conventional time management. " —Kirkus Reviews You have the TIME. Do you have the ENERGY? You ' ve done everything you can to save time. Every productivity tip, every " life hack, " every time management technique. But the more time you save, the less time you have. The more overwhelmed, stressed, exhausted you feel. " Time management " is squeezing blood from a stone. Introducing a new approach to productivity. Instead of struggling to get more out of your time, start effortlessly getting more out of your mind. In Mind Management, Not Time Management, best-selling author David Kadavy shares the fruits of his decade-long deep dive into how to truly be productive in a constantly changing world. Quit your daily routine. Use the hidden patterns all around you as launchpads to skyrocket your productivity. Do in only five minutes what used to take all day. Let your " passive genius " do your best thinking when you ' re not even thinking. " Writer ' s block " is a myth. Learn a timeless lesson from the 19th century ' s most underrated scientist. Wield all of the power of technology, with none of the distractions. An obscure but inexpensive gadget may be the shortcut to your superpowers. Keep going, even when chaos strikes. Tap into the unexpected to find your next Big Idea. Mind Management, Not Time Management isn ' t your typical productivity book. It ' s a gripping page-turner chronicling Kadavy ' s global search for the keys to unlock the future of productivity. You ' ll learn faster, make better decisions, and turn your best ideas into reality. Buy it today.

A Complete Summary of The Checklist Manifesto The Checklist Manifesto, written by Atul Gawande, explains how maintaining a checklist is vital for managing complexity in medicine, business, and other fields. Although the idea of a checklist is quite simple, it has profound implications for high performance, disaster avoidance, and team dynamics. Back in 2006, Gawande worked with the World Health Organization to find an effective way to reduce preventable errors in the high-stakes world of surgery. Through his research, he discovered that many mistakes which occur during surgeries can be prevented. Creating a checklist seemed like a promising answer to the problem. This prompted Gawande to begin a journey to understand how other industries such as aviation, building construction, and financial investing use checklists to minimize errors and increase their performance. Through his thorough research, Gawande discovered that making a checklist is more challenging than it seemed. However, a properly organized checklist can create better teamwork, empower employees, and even improve organizational structure.Here Is A Preview Of What You Will Get: In A Complete Summary of The Checklist Manifesto , you will get a full understanding of the book. This book summary and analysis was created for individuals who want to extract the essential contents and are too busy to go through the full version. This book is not intended to replace the original book. Instead, we highly encourage you to buy the full version. How powerful and influential can a checklist be? Atul Gawande's book, The Checklist Manifesto introduces the checklist: a modified solution to help professionals absorb and master how they execute certain essential tasks that define their responsibilities in their respective industries. Present-day roles in the industry are more intricate in nature, prompting more rigorous training and technology at a more advanced level. However, training and technological advancement are simply not always sufficient. Gawande's alternative and simplistic solution is based on a checklist that was originally introduced by the American Air Force. This checklist served as a guide to help pilots in maneuvering sophisticated types of aircrafts. Modified into an innovative checklist that suits modern-day industries and professions, it became an effective tool that equipped doctors and nurses worldwide in delivering quick, complete and professional response to all types of accidents and calamities. Aside from the healthcare industry, Gawande's checklist eventually benefitted businesses such as skyscraper construction and investment banking, along with life-saving protocols involved in disaster response procedures. From Austria to Michigan, real-life accounts of how the checklist has been tremendously helpful are disclosed. These accounts include how an emergency checklist was a key factor in saving a drowning patient who had been submerged underwater for approximately 30 minutes; as well how a cleanliness checklist implemented in intensive care units was instrumental in eradicating a life-threatening infection commonly contracted in hospitals. Gawande, a public health researcher, surgeon and writer, further explains the way checklists trigger urgent and outstanding progress especially in professions where time, precision and efficiency are crucial. The struggle is over for the hardworking workforce of today's industries. The Checklist Manifesto is the perfect book for people striving to reach the level of competence needed in executing the undertakings that come with their job. Intrigued by the hidden influence that checklists possess? Waste no more time and grab a copy of this book now!

Has your company struggled to roll EOS out to all levels of your organization? Do your employees understand why EOS is important or even what it is? What the Heck is EOS? is for the millions of employees in companies running their businesses on EOS (Entrepreneurial Operating System). An easy and fast read, this book answers the questions many employees have about EOS and their company: • What is an operating system? • What is EOS and why is my company using it? • What are the EOS foundational tools and how do they impact me? • What's in it for me? Designed to engage employees in the EOS process and tools, What the Heck is EOS? uses simple, straightforward language and provides questions about each tool for managers and employees to discuss creating more ownership and buy-in at the staff level. After reading this book, employees will not only have a better understanding of EOS but they will be more engaged, taking an active role in helping achieve your company's vision.

Challenging Office Cases in Obstetrics and Gynecology

A psychologist's stories of doctors who seek to help others but struggle to help themselves From ER and M*A*S*H to Grey's Anatomy and House, the medical drama endures for good reason: we're fascinated by the people we must trust when we are most vulnerable. In Also Human, vocational psychologist Caroline Elton introduces us to some of the distressed physicians who have come to her for help: doctors who face psychological challenges that threaten to destroy their careers and lives, including an obstetrician grappling with his own homosexuality, a high-achieving junior doctor who walks out of her first job within weeks of starting, and an oncology resident who faints when confronted with cancer patients. Entering a doctor's office can be terrifying, sometimes for the doctor most of all. By examining the inner lives of these professionals, Also Human offers readers insight into, and empathy for, the very real struggles of those who hold power over life and death.

A treasury of essays, articles and reviews by the late author of Giovanni's Room includes pieces that explore such topics as religious fundamentalism, Russian literature and the possibility of an African-American president.

The inspiring story of how a leading innovator in patient safety found a simple way to save countless lives. First, do no harm-doctors, nurses and clinicians swear by this code of conduct. Yet in hospitals and doctors' offices across the country, errors are made every single day - avoidable, simple mistakes that often cost lives. Inspired by two medical mistakes that not only ended in unnecessary deaths but hit close to home, Dr. Peter Pronovost made it his personal mission to improve patient safety and make preventable deaths a thing of the past, one hospital at a time. Dr. Pronovost began with simple improvements to a common procedure in the ER and ICU units at Johns Hopkins Hospital. Creating an easy five-step checklist based on the most up-to-date research for his fellow doctors and nurses to follow, he hoped that streamlining the procedure itself could slow the rate of infections patients often died from. But what Dr. Pronovost discovered was that doctors and nurses needed more than a checklist: the day-to-day environment needed to be more patient-driven and staff needed to see scientific results in order to know their efforts were a success. After those changes took effect, the units Dr. Pronovost worked with decreased their rate of infection by 70%. Today, all fifty states are implementing Dr. Pronovost's programs, which have the potential to save more lives than any other medical innovation in the past twenty-five years. But his ideas are just the beginning of the changes being made by doctors and nurses across the country making huge leaps to improve patient care. In Safe Patients, Smart Hospitals, Dr. Pronovost shares his own experience, anecdotal stories from his colleagues at Johns Hopkins and other hospitals that have made his approach their own, alongside comprehensive research-showing readers how small changes make a huge difference in patient care. Inspiring and thought provoking, this compelling book shows how one person with a cause really can make a huge difference in our lives.

The Game of Life (and How to Play It) by Florence Scovel Shinn

How to Work with Virtual Staff to Buy More Time, Become More Productive, and Build Your Dream Business

The Checklist Manifesto - Summarized for Busy People The Rise and Fall of Organizations Inspired by the Incas of Peru Being Mortal

A brilliant and courageous doctor reveals, in gripping accounts of true cases, the power and limits of modern medicine. Sometimes in medicine the only way to know what is truly going on in a patient is to operate, to look inside with one's own eyes. This book is exploratory surgery on medicine itself, laying bare a science not in its idealized form but as it actually is -- complicated, perplexing, and profoundly human. Atul Gawande offers an unflinching view from the scalpel's edge, where science is ambiguous, information is limited, the stakes are high, yet decisions must be made. In dramatic and revealing stories of patients and doctors, he explores how deadly mistakes occur and why good surgeons go bad. He also shows us what happens when medicine comes up against the inexplicable: an architect with incapacitating back pain for which there is no physical cause; a young woman with nausea that won't go away; a television newscaster whose blushing is so severe that she cannot do her job. Gawande offers a richly detailed portrait of the people and the science, even as he tackles the paradoxes and imperfections inherent in caring for human lives. At once tough-minded and humane, Complications is a new kind of medical writing, nuanced and lucid, unafraid to confront the conflicts and uncertainties that lie at the heart of modern medicine, yet always alive to the possibilities of wisdom in this extraordinary endeavor. Complications is a 2002 National Book Award Finalist for Nonfiction.

Presents a guide to maintaining a relationship with an adult diagnosed with the disorder, with information on the basics, challenges, and options for treatment.
SYNOPSIS: Drawing from his experience as a general surgeon, Atul Gawande's The Checklist Manifesto (2009) reveals startling evidence on how using a simple checklist can significantly reduce human error in complex professions such as aviation, engineering and medicine. ABOUT AUTHOR: Atul Gawande is a general surgeon at Brigham and Women's Hospital in Boston, Massachusetts, and a professor of surgery at Harvard Medical School. As well as writing for the New York Times, he is also author of Better and Complications, the latter of which was a National Book Award finalist. In 2010, Gawande was named one of the world's 100 most influential thinkers by TIME magazine.DISCLAIMER: This book is a SUMMARY. The New York Times bestselling author of Being Mortal and Complications reveals the surprising power of the ordinary checklist We live in a world of great and increasing complexity, where even the most expert professionals struggle to master the tasks they face. Longer training, ever more advanced technologies--neither seems to prevent grievous errors. But in a hopeful turn, acclaimed surgeon and writer Atul Gawande finds a remedy in the humblest and simplest of techniques: the checklist. First introduced decades ago by the U.S. Air Force, checklists have enabled pilots to fly aircraft of mind-boggling sophistication. Now innovative checklists are being adopted in hospitals around the world, helping doctors and nurses respond to everything from flu epidemics to avalanches. Even in the immensely complex world of surgery, a simple ninety-second variant has cut the rate of fatalities by more than a third. In riveting stories, Gawande takes us from Austria, where an emergency checklist saved a drowning victim who had spent half an hour underwater, to Michigan, where a cleanliness checklist in intensive care units virtually eliminated a type of deadly hospital infection. He explains how checklists actually work to prompt striking and immediate improvements. And he follows the checklist revolution into fields well beyond medicine, from disaster response to investment banking, skyscraper construction, and businesses of all kinds. An intellectual adventure in which lives are lost and saved and one simple idea makes a tremendous difference, The Checklist Manifesto is essential reading for anyone working to get things right.

DISCLAIMER: All of our books are companions to, not replacements for, the original content. ContentPush is wholly responsible for all of the content and is not responsible for the content of the original authors' books. ABOUT BOOK: Dr. Atul Gawande's *The Checklist Manifesto* (2009) reveals startling evidence on how using a simple checklist can significantly reduce human error in complex professions such as aviation, engineering and medicine. ABOUT THE AUTHOR: Atul Gawande is a general surgeon at Brigham and Women's Hospital in Boston, Massachusetts, and a professor of surgery at Harvard Medical School. As well as writing for the New York Times, he is also author of *Better* and *Complications*, the latter of which was a National Book Award finalist. In 2010, Gawande was named one of the world's 100 most influential thinkers by TIME magazine. INTRODUCTION: Progress in human and organizational performance is often hindered by a lack of attention to detail. In this book, Atul Gawande explores how checklists can help us avoid errors and improve performance. He explains how checklists actually work to prompt striking and immediate improvements. And he follows the checklist revolution into fields well beyond medicine, from disaster response to investment banking, skyscraper construction, and businesses of all kinds. An intellectual adventure in which lives are lost and saved and one simple idea makes a tremendous difference.

Today we find ourselves in possession of stupendous know-how, which we willingly place in the hands of the most highly skilled people. But avoidable failures are common, and the reason is simple: the volume and complexity of our knowledge has exceeded our ability to consistently deliver it - correctly, safely or efficiently. In this groundbreaking book, Atul Gawande makes a compelling argument for the checklist, which he believes to be the most promising method available in surmounting failure. Whether you're following a recipe, investing millions of dollars in a company or building a skyscraper, the checklist is an essential tool in virtually every area of our lives, and Gawande explains how breaking down complex, high pressure tasks into small steps can radically improve everything from airline safety to heart surgery survival rates. Fascinating and enlightening, *The Checklist Manifesto* shows how the simplest of ideas could transform how we operate in almost any field.

This review of *Being Mortal: Medicine and What Matters in the End* by Atul Gawande provides a chapter by chapter detailed summary followed by an analysis and critique of the strengths and weaknesses of this book. Gawande draws on clinical studies, case histories and stories from his own experiences as a doctor and a son to illuminate the subject of mortality relative to modern medical systems. His treatment of the subject covers a broad range of institutions and individuals that shape the lives of the aged and terminally ill. The central thesis of the book is that the experience of the end of life has been problematized and addressed by medical models that place extending life over quality of life and institutional frameworks that place safety and efficiency over the ability for people to have autonomy over the last part of their lives. Gawande is a surgeon at Brigham and Women's Hospital and a professor at the Harvard Medical School. He is a writer at *The New Yorker* magazine and author of three New York Times bestselling books. Download your copy today! Available on PC, Mac, smart phone, tablet or Kindle device. (c) 2015 All Rights Reserved

In this groundbreaking book, Tim Harford, the Undercover Economist, shows us a new and inspiring approach to solving the most pressing problems in our lives. When faced with complex situations, we have all become accustomed to looking to our leaders to set out a plan of action and blaze a path to success. Harford argues that today's challenges simply cannot be tackled with ready-made solutions and expert opinion; the world has become far too unpredictable and profoundly complex. Instead, we must adapt. Deftly weaving together psychology, evolutionary biology, anthropology, physics, and economics, along with the compelling story of hard-won lessons learned in the field, Harford makes a passionate case for the importance of adaptive trial and error in tackling issues such as climate change, poverty, and financial crises—as well as in fostering innovation and creativity in our business and personal lives. Taking us from corporate boardrooms to the deserts of Iraq, Adapt clearly explains the necessary ingredients for turning failure into success. It is a breakthrough handbook for surviving—and prospering—in our complex and ever-shifting world.

This essential guide helps teachers refine their approach to fundamental challenges in the classroom. Based on research from cognitive science and formative assessment, it ensures teachers can offer all students the support and challenge they need – and can do so sustainably. Written by an experienced teacher and teacher educator, the book balances evidence-informed principles and practical suggestions. It contains: A detailed exploration of six core problems that all teachers face in planning lessons, assessing learning and responding to students. Effective practical strategies to address each of these problems across a range of subjects. Useful examples of each strategy in practice and accounts from teachers already using these approaches. Checklists to apply each principle successfully and advice tailored to teachers with specific responsibilities. This innovative book is a valuable resource for new and experienced teachers alike who wish to become more responsive teachers. It offers the evidence, practical strategies and supportive advice needed to make sustainable, worthwhile changes.

PLEASE NOTE: THIS IS A GUIDE TO THE ORIGINAL BOOK. Guide to Atul Gawande's The Checklist Manifesto Preview: The Checklist Manifesto is a non-fiction investigation of human fallibility in high-stakes environments, such as medical surgeries, airline flights, and skyscraper construction. It explains how the introduction of procedural checklists can improve performance, reduce error, and ultimately save lives--especially in today's increasingly complex world. Gawande shows how checklists increase efficiency, as well as engender a culture of teamwork and discipline... Inside this companion: Overview of the book -Important People -Key Insights -Analysis of Key Insights

NATIONAL BESTSELLER The New York Times bestselling author of *Being Mortal* and *Complications* examines, in riveting accounts of medical failure and triumph, how success is achieved in a complex and risk-filled profession The struggle to perform well is universal: each one of us faces fatigue, limited resources, and imperfect abilities in whatever we do. But nowhere is this drive to do better more important than in medicine, where lives are on the line with every decision. In this book, Atul Gawande explores how doctors strive to close the gap between best intentions and best performance in the face of obstacles that sometimes seem insurmountable. Gawande's gripping stories of diligence, ingenuity, and what it means to do right by people take us to battlefield surgical tents in Iraq, to labor and delivery rooms in Boston, to a polio outbreak in India, and to malpractice courtrooms around the country. He discusses the ethical dilemmas of doctors' participation in lethal injections, examines the influence of money on modern medicine, and recounts the astoundingly contentious history of hand washing. And as in all his writing, Gawande gives us an inside look at his own life as a practicing surgeon, offering a searingly honest firsthand account of work in a field where mistakes are both unavoidable and unthinkable. At once unflinching and compassionate, *Better* is an exhilarating journey narrated by "arguably the best nonfiction doctor-writer around" (Salon). Gawande's investigation into medical professionals and how they progress from merely good to great provides rare insight into the elements of success, illuminating every area of human endeavor.

#1 New York Times Bestseller In *Being Mortal*, bestselling author Atul Gawande tackles the hardest challenge of his profession: how medicine can not only improve life but also the process of its ending. Medicine has triumphed in modern times, transforming birth, injury, and infectious disease from harrowing to manageable. But in the inevitable condition of aging and death, the goals of medicine seem too frequently to run counter to the interest of the human spirit. Nursing homes, preoccupied with safety, pin patients into railed beds and wheelchairs. Hospitals isolate the dying, checking for vital signs long after the goals of cure have become moot. Doctors, committed to extending life, continue to carry out devastating procedures that in the end extend suffering. Gawande, a practicing surgeon, addresses his profession's ultimate limitation, arguing that quality of life is the desired goal for patients and families. Gawande offers examples of freer, more socially fulfilling models for assisting the infirm and dependent elderly, and he explores the varieties of hospice care to demonstrate that a person's last weeks or months may be rich and dignified. Full of eye-opening research and riveting storytelling, *Being Mortal* asserts that medicine can comfort and enhance our experience even to the end, providing not only a good life but also a good end.

Most people consider life a battle, but it is not a battle, it is a game. It is a game, however, which cannot be played successfully without the knowledge of spiritual law, and the Old and the New Testaments give the rules of the game with wonderful clearness. Jesus the Christ taught that it was a great game of Giving and Receiving. If we give hate, we will receive hate; if we give love, we will receive love; if we give criticism, we will receive criticism; if we lie we will be lied to; if we cheat we will be cheated. We are taught also, that the imaging faculty plays a leading part in the game of life. Keep thy heart (or imagination) with all diligence, for out of it are the issues of life." (Prov. 4:23.)

Burnout is common among doctors in the West, so one might assume that a medical career in Malawi, one of the poorest countries in the world, would place far greater strain on the idealism that drives many doctors. But, as A Heart for the Work makes clear, Malawian medical students learn to confront poverty creatively, experiencing fatigue and frustration but also joy and commitment on their way to becoming physicians. The first ethnography of medical training in the global South, Claire L. Wendland's book is a moving and perceptive look at medicine in a world where the transnational movement of people and ideas creates both devastation and possibility. Wendland, a physician anthropologist, conducted extensive interviews and worked in wards, clinics, and operating theaters alongside the student doctors whose stories she relates. From the relative calm of Malawi's College of Medicine to the turbulence of training at hospitals with gravely ill patients and dramatically inadequate supplies, staff, and technology, Wendland's work reveals the way these young doctors engage the contradictions of their circumstances, shedding new light on debates about the effects of medical training, the impact of traditional healing, and the purposes of medicine.

Entrepreneurs often suffer from "superhero syndrome"—the misconception that to be successful, they must do everything themselves. Not only are they the boss, but also the salesperson, HR manager, copywriter, operations manager, online marketing guru, and so much more. It's no wonder why so many people give up the dream of starting a business—it's just too much for one person to handle. But outsourcing expert and "Virtual CEO," Chris Ducker knows how you can get the help you need with resources you can afford. Small business owners, consultants, and online entrepreneurs don't have to go it alone when they discover the power of building teams of virtual employees to help run, support, and grow their businesses. *Virtual Freedom: How to Work with Virtual Staff to Buy More Time, Become More Productive, and Build Your Dream Business* is the step-by-step guide every entrepreneur needs to build his or her business with the asset of working with virtual employees. Focusing on business growth, Ducker explains every detail you need to grasp, from figuring out which jobs you should outsource to finding, hiring, training, motivating, and managing virtual assistants. With additional tactics and online resources, *Virtual Freedom* is the ultimate resource of the knowledge and tools necessary for building your dream business with the help of virtual staff.

A "profound, sometimes hilarious, often heartbreaking" (The New York Times) view of prison life, as told by currently and formerly incarcerated people, from the co-creators and co-hosts of the Peabody- and Pulitzer-nominated podcast *Ear Hustle* "A must-read for fans of the legendary podcast and all those who seek to understand crime, punishment, and mass incarceration in America."—Piper Kerman, author of *Orange Is the New Black* When Nigel Poor and Earlonne Woods met, Nigel was a photography professor volunteering with the Prison University Project and Earlonne was serving thirty-one years to life at California's San Quentin State Prison. Initially drawn to each other by their shared interest in storytelling, neither had podcast production experience when they decided to enter Radiotopia's contest for new shows . . . and won. Using the prize for seed money, Nigel and Earlonne launched *Ear Hustle*, named after the prison term for "eavesdropping." It was the first podcast created and produced entirely within prison and would go on to be heard millions of times worldwide, garner Peabody and Pulitzer award nominations, and help earn Earlonne his freedom when his sentence was commuted in 2018. In *This Is Ear Hustle*, Nigel and Earlonne share their own stories of how they came to San Quentin, how they created their phenomenally popular podcast amid extreme limitations, and what has kept them collaborating season after season. They present new stories, all with the same insight, balance, and rapport that distinguish the podcast. In an era when more than two million people are incarcerated across the United States—a number that grows by 600,000 annually—Nigel and Earlonne explore the full and often surprising realities of prison life. With characteristic candor and humor, their moving portrayals include unexpected moments of self-discovery, unlikely alliances, inspirational resilience, and ingenious work-arounds. One personal narrative at a time, framed by Nigel's and Earlonne's distinct perspectives, *This Is Ear Hustle* reveals the complexity of life for incarcerated and formerly incarcerated people while illuminating the shared experiences of humanity that unite us all.
