This open

addresses a  
variety of  
issues  
relating to

bioethics, in order to initiate cross-cultural dialogue.

Beginning with the history, it introduces various views on bioethics, based on specific

experiences from Japan. It describes how Japan has been confronted with Western bioethics and the ethical issues new to this modern age, and how it has found

its foothold  
as it decides  
where it  
stands on  
these issues.  
In the last  
chapter, the  
author  
proposes  
discarding the  
overarching  
term 'Global

Bioethics' in favor of the new term, 'Bioethics Across the Globe (BAG)', which carries a more universal connotation. This book serves as an

On the one hand,  
we can identify  
sets of tenses

particular  
temporal areas  
such as the past  
or the future.  
These sets of  
tenses provide  
for the  
expression of a

system of temporal relations in a stretch of discourse in which all the situations are located within the same temporal area. On the other hand, there are many

This book provides a  
stocktake and  
comparative socio-  
legal analysis of law  
enforcement  
cooperation  
strategies in four  
different regions of  
the world: the

European Union  
(EU), North  
America, Greater  
China and  
Australasia. The  
work analyses law  
enforcement  
cooperation  
mechanisms within  
the socio-legal  
framework of global  
normmaking. The

strategies addressed  
range from legal  
frameworks  
facilitating  
cooperation to  
formal and informal  
police networks and  
cooperation  
practices. The study  
also takes into  
account crime-

campaigns focusing  
on drug crimes,  
terrorism, financial  
crime, kidnappings  
and other offences.

It explores  
challenges in  
policing practice and  
human rights  
protection in each  
region that could be

countered by existing strategies in another.

As regions usually develop more advanced cooperation mechanisms than exist at a global scale, strategies found in the former could help find solutions for the

latter. To map existing strategies and assess their impact on both human rights and policing practice this study relies on an assessment of the primary and secondary literature sources in each region as well as

interviews with practitioners ranging from senior police officers to prosecutors, government officials, customs and military staff. This book presents a valuable resource for academics and postgraduate

students, as well as  
policing and criminal  
justice practitioners,  
government officials  
and policy makers.

A best-selling  
modern masterpiece  
in the author's home  
country of Egypt,  
Taxi consists of fifty-  
eight fictional  
monologues with

Cairo taxi drivers that have been recreated from the author's own experience, taking the reader on a roller-coaster of emotions as bumpy and noisy as the city's potholed and chaotic streets. Described as an urban sociology, an

ethnography, a classic of oral history - and a work of poetry in motion - it tells Herculean tales of the struggle for survival and dignity among Greater Cairo's 80,000 cab drivers.
