

Classics And The Uses Of Reception

Perspectives and identity are typically reinforced at a young age, giving teachers the responsibility of selecting reading material that could potentially change how the child sees the world. This is the importance of sharing diverse literature with today’s children and young adults, which introduces them to texts that deal with religion, gender identities, racial identities, socioeconomic conditions, etc. Teachers and librarians play significant roles in placing diverse books in the hands of young readers. However, to achieve the goal of increasing young people’s access to diverse books, educators and librarians must receive quality instruction on this topic within their university preparation programs. The Handbook of Research on Teaching Diverse Youth Literature to Pre-Service Professionals is a comprehensive reference source that curates promising practices that teachers and librarians are currently applying to prepare aspiring teachers and librarians for sharing and teaching diverse youth literature. Given the importance of sharing diverse books with today’s young people, university educators must be aware of engaging and effective methods for teaching diverse literature to pre-service teachers and librarians. Covering topics such as syllabus development, diversity, social justice, and activity planning, this text is essential for university-level teacher educators, library educators who prepare pre-service teachers and librarians, university educators, faculty, adjunct instructors, researchers, and students.

From very early on, Western philosophers have been obsessed with the understanding of a relatively few works of philosophy which have played a disproportionately large and fundamental role in developing the Western philosophical canon, dominating the curriculum in the past and in the present; there is no indication that they will not do so in the future. Uses and Abuses of the Classics examines the various ways in which the different periods of the history of philosophy have approached these texts. The editors have chosen for analysis some of the major philosophers from periods of the history of philosophy in which the interpretation of the classics has been particularly significant. Contributions to this book include entries on: Aristotle’s reading of Plato; Averroes on Aristotle; Nietzsche on the Beginnings of Western Philosophy; and Thomas Aquinas’s Commentary on Aristotle’s Metaphysics.

The Use of Man starts with an unexpected discovery. World War II is ending. Sredoje Luzakü has been fighting all through it. Now, as one of the victorious Partisans, he has come home to Novi Sad. He visits the house he grew up in. Strangers nervously show him around. He looks up the mother of Milinko, his best friend. Milinko’s girlfriend, Vera, was the daughter of a Jew, a bookish businessman. Her house stands empty and open. Venturing in, Sredoje is surprised to find the diary of the German tutor that Milinko, Vera, and he all shared. Fräulein, who died on the operating table just before the war. Here, however, in a cheap notebook in Vera’s old room, is a record of Fräulein’s lonely days, with the sentimental caption Poésie. . . . The diary survived. Sredoje survived. Vera and Milinko have survived too. But what survives? A few years back Sredoje, Vera, and Milinko were teenagers, struggling to make sense of life. Life, they now know, can be more bitter than death. A work of stark poetry and illimitable sadness, The Use of Man is one of the great books of the 20th century.

A posthumously published collection of thirty-six essays invigorating and illuminating analysis of his most treasured literary classics.

Reihan uses alliteration and assonance, rhythm and rhyme, the occasional archaism, the rare neologism, and devices of punctuation and typography, to create a sparkling, luxurious, and readable translation that reproduces something of the linguistic and comic effects of the original Latin. The general Introduction is a masterpiece of clarity, orienting the reader in matters of authorship, narration, genre, religion, structure and style. A generous and browsable index, select bibliography, and maps are included.

Rosemary J. Mundhenk and LuAnn McCracken Fletcher have assembled a remarkable variety of Victorian nonfiction prose, both classic and lesser known. In both their commentary and selection the editors have drawn upon the insights of recent theoretical approaches to literature and culture to present a complex range of responses to Victorian issues, thus inviting modern readers to explore the many voices of the period and reenvision the Victorian era.

THE IRON HEEL (Political Dystopian Classic)

This book examines the creative and critical works of Nigerian playwright and novelist Femi Euba to demonstrate the place and function of African cultures in modernity. The author makes the case for the vibrancy of such cultures in the shaping and constitution of the modern world.

A People ’ s History of Classics explores the influence of the classical past on the lives of working-class people, whose voices have been almost completely excluded from previous histories of classical scholarship and pedagogy, in Britain and Ireland from the late 17th to the early 20th century. This volume challenges the prevailing scholarly and public assumption that the intimate link between the exclusive intellectual culture of British elites and the study of the ancient Greeks and Romans and their languages meant that working-class culture was a ‘ Classics-Free Zone ’. Making use of diverse sources of information, both published and unpublished, in archives, museums and libraries across the United Kingdom and Ireland, Hall and Stead examine the working-class experience of classical culture from the Bill of Rights in 1689 to the outbreak of World War II. They analyse a huge volume of data, from individuals, groups, regions and activities, in a huge range of sources including memoirs, autobiographies, Trade Union collections, poetry, factory archives, artefacts and documents in regional museums. This allows a deeper understanding not only of the many examples of interaction with the Classics, but also what these cultural interactions signified to the working poor: from the promise of social advancement, to propaganda exploited by the elites, to covert and overt class war. A People ’ s History of Classics offers a fascinating and insightful exploration of the many and varied engagements with Greece and Rome among the working classes in Britain and Ireland, and is a must-read not only for classicists, but also for students of British and Irish social, intellectual and political history in this period. Further, it brings new historical depth and perspectives to public debates around the future of classical education, and should be read by anyone with an interest in educational policy in Britain today.

Applying modern critical theory to the interpretation of Latin poetry, the author argues for a critical approach wherein the meaning of a text is necessarily involved in the process of “reception”-- as illustrated through exemplary readings of Virgil, Ovid, Horace and Lucan.

Three categories-founders, classics, canons-have been vitally important in helping to frame sociology’s precarious identity, defining the discipline’s sense of its past and the implications for its current activity. Today that identity is being challenged as never before. Within the academy, a number of positions-feminist, postmodernist, poststructuralist, postcolonial-converge in questioning the status of “the tradition.” These currents, in turn, reflect wider social questioning about the meaning and uses of knowledge in technologically advanced societies. In Founders, Classics, Canons, Peter Baehr scrutinizes the nature of this challenge. He provides a model of the processes through which texts are elevated to classic status, and defends the continuing importance of sociology’s traditions for a university education in the social sciences. The concept of “classic” is, as Baehr notes, a complex one. Essentially it assumes a scale of judgment that deems certain texts as exemplary in eminence. But what is the nature of this eminence? Baehr analyzes various responses to this question. Most notable are those that focus on the functions classics perform for the scholarly community that employs them; the rhetorical force classics are said to possess; and the processes of reception that result in classic status. The concept of classic is often equated with two other notions: “founders” and “canon.” The former has a well-established pedigree within the discipline, but widespread usage of the latter in sociology is much more recent and polemical in tone. Baehr offers arguments against these two ways of interpreting, defending and attacking sociology’s great texts and authors. He demonstrates why, in logical and historical terms, discourses and traditions cannot actually be “founded” and why the term “founder” has little explanatory content. Equally, he takes issue with the notion of “canon” and argues that the analogy between the theological canon and sociological classic texts, though seductive, is mistaken. While questioning the uses to which the concepts of founder, classic, and canon have been put, Baehr’s purpose is not dismissive. On the contrary, he seeks to understand the value and meaning they have for the people who employ them in the cultural battle to affirm or exorcise the liberal university tradition. In examining the tactics of this battle, this volume offers a model of how social theory can be critical rather than radical. Peter Baehr teaches in the department of politics and sociology, Lingnan University, Hong Kong. His previous book for Transaction, Caesar and the Fading of the Roman World, was designated an “Outstanding Academic Book” by Choice.

Excerpt from Pharmacology: The Action and Uses of Drugs As a teacher of Pharmacology, the author was frequently asked by his pupils for a small and concise text-book which would give the facts essential to an elementary medical student without extensive discussions of opposite Opinions. It has been in an attempt to supply such a work that the following pages have been written. Although the volume is small, all the standard literature was consulted and carefully weighed before being admitted or rejected, and the criterion was always to preserve all the essential, known facts regarding the action of drugs, but to reject vague and contradictory state ments of no importance which would but confuse the beginner. At the end of each group description there is a brief summary of the general action; following the latter is a short statement concerning the uses and applications, and, lastly there is a con cise description of the different preparations used in medicine with their doses. From its beginnings, Confucianism has vibrantly taught that each person is able to find the Way individually in service to the community and the world. John Berthrong’s comprehensive new work tells the story of the grand intellectual development of the Confucian tradition, revealing all the historical phases of Confucianism and opening the reader’s eyes to the often neglected gifts of scholars of the Han, Tang, and the modern periods, as well as to the vast contributions of Korea and Japan. The author concludes his revelatory study with an examination of the contemporary renewal of the Confucian Way in East Asia and its spread to the West.

Tim Matson surveys an often overlooked aspect of independent living—firelight. In this completely revised and updated classic, Matson describes in lively detail all the elements of firelight—beginning with an explanation of the lighting system he developed from his Vermont home. • The romantic history and modern molding of candlepower • Traditional kerosene lamps • The versatile Aladdin • Liquid propane (LP) gas lights • Kerosene and gas pressure lanterns (the Coleman) • Incandescent mantle safety • The “Return of Firelight” from glass-fronted hearths and stoves In addition, Matson shows how to select, assemble, install, and safely maintain these non-electric sources of light. This guide will be indispensable for vacation homes, camps, boats, RVs, independent homesteads—and anywhere in a blackout.
