

Congress And Its Members 14th Edition

This is a print on demand edition of a hard to find publication. Over the last decade or so, concern about illegal immigration has sporadically led to a re-examination of a long-established tenet of U.S. citizenship, codified in the Citizenship Clause of the 14th Amendment of the U.S. Constitution and in the Immigration and Nationality Act (INA), that a person who is born in the U.S., is a citizen of the U.S. regardless of the race, ethnicity, or alienage of the parents. Some congressional Members have supported a revision of the Citizenship Clause or at least holding hearings for a serious consideration of it. Contents of this report: (1) Intro.; (2) Historical Development: Jus Soli Doctrine Before the 14th Amend.; The 14th Amend. and the Civil Rights Act of 1866; U.S. v. Wong Kim Ark and Elk v. Wilkins; (3) Legislative Proposals.

The gold standard for Congress courses for over 30 years Congress and Its Members, Sixteenth Edition, by Roger H. Davidson, Walter J. Oleszek, Frances E. Lee, and Eric Schickler, offers readers current, comprehensive coverage of Congress and the legislative process by examining the tension between Congress as a lawmaking institution and as a collection of politicians constantly seeking re-election. These essays both illuminate the original texts and encourage active engagement with them.

Whereas our nation was once united in purpose, today it is bitterly divided. Why? Racial discrimination, diminishing educational opportunities, poor economic mobility, greedy corporations, and an unresponsive federal government have combined to create two Americas. The race problem in the American criminal justice system endures because of the enabling behavior of the public and of policy makers. The tendency of racial justice advocates to point the finger of blame chiefly at law enforcement, or racial conservatives, or the war on drugs, or any other single entity is misguided. Whether the problem is defined in terms of minority overrepresentation in the criminal justice system or in terms of the differential treatment minorities receive while entangled within the criminal process, a critical mass of citizens and policy makers that care enough to demand something be done about it is lacking. We Are "The Man" is the story of how racial concerns are consistently ignored in the national crime-policy process and why.

As a governing body, Congress continually adapts to changes in process and practice. This procedural context governs every aspect of the House and Senate and affects lawmakers as they make voting decisions, expedite or delay legislation, or defeat a bill. Walter Oleszek’s definitive work examines how the majority and minority parties use procedural devices to achieve their political goals and offers an assessment of the role of conference committees in reconciling bicameral differences. Not shying away from the complexity of the topic, Oleszek ensures that the machinations of Congress are understandable through an array of interesting examples, cases, and anecdotes that he is well-positioned to witness and experience first-hand.

Authoritative and trusted, Environmental Policy convenes top scholars to evaluate the impact of past environmental policy while anticipating its future implications, helping students decipher the underlying trends, institutional constraints, and policy dilemmas that shape environmental politics. In the Ninth Edition, editors Norman Vig and Michael Kraft offer coverage of the latest issues, including the energy and natural resource policy dilemmas, sustainable cities, and the environmental impact of food production and consumption. A new concluding chapter ties the contributed material together with an assessment of the remaining environmental policy challenges for the 21st century.

In our current age of unprecedented political polarization, nothing has been more strained by partisanship than the relationship between our President and the Congress with which he must deal. Now in its fifth edition, Rivals for Power: Presidential-Congressional Relations provides students an unmatched level of insight into the relationship between the executive and legislative branches of our federal government. Edited by James A. Thurber, this new edition includes 11 new chapters by leading scholars, journalists, and former public officials detailing previously unexplored aspects of the necessary rivalry upon which our nation’s governing philosophy was founded centuries ago. In addition to thorough analyses of the causes of macro-level governmental conflict throughout our history, the book highlights many specific points of contention from President Obama’s first term — from the Dodd-Frank Act, to the “Fast and Furious” gunrunning scandal, to the ongoing battles surrounding the Affordable Care Act and its implementation — as examples of how power, no matter how concentrated or sweeping, is ultimately checked and balanced by our democracy. Students and policy makers alike will find this book a valuable contribution to their understanding of the current state of federal power, and the narrative — the historical origins — of how America’s fundamental rivalry has arrived at its present state.

The Debates and Proceedings in the Congress of the United States

In recent Congresses, roughly half of the members of the U.S. House of Representatives served in whip organizations and on party committees. According to Scott R. Meinke, rising electoral competition and polarization over the past 40 years have altered the nature of party participation. In the 1970s and 1980s, the participation of a wide range of members was crucial to building consensus. Since then, organizations responsible for coordination in the party have become dominated by those who follow the party line. At the same time, key leaders in the House use participatory organizations less as forums for internal deliberations over policy and strategy than as channels for exchanging information with supporters outside Congress, and broadcasting sharply partisan campaign messages to the public. Once elected, members of Congress face difficult decisions about how to allocate their time and effort. On which issues should they focus? What is the right balance between working in one’s district and on Capitol Hill? How much should they engage with the media to cultivate a national reputation? William Bernhard and Tracy Sulkin argue that these decisions and others define a “legislative style” that aligns with a legislator’s ambitions, experiences, and personal inclinations, as well as any significant electoral and institutional constraints. Bernhard and Sulkin have developed a systematic approach for looking at legislative style through a variety of criteria, including the number of the bills passed, number of speeches given, amount of money raised, and the percentage of time a legislator voted in line with his or her party. Applying this to ten congresses, representing twenty years of congressional data, from 1989 to 2009, they reveal that legislators’ activity falls within five predictable styles. These styles remain relatively consistent throughout legislators’ time in office, though a legislator’s style can change as career goals evolve, as well as with changes to individual or larger political interests, as in redistricting or a majority shift. Offering insight into a number of enduring questions in legislative politics, Legislative Style is a rich and nuanced account of legislators’ activity on Capitol Hill.

This book examines how well the American political systems performs by using multiple criteria, including the level of trust the public has towards the institutions of government, the abilities of the institutions to make good public policy, the extent to which policy is responsive to public opinion, and the extent to which public policy is fair.

This book sheds new light on the often shadowy, but essential role of committees, which exist in modern parliaments around the globe, and it questions the conventional notion that the ‘ real ’ work of parliament happens in committees. Renowned country specialists take a close look at what goes on in committees and how it matters for policy making. While committees are seen as the central place where policy is made, they often hold their sessions closed to the public and calls for transparency are growing. To understand this "black box" it is necessary to look within but also beyond the walls of the committee rooms and parliament buildings. Bringing together formal and informal aspects, rules and practices shows that committees are not a paradise of policy making. They have great relevance nonetheless: as crystallization points in the policy networks, as drivers for division of labor and for socialization and the integration of MPs. The new insights presented in this book will be of interest to scholars, students and professionals in parliamentary affairs, legislative studies, government, and comparative politics. They are also relevant for political analysts, journalists, and policymakers.

Over the last decade or so, concern about illegal immigration has sporadically led to a re-examination of a long-established tenet of U.S. citizenship, codified in the Citizenship Clause of the Fourteenth Amendment of the U.S. Constitution and 301(a) of the Immigration and Nationality Act

(INA) (8 U.S.C. 1401(a)), that a person who is born in the United States, subject to its jurisdiction, is a citizen of the United States regardless of the race, ethnicity, or alienage of the parents. The war on terror and the case of Yaser Esam Hamdi, a U.S.-Saudi dual national captured in Afghanistan fighting with Taliban forces, further heightened attention and interest in restricting automatic birthright citizenship, after the revelation that Hamdi was a U.S. citizen by birth in Louisiana to parents who were Saudi nationals in the United States on non-immigrant work visas and arguably entitled to rights not available to foreign enemy combatants. More recently, some congressional Members have supported a revision of the Citizenship Clause or at least holding hearings for a serious consideration of it. An Arizona state legislator has voiced support for state legislation that would deny birth certificates to persons born to undocumented aliens. This report traces the history of ...
