Code Name: Zeus is a story about immigrants from several countries coming together in a remote place in Texas to make their way as Americans. They left their grim existences in faraway parts of the world with no assurance they would find success and happiness. Kursk, TX and surrounding area, settled by German Russian immigrants in the early 20th century, suffered greatly from the dual impact of the Dust Bowl years and the Great Depression, only to be saved by two other newcomers from Europe who are great believers in capitalism and the American way of life. After making a vast fortune starting on the streets of New Orleans, Louisiana, and around Beaumont,

Texas, Russian immigrant Robert Barzinsky and his junior partner, Jack Barnett, a native of Ireland, move to Kursk. They ranch, drill for oil, and create a secret project to prepare for a major worldwide disaster with help of several techies. Government agencies and sinister organizations in the United States and around the world closely follow the activities in and around the small town.
