

Cockatoos Red Fox Picture Books

How is academia portrayed in children's literature? This Element ambitiously surveys fictional professors in texts marketed towards children, who are overwhelmingly white and male, tending to be elderly scientists. Professors fall into three stereotypes: the vehicle to explain scientific facts, the baffled genius, and the evil madman. By the late twentieth century, the stereotype of the male, mad, muddlehead, called Professor SomethingDumb, is formed in humorous yet pejorative fashion. This Element provides a publishing history of the role of academics in children's literature, questioning the book culture which promotes the enforcement of stereotypes regarding intellectual expertise in children's media. This title is also available, with additional material, as Open Access.

MINI TREASURES: delightful mini picture books to treasure forever. ONE STORMY NIGHT 'One Stormy night, the wind was howling, the iron gate creaked and the black cat hissed. ' So begins Ruth Brown's spine-chilling ghost story of a night where not everything is as it seems. . .

This is the first book of a series to be published by Wildlife Educators Publishing, an adjunct to Wildlife Educators Coalition, an all volunteer organization which introduces children of all ages to a variety of live, exotic animals and uses this exciting experience to raise awareness about a number of issues. This book is a fable featuring some of the animals belonging to WEC. A small fox is raised by rabbits and

Download Ebook Cockatoos Red Fox Picture Books

believes he is a rabbit. As he grows up, he notices significant differences between himself and his family. He is puzzled and a little frightened, wondering if he really belongs. Is there something “wrong” with him or is he just a different kind of rabbit? He and his oldest brother travel across Africa to find answers. They encounter many different kinds of animals but no “rabbits” who look like him. Of course, he does find his place and finds there is nothing wrong with him at all. He is a different kind of animal altogether, but it's OK. Love is not limited by “sameness” or differences. Besides a great story and wonderful photography, extra features include: Biographies of all the animals from WEC who appear in the story. Information with pictures about other kinds of foxes This is a book for fun with the extra value of being a serious educational tool.

Feathers at Las Flores

A Fact-Filled Adventure for Curious Globe-Trotters

The School Librarian

A is for Apples, some green and some red, B is for Breakfast we're having in bed.' With a simple rhyming text and characteristically brilliant illustrations, this title is suitable for young children just learning their alphabet.

(back cover) For lovers of birds and trivia, this captivating book features a wealth of fascinating facts, figures, and folklore about our feathered friends. It's beautifully illustrated throughout with colorful artworks, photographs, and diagrams. Over 400 nuggets of information drawn from nature, science, history, and mythology are sure to astound, amuse, and entertain Find the answers to these burning questions: How light is a feather? Are owls really wise? Why do birds migrate? How do they know where to go? Be amazed by the weird world of these winged wonders, from the largest ever recorded egg--equivalent to 220 chicken eggs--to the world's strangest bird, which has claws on its wings Includes practical advice such as how to attract birds to your garden and how to teach a parrot to talk, and encourages a new appreciation of these awesome creatures of the air (front flap) Birds are the most homogeneous and recognizable of all animal groups--they all have feathers and lay eggs, many sing, and most fly. In almost any environment, whether in a town or the countryside, it is difficult not to see numerous types of bird. Of all outdoor hobbies, bird-watching is growing at the fastest rate, and many people enjoy keeping birds as pets. Because birds are colorful, vocal, and daylight-loving creatures, they have been observed and studied for thousands of years. From

carvings in Egyptian caves to today's movies and books, bird images are everywhere. And for good reason--they are fascinating. They hear and see much better than humans can, have developed the power of flight, and are found everywhere in the world except the center of Antarctica. As homogeneous as they are, many birds have diversified in amazing ways, from penguins that incubate their eggs on top of their feet for 60 days to brush turkeys that do not sit on their eggs at all, and from the giant albatross of the oceans to the tiny hummingbird of the tropics. A treasure trove of varied information, this book provides the answers to many puzzling questions about our feathered friends. With its entirely random organization, *Amazing Birds* is perfect for browsing through and stumbling upon unexpected nuggets of fascinating information juxtaposed with strange stories and practical tips. (back flap) Dr. Roger Lederer is Emeritus Professor of Biological Sciences at California State University, Chico, where he has taught for more than 30 years, including courses in ornithology, conservation, and ecology. Dr. Lederer has given many public presentations and workshops, and has published more than 30 scientific papers and books, including two field guides to birds. Focusing on environmental education in recent years, Dr. Lederer served as the first Jack Rawlins Professor of Environmental Literacy at California State University, Chico.

Lazy Bottersnikes in outback rubbish tips, Sir Pronoun's dilemma about standing in Miss Noun's place and the story of how Jack built a house, a hut or a shack are all to be found in this treasury of Australian children's books. This book illuminates the icons of Australian children's literature from Gibbs and Outhwaite to Shaun Tan.

Young Cassie Logan endures humiliation and witnesses the racism of the KKK as they embark on a cross-burning rampage, before she fully understands the importance her family attributes to having land of their own.

This collection of essays examines English language learning in formal education contexts from pre-school to lower secondary level. Focused on an in-service teacher education project that aimed to enhance the teaching of English in a group of schools, it takes into account the perspectives of multiple stakeholders – heads of school, teachers, parents and children. Its novelty lies in the variety of themes it covers, such as the account of a vertical implementation of a Content and Language Integrated Learning (CLIL) project at three school levels, teachers' attitudes to using picturebooks in L2 settings, cultural differences in the presentation of content in textbooks, and the role of the native language assistant. “English for Young Learners” makes a valid contribution to research on a matter of crucial importance in Italian education in the 21st century, the improvement of the teaching and learning of English. It will be of interest to student teachers, educators, practitioners and researchers.

language and foundation literacy skills of young children in the classroom Includes information about how to assess research, and how to monitor and design intervention strategies for use with individual children Helps teachers to develop an understanding of the intervention and research process as a whole Additional journal content to support this title is available [click here](#)

This lush book of photography represents National Geographic's Photo Ark, a major cross-platform initiative and lifelong project by photographer Joel Sartore to make portraits of the world's animals- especially those that are endangered. His powerful message, conveyed with humor, compassion, and art- to know these animals is to save them. Sartore intends to photograph every animal in captivity in the world. He is circling the globe, visiting zoos and wildlife rescue centers to create studio portraits of 12,000 species, with an emphasis on those facing extinction. He has photographed more than 6,000 already and now, thanks to a multi-year partnership with National Geographic, he may reach his goal. This book showcases his animal portraits- from tiny to mammoth, from the Florida grasshopper sparrow to the greater one-horned rhinoceros. Paired with the eloquent prose of veteran wildlife writer Douglas Chadwick, this book presents a thought-provoking argument for saving all the species of our planet. The Publishers' Circular and General Record of

Volume 1

A CLIL Teacher Training Project in Italian Schools

In the nearby City of Green Meadow

Burrows, there lives a humble guinea pig whose name is Biscuit. At first glance, Biscuit looks like many other guinea pigs. She is small, round and chubby with golden fur that grows in all directions. Her eyes are shiny beads of black. Like all guinea pigs, she eats a vegetarian diet. Her favorite foods are hay, lettuce and all sorts of carrots, whether big or small, orange or yellow, or shredded and chopped. She is neither a genius nor an athlete nor a rock star; she can do nothing to make herself rich and famous. Biscuit is a very ordinary guinea pig, you see. So, you might be left wondering why anyone would take notice of her. Why!? Well, it's because she has accomplished greatness by living her life with a loving heart and good stewardship. How did she do this? Well, let's peek into her world and see what we find! As you accompany Biscuit during her story, you will meet several animal characters, as follows (in the

Download Ebook Cockatoos Red Fox Picture Books

order of their appearance): Coal, the friendly Poodle who prefers to be called a "Goldendoodle"; Mr. Scrub Jay, the tame, Western Scrub Jay who lives in Biscuit's garden; Boris, the salad-eating, Russian tortoise; Lily Muttsarella, the Maltepo dog who plays in dual character roles as Miss Sugar and Police Officer Lily; Spirit, the docile, Ringneck dove; and Daisy, the basket-ball playing, Lesser Sulfur-Crested Cockatoo. Biscuit teaches us that it is more important to be loving than it is to be loved for our importance. In her adventures, she loves everyone and never behaves like a bully; she is honest; she takes a stand against injustice; she is charitable and shares with others; she takes responsibility for her actions; she does her best, even when it's difficult; she remembers to love herself and have fun; and she appreciates and gives thanks to God and everyone who demonstrates kindness. This book offers an alternative to the violent images that bombard today's youth on television, in the movies, in the virtual world of electronic games and in the real world.
