companies that defy gravity and convert long-term mediocrity or worse into long-term superiority? And if so, what are the universal distinguishing characteristics that cause a company to go from good to great? The Standards Using tough benchmarks, Collins and his research team identified a set of elite companies that made the leap to

While philosophers of mind have been arguing over the status of mental representations in cognitive science, cognitive scientists have been quietly engaged in studying perception, action, and cognition without

explaining them in terms of

describes this  
nonrepresentational approach  
(which he terms radical  
embodied cognitive science),

this orientation to cognition,  
Chemero proposes a  
methodology: dynamical systems

suddenly, all at once, we're suffering  
from a collapse in Meaning.

Fundamentalism and nihilism are filling

have to remember our deepest inspiration, heal our pain and apathy, and connect to each other like never before. If we can do that, we've got a shot at solving the big problems we face. And if we can't? Well, the dustbin of history has swallowed civilizations older and fancier than ours. This book
