found the Old Testament

modern times the study

way that is objective and that avoids the excesses present in the past? Fr. Devin Roza seeks to offer a solution to these difficulties by asking the question, "According to the Scriptures and the living Tradition of the Church, what are the types and symbols of the sacraments and what do they mean?" As authorized representatives of the living Tradition, the Liturgy (including the readings from the Church

Fathers) and the Catechism, together with the Scriptures, offer both the scholar and pastor the opportunity to study typology as the Catholic Church herself understands and prays it today, in those texts the Church considers her own. Theology

At a time in human history when women and men are more concerned about interpersonal relationships and when there is an extensive questioning of the specific relationship between a woman and a man in marriage, Marriage and Sacrament offers an understanding of how to live out the Christ-meaning and Church-meaning of

File Type PDF Christ The Sacrament Of The Encounter With God

that relationship so that, by living martially and sacramentally, couples can reveal to the world and to the Church the deeper meaning of all human love. The book examines the relationship among love, marriage, and sacrament; it examines the meanings of the sacrament of marriage, its biblical basis, its history and what happens when it comes to an end; it examines sexual love, indissoluble love, fruitful love, and ecumenical love in relationship to both marriage and sacrament. Marriage and Sacrament is an indispensable resource for pastoral ministers and ministry students as well as all who contemplate or are now partners in marriage.

This work presents a brief treatment of baptism in the New Testament and the author's personal conception of the sacrament as a divine-human symbol.

The most significant element of New Testament teaching on baptism is the emphasis on the principal agents: God/Father, Son/Christ and Spirit. Any satisfactory conception of the Christian sacrament must take into account the roles of the Three. William A. Van Roo is a Jesuit of the Wisconsin Province in the U.S.A: . He was a professor of theology in Gregorian University from 1951 to 1985 then professor emeritus Fundamentals of sacramental theology. A classic.

Modern secular culture has severely eroded the religious foundations on which traditional sacramental practice was based. Built upon the sacramental bedrock, the very Christian identity and mission were affected. German Martinez looks at this challenge from the perspective of freedom as an opportunity to develop a sacramental

worldview relevant to the new millennium. To this effect, he applies a series of methodologies and fresh pastoral approaches to the highly complex sacramental reality and to each individual sacrament. Beginning with ten key interpretative elements, he offers a coherent synthesis of the remarkable development of sacramental theology in our time. Envisioned for both scholarly research and pastoral ministry, this book presents the key issues of a renewed sacramentality--rooted in ordinary life and celebrated in the liturgical mystery. This theology is grounded in a biblical, patristic, historical and theological background. It tries to articulate especially the Christological, ecclesial, individual and social aspects of the celebration of the sacraments as a dynamic and organic whole,

A Return to Mystery

In the decades leading up to the Second Vatican Council, the movement of nouvelle théologie caused great controversy in the Catholic Church and remains a subject of vigorous scholarly debate today. In *Nouvelle théologie and Sacramental Ontology* Hans Boersma argues that a return to mystery was the movement's deepest motivation. Countering the

File Type PDF Christ The Sacrament Of The Encounter With God

modern intellectualism of the neo-Thomist establishment, the nouvelle theologians were convinced that a ressourcement of the Church Fathers and of medieval theology would point the way to a sacramental reintegration of nature and the supernatural. In the context of the loss suffered by both Catholics and Protestants in the de-sacramentalizing of modernity, Boersma shows how the sacramental ontology of nouvelle théologie offers a solid entry-point into ecumenical dialogue. The volume begins by setting the historical context for nouvelle

File Type PDF Christ The Sacrament Of The Encounter With God

théologie with discussions of the influence of significant theologians and philosophers like Möhler, Blondel, Maréchal, and Rousselot. The exposition then moves to the writings of key thinkers of the ressourcement movement including de Lubac, Bouillard, Balthasar, Chenu, Daniélou, Charlier, and Congar. Boersma analyses the most characteristic elements of the movement: its reintegration of nature and the supernatural, its reintroduction of the spiritual interpretation of Scripture, its approach to Tradition as organically developing in history, and its

communion ecclesiology that regarded the Church as sacrament of Christ. In each of these areas, Boersma demonstrates how the nouvelle theologians advocated a return to mystery by means of a sacramental ontology.

David A. deSilva uses the principles of spiritual formation as an entryway into the Book of Common Prayer. His book explores how Christians can be spiritually formed by the sacraments of baptism, Eucharist, marriage and last rites.

Christian Sacraments in a Postmodern World offers a fresh perspective on the sacramental event by bringing together two generally unrelated subjects in a new way: sacramental theology and postmodern philosophical thought. Osborne shows, in an innovative way, how these two factors of third millennium life can be positively united to encourage powerful new thinking on the ways we Christians not only theorize about sacraments but also live sacraments. Using a key section on sacraments from the Catechism of the Catholic Church and by employing

File Type PDF Christ The Sacrament Of The Encounter With God

foundational concepts of postmodern philosophy and several issues from medieval Franciscan philosophy, the author develops a distinctly different approach to sacrament events. Here is a visionary, thoughtful work by a major theologian, writer and educator. It is sure to stir thinking and discussion among theologians, philosophers, liturgists and religious educators.

The seven sacraments lie at the centre of Christian life and experience, for here God the Holy Trinity touches human lives and hearts. This book is one of the few at the present time to offer a global synthesis of the main themes in the sacramental mystery in which the human and divine, the material and the spiritual realms are intimately intertwined. Paul Haffner outlines how the sacraments are the chief means in the Church through which God's people are reconciled to the Father, through His Son, by the power of the Holy Spirit. The book illustrates classical issues like the conditions for the validity and the efficacy of the sacraments, as well

as the minister, recipient and effects of these sacred mysteries; it deals with particular topics like the necessity of Baptism, the sacrificial character of the Eucharist, and the nature of marriage. As he examines each sacrament in turn, the author also explores how new ecumenical questions affect Christian sacramental understanding. 'I warmly commend this work on the subject of sacramental theology' Archbishop Csaba Ternyak Secretary of the Vatican Congregation of the Clergy Paul Haffner is lecturer in systematic and dogmatic theology at the Pontifical Gregorian University, the Pontifical Lateran University, the Pontifical Athenaeum 'Regina Apostolorum' and the Pontifical Institute 'Regina Mundi' in Rome.

His publications include 'The Mystery of Creation', 'The Mystery of Reason' and 'The Mystery of Mary' - all also published by Gracewing.

Both resistance to and renewed interest in the sacraments mark current theological thought. This work acknowledges human limitations of the sacraments but stresses that God's relationship to human beings cannot be other than sacramental." Sacramental structures and events constitute salvation history, and thus permeate all theology. What makes this sacramental view comprehensible is faith; faith is an indispensable precondition for a sacramental theology. Therefore, the author first demonstrates the preconditions of faith on which

sacramental theology rests, and what place it holds within the whole of theology. Following this, he briefly presents the concept of sacraments and the history of that concept, the teachings of Church tradition on sacraments in general, and the basic features of a sacramental theology. Next, he explains from a theological perspective the traditional sacraments of the Catholic Church, including related topics such as indulgences and sacramentals. The author explores Scripture to discover Christ's purpose in creating the sacraments. He explains that Christ designed them to give human beings the Holy Spirit, who would unite them to God as his adopted children. And as God's own children, endowed with

Schillebeeckx propounded an
anthropological approach to
the sacraments. In Christ
the Sacrament of the

Encounter with God , he draws on theologically fruitful work by phenomenological anthropologists like Merleau-Ponty, Buytendijk and Binswanger. That makes Schillebeeckx's distinctive idiom and modern approach appealing even today. He rediscovers, as it were from within, the notions forged by scholastic theology, and thus restores to us a theology of the sacraments rooted in the biblical and patristic soil from which they first sprang. Schillebeeckx's speculative synthesis of this quest still has a fresh ring to it. He describes Christ as

the primordial sacrament in a reflection on his public ministry, death and resurrection inspired by the universal human search for such a 'sacrament'. He concludes that the church's sacraments have to be an earthly extension of the liberation brought by Christ's story.

Schillebeeckx ends by describing sacraments as grace made visible that gives crowning moments in Christian life a mystical quality. Edward Schillebeeckx Collected Works bring together the most important and influential works of the Dutch Dominican and

theological developments. The classical teaching of the Council of Trent and its later theological formulations are compared to the new theological language of the Second Vatican Council and the personalist theologies of modern thinkers such as Karl Rahner and Edward Schillebeeckx. Introduction to Catholic Sacramental Theology moves clearly from (1) a sketch of the historical development of the sacramental concept, to (2) the basic elements in a general theory of the sacraments, to (3) discussion of the individual sacraments. In the last chapter, the author

In this short book Fr. Zatalava will discuss the necessity for, Scriptures relating to, the history of, and the Rite for the Sacrament of Baptism. Baptism is the first Sacrament of the Faith, and it is the Sacrament by which a person becomes a Christian. It is truly a life-giving Sacrament since it is necessary for our salvation to receive it. Baptism was given to the Church as the Sacrament of initiation into the Faith and for the forgiveness of sins, both Original Sin and all personal sins. Through Baptism we are made sons and daughters of God, and God's very life comes to dwell within us. It is through the graces of Baptism that we are given the foundations of virtue and the gifts of the Holy Spirit, and it is through the graces of Baptism that we live as Christians at all.

Essay from the year 2010 in the subject Theology - Systematic Theology, grade: 1, Durham University, language: English, abstract: At its dawn, the twentieth century was hailed as the century of the Church. As a result, in recent years, there has been a renewed interest in the Church, both in terms of its role and functions, but also in terms of its nature and ontological sacramentality. Of particular interest is the emerging concept that the Church may be the primary or primordial sacrament. This understanding, if correct, has considerable implications for traditional models of sacramentality, both in the seven-sacrament tradition within the Roman Catholic Church, and also the understanding of sacramentality represented by Reformed and

Protestant models. This essay analyses the theological understanding of the church as a sacramental agent, and explores alternative forms of sacramentality. What are the sacraments? For centuries, this question has elicited a lively discussion and among theologians, and a variety of answers that do anything but outline a unified belief concerning these fundamental ritual structures. In this extremely cohesive and well-crafted volume, a group of renowned scholars map the theologies of sacraments offered by key Christian figures from the Early Church through the twenty-first century. Together, they provide a guide to the variety of views about sacraments found throughout Christianity, showcasing the variety of approaches to understanding the

sacraments across the Catholic, Protestant, and Orthodox faith traditions. Chapters explore the theologies of thinkers from Basil to Aquinas, Martin Luther to Gustavo Gutiérrez. Rather than attempting to distill their voices into a single view, the book addresses many of the questions that theologians have tackled over the two thousand year history of Christianity. In doing so, it paves the way for developing theologies of sacraments for present and future contexts. The text places each theology of the sacraments into its proper sociohistorical context, illuminating how the church has used the sacraments to define itself and its congregations over time.

Explores the underlying meaning of Christian sacraments and how they function.

We Catholics simply don't expect enough of the sacraments. Sometimes I think they must be the most underutilized power sources on the planet.—from Chapter One The sacraments lie dormant for many because we don't understand them and don't know how to tap into their supernatural energy. Living the Sacraments weaves together Scripture, the writings of the saints, and personal stories to help us understand these seven gifts of the Church and experience their practical and spiritual rewards.
