Clothesline Clues to Jobs People Do

Future Prospects for Food and Feed Security

Teach your little one about different career options with this illustrated guess-and-reveal book—perfect for reading aloud with preschool-age children and up Who wears what to work? The clues in each lively verse can be spotted hanging from the clotheslines. A mail carrier’s uniform, the artist’s brushes, and the chef’s apron all hang from the clothesline. Then turn the page to learn which professionals wear and use the special gear in the jobs they do. Clever illustrations show the workers helping one another, and in the end, everyone joins together for a celebration that is out of this world. A perfect choice for reading aloud and encouraging kids to join in the guessing and reveal.

Edible insects have always been a part of human diets, but in some societies there remains a degree of disdain and disgust for their consumption. Insects offer a significant opportunity to merge traditional knowledge and modern science to improve human food security worldwide. This publication describes the contribution of insects to food security and examines future prospects for raising insects at a commercial scale to improve food and feed production, diversify diets, and support livelihoods in both developing and developed countries. Edible insects are a promising alternative to the conventional production of meat, either for direct human consumption or for indirect use as feedstock. This publication will boost awareness of the many valuable roles that insects play in sustaining nature and human life, and it will stimulate debate on the expansion of the use of insects as food and feed.

From the team that created the bestselling I Wish You More, this is a motivational picture book for exceptionally OK children! In this clever and visual play on words, OK is turned sideways, upside down, and right side up to show that being OK can really be quite great. With spare yet comforting illustrations and text, bestselling duo Amy Krouse Rosenthal and Tom Lichtenheld celebrate the real skills and talents children possess, encouraging and empowering them to discover their own individual strengths and personalities. Whether OK personifies an OK skipper, an OK climber, an OK lightning bug catcher, or an OK whatever there is to experience, OK is an OK place to be. And being OK just may lead to the discovery of what makes one great.

Global Action Plan on Physical Activity 2018-2030

Introduces some of the many different types of workers a community needs, including builders, educators, medical professionals, emergency workers, and volunteers, and describes the work they do.

If your hands can mix and mash, what job might you have? What if your hands reach, wrench, yank, and crank? The hands in this book—and the people attached to them—do all sorts of helpful work. And together, these helpers make their community a safe and fun place to live. As you read, keep an eye out for community members who make repeat appearances! Can you guess all the jobs based on the actions of these busy hands?

Describes some of the things that letter carriers do to make sure people in the community get their mail. Daniel Tiger ventures beyond the Neighborhood of Make Believe to introduce kids to the helpers in their neighborhood! These community members—like firefighters, crossing guards, doctors, and teachers—are there to help in the neighborhood every day in so many different ways. Illustrated using a combination of photographs of real world helpers and illustrations of Daniel Tiger, this special storybook focuses on the teachings of Mr. Rogers and strategies from Daniel Tiger ’ s Neighborhood. It ’ s sure to be beloved by parents, teachers, librarians, and children. © 2019 The Fred Rogers Company

“Besides the beguiling story, the affable illustrations of the smiling Gloria, the accidental mayhem in the background, and the myriad safety tips – such as ‘always pull the toothpick out of your sandwich’ and ‘never lick a stop sign in the winter’ -- add to the enjoyment. A glorious picture book.” -- The Horn Book“Rathmann is a quick rising star in the world of chidren’s books. Yellow hates Red, so does Green, and no one likes Orange! Can these crayons quit arguing and learn to cooperate? Shane DeRolf’s deceptively simple poem celebrates the creation of harmony through diversity. In combination with Michael Letzig’s vibrant illustrations, young readers will understand that when we all work together, the results are much more colorful and interesting.

This rhyming, brightly illustrated book is the perfect way to practice the alphabet and to introduce young children to kindergarten. It’s the first day of kindergarten and Miss Bindergarten is hard at work getting the classroom ready for her twenty-six new students. Meanwhile, Adam Krupp wakes up, Brenda Heath brushes her teeth, and Christopher Beaker finds his sneaker. Miss Bindergarten puts the finishing touches on the room just in time, and the students arrive. Now the fun can begin! "Multifaceted and appealing, this book can be enjoyed in many ways, at home and at school." --The New York Times Book Review For readers of Kindergarten, Here I Come and The Night Before Kindergarten.

Presents plenty of practice for children to recognize the sounds of letters that begin words.

Regular physical activity is proven to help prevent and treat noncommunicable diseases (NCDs) such as heart disease stroke diabetes and breast and colon cancer. It also helps to prevent hypertension overweight and obesity and can improve mental health quality of life and well-being. In addition to the multiple health benefits of physical activity societies that are more active can generate additional returns on investment including a reduced use of fossil fuels cleaner air and less congested safer roads. These outcomes are interconnected with achieving the shared goals political priorities and ambition of the Sustainable Development Agenda 2030. The new WHO global action plan to promote physical activity responds to the requests by countries for updated guidance and a framework of effective and feasible policy actions to increase physical activity at all levels. It also responds to requests for global leadership and stronger regional and national coordination and the need for a whole-of-society response to achieve a paradigm shift in both supporting and valuing all people being regularly active according to ability and across the life course. The action plan was developed through a worldwide consultation process involving governments and key stakeholders across multiple sectors including health sports transport urban design civil society academia and the private sector.

Whose Hands Are These?

#1 NEW YORK TIMES BESTSELLER • NEWBERY MEDAL WINNER • NATIONAL BOOK AWARD WINNER Dig deep in this award-winning, modern classic that will remind readers that adventure is right around the corner--or just under your feet! Stanley Yelnats is under a curse. A curse that began with his no-good-dirty-rotten-pig-stealing-great-great-grandfather and has since followed generations of Yelnatses. Now Stanley has been unjustly sent to a boys’ detention center, Camp Green Lake, where the boys build character by spending all day, every day digging holes exactly five feet wide and five feet deep. There is no lake at Camp Green Lake. But there are an awful lot of holes. It doesn’t take long for Stanley to realize there’s more than character improvement going on at Camp Green Lake. The boys are digging holes because the warden is looking for something. But what could be buried under a dried-up lake? Stanley tries to dig up the truth in this inventive and darkly humorous tale of crime and punishment--and redemption. "A smart jigsaw puzzle of a novel." --New York Times *Includes a double bonus: an excerpt from Small Steps, the follow-up to Holes, as well as an excerpt from the New York Times bestseller Fuzzy Mud.

An alphabet book introducing occupations oriented to the community, including emergency workers, medical workers, the service industry, and business.

“Fascinating. Doidge’s book is a remarkable and hopeful portrait of the endless adaptability of the human brain.”—Oliver Sacks, MD, author of The Man Who Mistook His Wife for a Hat What is neuroplasticity? Is it possible to change your brain? Norman Doidge’s inspiring guide to the new brain science explains all of this and more An astonishing new science called neuroplasticity is overthrowing the centuries-old notion that the human brain is immutable, and proving that it is, in fact, possible to change your brain. Psychoanalyst, Norman D Doidge, M.D., traveled the country to meet both the brilliant scientists championing neuroplasticity, its healing powers, and the people whose lives they’ve transformed—people whose mental limitations, brain damage or brain trauma were seen as unalterable. We see a woman born with half a brain that rewired itself to work as a whole, blind people who learn to see, learning disorders cured, IQs raised, aging brains rejuvenated, stroke patients learning to speak, children with cerebral palsy learning to move with more grace, depression and anxiety disorders successfully treated, and lifelong character traits changed. Using these marvelous stories to probe mysteries of the body, emotion, love, sex, culture, and education, Dr. Doidge has written an immensely moving, inspiring book that will permanently alter the way we look at our brains, human nature, and human potential.
