Delmar Learning brings Chilton Automotive Repair Information into the 21st century with their new Chilton Total Car Care Consumer CD-ROMs. These CDs allow users to decide which specific car they will have access to from a selection of over 200 of the most popular vehicles on the road today. When users make their selection, they'll find that the CD provides TOTAL repair, maintenance, and service information for the vehicle that they choose. Based on actual teardowns, the information for each vehicle provides users of all levels with access to the most accurate, complete, and up-to-date mechanical repair instructions and specifications in an easy-to-use format. The search function in each CD makes it simple to find specific procedures - it even searches and lists every procedure that pertains to a specific component. Each disc includes a detailed and illustrated glossary and an easy-to-use table of contents, as well as the ability to make helpful notes for reference. Information is provided in simple step-by-step procedures for engine overhaul, chassis, electrical, drive train, suspension, and more. Hundreds of photos and illustrations support the repair procedures on each disc to simplify even the most complex job. The discs also include wiring diagrams, troubleshooting, and diagnostics, as well as maintenance and specification charts.

Delmar Learning brings Chilton Automotive Repair Information into the 21st century with their new Chilton Total Car Care Consumer CD-ROMs. These CDs allow users to decide which specific Truck or Sport Utility Vehicle they will have access to from a selection of over 150 of the most popular vehicles on the road today. Nigel Calder, a diesel mechanic for more than 25 years, is also a boatbuilder, cabinetmaker, and machinist. He and his wife built their own cruising sailboat, Nada, a project they completed in 1984. Calder is author of numerous articles for Yachting Monthly and many other magazines worldwide, as well as the bestselling Boatowner's Practical and Technical Cruising Manual and Boatowner's Mechanical and Electrical Manual, both published by Adlard Coles Nautical. Here, in this goldmine of a book, is everything the reader needs to keep their diesel engine running cleanly and efficiently. It explains how diesel engines work, defines new terms, and lifts the veil of mystery that surrounds such engines. Clear and logical, this extensively illustrated guide will enable the reader to be their own diesel mechanic. As Nigel Calder says: 'there is no reason for a boatowner not to have a troublefree relationship with a diesel engine. All one needs is to set the engine up correctly in the first place, to pay attention to routine maintenance, to have the knowledge to spot early warning signs of impending trouble, and to have the ability to correct small ones before they become large ones.'

All U.S. and Canadian Models of E-100, E-150, E-200, E-250, E-300, E-350 Vans and Club Wagons, Including Diesel Engines.

This textbook will help you learn all the skills you need to pass all Vehicle Electrical and Electronic Systems courses and qualifications. As electrical and electronic systems become increasingly more complex and fundamental to the workings of modern vehicles, understanding these systems is essential for automotive technicians. For students new to the subject, this book will help to develop this knowledge, but will also assist experienced technicians in keeping up with recent technological advances. This new edition includes information on developments in pass-through technology, multiplexing, and engine control systems. In full colour and covering the latest course specifications, this is the guide that no student enrolled on an automotive maintenance and repair course should be without. Designed to make learning easier, this book contains: Photographs, flow charts, quick reference tables, overview descriptions and step-by-step instructions. Case studies to help you put the principles covered into a real-life context. Useful margin features throughout, including definitions, key facts and 'safety first' considerations.
