With the exception of die-hard aficionados of European or Italian horror cinema, most people may not have heard of giallo specifically. Critics often deride these films, which reveal more about the reviewers' own prejudices than any problem with the works themselves. As a counter to such biases, Mikel J. Koven argues for an alternative approach to studying these films, by approaching them as vernacular cinema—distinct from "popular cinema—distinct from "popular cinema." According to Koven, to look at a film from a vernacular perspective removes the assumptions about what constitutes a "good" film and how a particular film is in some way "artistic." In La Dolce Morte: Vernacular Cinema and the Italian Giallo Film, Koven explores the history and evolution of this aspect of cinema, and places these films: their use of space, the murders, the role of the detective, the identity of the killer, issues of belief, excess, and the set-piece.
