The series Science Success is meant for Pre-primary and Classes 1 to 8. It fulfills the

vision of National Curriculum Framework (NCF) is meant for the schools affiliated to CBSE and other schools affiliated to various State Education Boards. This series emphasizes meaningful learning of science for the overall development of learners. It focuses on helping children understand their natural environment and correlate science with their everyday experiences in an interesting and comprehensive manner. The text has been designed with beautiful illustrations to help children develop skills of observation, investigation, and scientific attitude. Goyal Brothers Prakashan Offering a uniquely modern, balanced approach, Tussy/Koenig's PREALGEBRA, Fifth Edition, integrates the best of traditional drill and practice with the best elements of the reform movement. To many developmental math students, algebra is like a foreign language. They have difficulty translating the words, their meanings, and how they apply to problem solving. Emphasizing the language of algebra, the text's fully integrated learning process is designed to expand students' reasoning abilities and teach them how to read, write, and think mathematically. It blends instructional approaches that include vocabulary, practice, and well-defined pedagogy with an emphasis on reasoning, modeling, communication, and technology skills. You can never really predict what life has in store for you. And in Veeravara's case, that's especially true because life decided to give him the opportunity of becoming king. When Veeravara washes up on a strange island after he is shipwrecked, he's welcomed by an overjoyed population that believes in strange rules when it comes to picking their new king. But is Veeravara ready for such a responsibility? Read on to find out what lies in store for Veeravara. Written in classic Sudha Murty style, The Wise King is a marvellous little tale with a big message.

Targeting Mathematics series consists of nine textbooks; one for Primer and eight textbooks for classes 1–8. These books have been formulated strictly in accordance with the Continuous and Comprehensive Evaluation (CCE) approach of Central Board of Secondary Education (CBSE) and are based on the latest syllabus. The series also conforms to the guidelines of National Curriculum Framework 2005. The books have been written by experienced and renowned authors.

Environmental studies is a multidisciplinary subject that integrates the study of environment with social studies and sciences. The present series In Search of Green Life aims to develop an understanding of one's surroundings along with respect for local, national and global environment. We feel it is important for children to be aware and sensitive to contrasting opportunities and constraints under which people live. The focus has been on developing independent thinking through a number of activities, Project Work has been provided in each unit to inculcate collaborative learning and communication skills among students. The book is interactive in nature as it provides for a lot of Fun Facts, Learning by Doing

and ideas for discussion.

Sangam With Gul Mohar: The Orient Longman Term Book Is The Latest From The Publishing House That Offered Thousands Of Children Countrywide The Advantage Of A Light School Bag! This Version Represents A Synergy Of Two Leading Brands From Orient Longman Gul Mohar And Sangam. It Brings Together Strong And Effective Material In Four Subjects As Before (English, Mathematics, Science And Social/Environmental Studies) In A Format Endorsed By Educationists And Teachers In The Last Two Years.- Sangam With Gul Mohar Classes 1 And 2; Terms 1-3: Consisting Of English, Mathematics And Environmental Studies.- Sangam With Gul Mohar Classes 3 To 5; Terms 1-3: Consisting Of English, Mathematics, Science And Social Studies.

This book looks at education reforms, planning and policy through an exploration of the Yash Pal Committee report (1993) in India, which made recommendations to improve the quality of learning while reducing cognitive burden on students. It analyses the wide-ranging impact the report had on curriculum, pedagogy, teacher education reforms and the national policy on education. The book examines the legacy of the report, tracing the various deliberations and critical engagements with issues around literacy, language and mathematics learning, curriculum reforms and classroom practices, assessment and evaluation. It reviews contemporary developments in research on learning in diverse disciplines and languages

through the lens of the recommendations made by the Learning without Burden report while engaging with challenges and systemic issues which limit inclusivity and access to quality education. Drawing on extensive research and first-hand academic and teaching experience, this book will attract attention and interest of students and researchers of educational policy and analysis, linguistics, sociology and South Asian studies. It will also be of interest to policy makers, think tanks and civil society organisations.
