The first group of books entitled Sanskrit is Fun (Parts I-III) introduce the learners to the Devanagari alphabets, grouping the letters according to their place of articulation, called 'Family', which comprises both the vowels and consonants. Learners are first taught how to draw the letters. Learning and teaching is also helped by the humorous presentation of the letters in the form of animals figures. The next step is to add vowel to the consonants, and then to teach joint (compound) consonants. Finally words and sentences are formed.

A Sanskrit Treasury

This book is designed to serve as a convenient quick-reference guide to the grammar of Classical Sanskrit for the use of university students and others. It is not intended to be a complete grammar of the language. Rather, its purpose is to pre-sent, mainly in the form of easily read tables, essential reference information such as the rules of sandhi, the declensional and conjugational paradigms, and the principal parts of major verbs. About two-thirds of the book consists of tables. The remainder is text, with advice on how to use the tables and explanations of the grammatical information has been abstracted, with substantial modification of the presentation, from existing Sanskrit grammars, especially those of Whitney, MacDonell, and Kale. An exception is the set of three indexes: Index to verb stems, Index to verb endings, and Index to noun endings (Tables 28-30). These probably have no counterpart elsewhere. The manual originated as a set of photocopied notes which was supplied, as a supplement to existing textbooks, to first and second year students of Sanskrit in the Department of Studies in Religion at the University of Queensland. Over a period of seven years those notes were progressively modified and expanded until they became the present fairly comprehensive reference work.

Based on the most popular story in all of India and a classic of world literature, this fully annotated reader is intended for independent study or classroom use for students of various levels who have had a basic introduction to Sanskrit.

This series of two books is designed for the systematic learning of Devanagari, the alphabet script generally used for written Sanskrit. By completing the study of these two books, one may be able to read and write Sanskrit words and sentences adequately. This first book of the series covers all of the letters in the Sanskrit alphabet. Pronunciation, a guided handwriting practice area with the order of writing strokes, and word examples are provided for each letter.

The present grammar has been prepared with a view to meet the growing educational need of university students. The author has done his best to bring the present grammar up to the requirements of the students. In writing the various chapters, the author has closely followed Pannini, as explained by Bhattoji Diksita. Many of the rules given here are translations of the relevant Sutras of Panini. The original Sutras are given in footnotes, where necessary. Sandhis and declensions are given for compounds which dominate classical Sanskrit literature have received special attention; formation of feminine bases has been illustrated; Taddhita affixes have been arranged in an alphabetical order. A special feature of the present grammar is the Conjugation of Verbs. The general rules given are amply illustrated by examples. All the verbs which change their pada when preceded by particular prepositions are given in an alphabetical order. The chapter on Syntax contains almost all the rules given in the first 20 chapters of author's Guide to Sanskrit Composition; the chapter on Prosody is based on the Chandomanjari and the Vrttaratnakara. The author has spared no pains to make the book as useful and as complete as possible.

In the present age of globalization, to learn a different language is a boon, as it enhances the career prospects and gives the knowledge of other cultures. There are a few languages which have their global utility like English, French, Chinese, Spanish, and Arabic etc. But Sanskrit is totally different from this group. According to the Oxford dictionary, Sanskrit is the language of learned people in India. It is true that this is a native Indian language, but this language has been given the status of the most suitable language for computers. In the view of scientists and researchers this is the language of future. It is said that Sanskrit is the mother of many Indian and European languages. This language is not just a language of communication but also the language that leads to spiritualism. Researchers have recently proclaimed that just by pronouncing this beautiful language one can get rid of one's illness. That is why this is called the language of GOD. Its grammar and pronunciation are based on scientific pattern. So, I am sure that by learning this special language one's life will be transformed completely. There are many books in the market that teach Sanskrit. Most of the books are written for Indian languages speaking persons. Though there a few books for English speakers but after viewing them, I found them not meeting the requirements of foreign learners because of their complexities. That is why I have written this book. Though this is the second edition of the book but I would like to call it the first one, because the book has been re-written thoroughly by keeping the suggestions of the readers in mind. This book has been written in a simple and lucid way. I have illustrated the principles of grammar in the book, so that the learner may be able to get to the heart of the Sanskrit language easily. A number of examples have been given in the book. Chapters on conversation and adages have been added. Vocabulary section has been divided into categories. The transliteration of the whole book has been provided. I think after careful study of the book, the readers will be able to understand the basics of the language. I am planning to give the audio version of the book free of cost to the readers in future. As soon as the version is ready I'll email it to the readers in mp3 format. To get the version, readers must send a request on the following email- sundeepsinghchauhan@yahoo.com. Hopefully, the readers will enjoy the reading of the book.

The present dictionary is a practical exercise in word-compilation to facilitate the study of Sanskrit language. Based on Webster's complete English dictionary it includes general terms of all sciences and such technical terms as could be duly represented by Sanskrit equivalents actually existing in that language. Besides the general vocabulary quotations from the works of famous authors have been inserted to render the connotation of a word easily intelligible. It is also designed to help scholars translate any passage from English into Sanskrit. It covers a very large field. Epics such as the Ramayana and Mahabharata, Puranas and Upapuranas, Smrti and Niti literature, Darśanas or Systems of Philosophy, such as Nyaya, Vedānta, Mīmāṃsā, Sāṅkhya and Yoga, Grammar, Rhetoric, Poetry in all its branches, Dramatic and Narrative literature, Mathematics, Medicine, Botany, Astronomy, Music and other technical or scientific branches of learning. Thus, it embraces all words occurring in the general post-Vedic literature. It includes most of the important terms in Grammar. It gives quotations and references to the peculiar and remarkable meanings of words, especially such as occur in books prescribed for study in the Indian and foreign universities. It also renders explanation of important technical terms occurring in different branches of Sanskrit learning. To add to its usefulness the work includes three appendices.

With over 14,000 translations, including everyday idioms and expressions, Essential Swahili Dictionary is the perfect tool to support your Swahili learning. This new edition is fully updated with a guide to usage and insights from the author to help you learn and remember new words and phrases. New features: AUTHOR INSIGHTS Lots of instant help with common problems and quick tips for success, based on the author's many years of experience.

This collection of essays explores the history of the book in pre-modern South Asia looking at the production, circulation, fruition and preservation of manuscripts in different areas and across time. Edited by the team of the Cambridge-based Sanskrit Manuscripts Project and including contributions of the researchers who collaborated with it, it covers a wide range of topics related to South Asian manuscript culture: from the material dimension (palaeography, layout, decoration) and the complicated interactions of manuscripts with printing in late medieval Tibet and in modern Tamil Nadu, to reading, writing, editing and educational practices, from manuscripts as sources for the study of religious, literary and intellectual traditions, to the creation of collections in medieval India and Cambodia (one major centre of the so-called Sanskrit cosmopolis), and the formation of the Cambridge collections in the colonial period. The contributions reflect the variety of idioms, literary genres, religious movements, and social actors (intellectuals, scribes, patrons) of ancient South Asia, as well as the variety of approaches, interests and specialisms of the authors, and their impassionate engagement with manuscripts.

This beautiful collection brings together passages from the renowned stories, poems, dramas and myths of South Asian literature, including the Mahabharata and the Ramayana. Drawing on the translations published by the Clay Sanskrit Library, the book presents episodes from the adventures of young Krishna, the life of Prince Rama and Hindu foundational myths, the life of the Buddha, as well as Buddhist and Jaina birth stories. Pairing key excerpts from these wonderful Sanskrit texts with exquisite illustrations from the Bodleian Library's rich manuscript collections, the book includes images of birch-bark and palm-leaf manuscripts, vibrant Mughal miniatures, early printed books, sculptures, watercolour paintings and even early photograph albums. Each extract is presented in both English translation and Sanskrit in Devanagari script, and is accompanied by a commentary on the literature and related books and artworks. The collection is organised by geographical region and includes sections on the Himalayas, North India, Central and South India, Sri Lanka and South East Asia, Tibet, Inner and East Asia, and the Middle East and Europe. This is the perfect introduction for anyone interested in Sanskrit literature and the manuscript art of South Asia - and beyond.
