Vols. for 1871-76, 1913-14 include an extra number, The Christmas bookseller, separately paged and not included in the consecutive numbering of the regular series.

The first line of responsibility for children lies with their parents, but what if the parents fail to look after their children? Who else is involved, and what should they do? *Children in the International Political Economy* examines the moral responsibilities of different individuals and agencies towards children and argues that some responsibilities should be codified as concrete legal duties. If all else fails, children must look to the international community for help. Thus international agencies should recognize specific obligations to look after the well-being of children around the world.

In this topically organized introduction to child development, John Santrock balances the content instructors want with the and pedagogy students need. *Child Development 9th edition* continues Santrock's tradition of presenting cutting edge research and offering strong, integrated coverage of culture, ethnicity and gender, and school related issues. An expert consultant reviewed each chapter to ensure that the latest research is reflected. For students, the text's highly praised pedagogical system has been enhanced to improve understanding of how all of the material fits together.

Children's Literature

A practical guide to understanding and treating children and adolescents prone to extreme levels of angry outbursts, *Disruptive Mood: Irritability in Children and Adolescents* is based on the very latest research and theory. Providing both a clinical and scientific perspective on irritability in children, this book is a timely look at recent developments in the field. Abnormal states of anger are a common reason for referral to child health services, and cause concern in clinics, schools, and families. Misdiagnosis and treatment can stem from a lack of understanding of the mechanisms involved in high levels of anger in children, and *Disruptive Mood: Irritability in Children and Adolescents* provides clear guidance on the development of abnormal states of anger, their consequences for later development, and how to assess and make differential diagnoses between them. A useful resource for clinical practice, this book is concise and accessible, and offers tools for evaluating treatments. *Disruptive Mood: Irritability in Children and Adolescents* is designed for practitioners involved in child and adolescent mental health and education and researchers who need an introduction to this complex field.

First multi-year cumulation covers six years: 1965-70.

John Santrock's *Educational Psychology* is a well-crafted text that emphasizes the application of theory to classroom practice. With richly evocative classroom vignettes provided by practicing teachers, as well as the most case studies - three per chapter - of any Introductory text, Santrock's *Educational Psychology* helps students think critically about the research basis for best practices. Additionally, Santrock's hallmark Learning System organizes the content into manageable chunks to support retention and mastery, and makes it much more likely that students will have an engaging and successful course experience.

"Robert McCloskey's unusual and stunning pictures have long been a delight for their fun as well as their spirit of place." "The Horn Book Mrs. Mallard was sure that the pond in the Boston Public Gardens would be a perfect place for her and her eight ducklings to live. The problem was how to get them there through the busy streets of Boston. But with a little help from the Boston police, Mrs. Mallard and Jack, Kack, Lack, Nack, Ouack, Pack, and Quack arrive safely at their new home. This brilliantly illustrated, amusingly observed tale of Mallards on the move has won the hearts of generations of readers. Awarded the Caldecott Medal for the most distinguished American picture book for children in 1941, it has since become a favorite of millions. This classic tale of the famous Mallard ducks of Boston is available for the first time in a full-sized paperback edition. Make Way for Ducklings has been described as "one of the merriest picture books ever" (The New York Times). Ideal for reading aloud, this book deserves a place of honor on every child's bookshelf. "This delightful picture book captures the humor and beauty of one special duckling family. ... McClosky's illustrations are brilliant and filled with humor. The details of the ducklings, along with the popular sights of Boston, come across wonderfully. The image of the entire family proudly walking in line is a classic." "The Barnes & Noble Review "The quaint story of the mallard family's search for the perfect place to hatch ducklings. ... For more than fifty years kids have been entertained by this warm and wonderful story." "Children's Literature

Warren W. Wooden's pioneering studies of early examples of children's literature throw new light on many accepted works of the English Renaissance period. In consequence, they appear more complex, significant, and successful than hitherto realized. In these nine essays, Wooden traces the roots of English children's literature in the Renaissance beginning with the first printed books of Caxton and ranging through the work of John Bunyan. Wooden examines a number of works and authors from this period of two centuries -- some from the standard canon, others obscure or neglected -- while addressing questions about the early development of children's literature.

An engaging discussion of the legal, ethical, practical, and cultural considerations of working with families of special needs children. With a strong focus on the families of special needs children, this first edition text provides students with both the information to understand the challenges and needs of these families as well as the skills and strategies required of educators working with such families. Containing a thorough discussion of the common legal and ethical concerns surrounding children with special needs and their families, this book also emphasizes the many individual differences among families. With that in mind, the authors focus on diversity in families with special needs children, cultural considerations, age, and communication with special needs families. In addition, a distinctive final chapter called "A Family's Voice," gives students the special opportunity to hear about the unique thoughts and experiences of a large selection of family members of children with special needs.

Intelligence That Comes from the Heart Every parent knows the importance of equipping children with the intellectual skills they need to succeed in school and life. But children also need to master their emotions. Raising an Emotionally Intelligent Child is a guide to teaching children to understand and regulate their emotional world. And as acclaimed psychologist and researcher John Gottman shows, once they master this important life skill, emotionally intelligent children will enjoy increased self-confidence, greater physical health, better performance in school, and healthier social relationships. Raising an Emotionally Intelligent Child will equip parents with a five-step "emotion coaching" process that teaches how to: * Be aware of a child's emotions * Recognize emotional expression as an opportunity for intimacy and teaching * Listen empathetically and validate a child's feelings * Label emotions in words a child can understand * Help a child come up with an appropriate way to solve a problem or deal with an upsetting issue or situation Written for parents of children of all ages, Raising an Emotionally Intelligent Child will enrich the bonds between parent and child and contribute immeasurably to the development of a generation of emotionally healthy adults.
