Conquest Of Paradise

California now has more trees than at any time since the late Pleistocene. This green landscape, however, is not the work of nature. It's the work of history.

Los Angeles incarcerates more people than any other city in the United States, which imprisons more people than any other nation on Earth. This book explains how the City of Angels became the capital city of the world's leading incarcerator. Marshaling more than two centuries of evidence, historian Kelly Lytle Hernandez unmaskes how histories of native elimination, immigrant exclusion, and black disappearance drove the rise of incarceration in Los Angeles. In this telling, which spans from the

Download Free Conquest Of Paradise

Spanish colonial era to the outbreak of the 1965 Watts Rebellion, Hernandez documents the persistent historical bond between the racial fantasies of conquest, namely its settler colonial form, and the eliminatory capacities of incarceration. But *City of Inmates* is also a chronicle of resilience and rebellion, documenting how targeted peoples and communities have always fought back. They busted out of jail, forced Supreme Court rulings, advanced revolution across bars and borders, and, as in the summer of 1965, set fire to the belly of the city. With these acts those who fought the rise of incarceration in Los Angeles altered the course of history in the city, the borderlands, and beyond. This book recounts how the dynamics of conquest met deep reservoirs of rebellion as

Download Free Conquest Of Paradise

Los Angeles became the City of Inmates, the nation's carceral core. It is a story that is far from over. Scholars have written reams on the conquest of Mexico, from the grand designs of kings, viceroys, conquistadors, and inquisitors to the myriad ways that indigenous peoples contested imperial authority. But the actual work of establishing the Spanish empire in Mexico fell to a host of local agents—magistrates, bureaucrats, parish priests, ranchers, miners, sugar producers, and many others—who knew little and cared less about the goals of their superiors in Mexico City and Madrid. Through a case study of the province of Michoacán in western Mexico, *Promiscuous Power* focuses on the prosaic agents of colonialism to offer a paradigm-shifting

Download Free Conquest Of Paradise

view of the complexities of making empire at the ground level. Presenting rowdy, raunchy, and violent life histories from the archives, Martin Austin Nesvig reveals that the local colonizers of Michoacán were primarily motivated by personal gain, emboldened by the lack of oversight from the upper echelons of power, and thoroughly committed to their own corporate memberships. His findings challenge some of the most deeply held views of the Spanish colonization of Mexico, including the Black Legend, which asserts that the royal state and the institutional church colluded to produce a powerful Catholicism that crushed heterodoxy, punished cultural difference, and ruined indigenous worlds. Instead, Nesvig finds that Michoacán—typical of many

Download Free Conquest Of Paradise

frontier provinces of the empire—became a region of refuge from imperial and juridical control and formal Catholicism, where the ordinary rules of law, jurisprudence, and royal oversight collapsed in the entropy of decentralized rule.

decades during the sixteenth century, when conquistadores, Catholic friars, and imperial officials attempted to conquer the Inca Empire and impose Spanish colonial rule. When Francisco Pizarro captured the Inca warlord Atahualpa at Cajamarca in 1532, European Catholics and Andean peoples interpreted the event using long-held beliefs about how their worlds would end, and what the next era might look like. The Inca world did not end at Cajamarca, despite some popular misunderstandings of the Spanish conquest of Peru. In the years that followed, some Inca lords resisted Spanish rule, but many Andean

nobles converted to Christianity and renegotiated their sovereign claims into privileges as Spanish subjects. Catholic empire took a lifetime to establish in the Inca world, and it required the repeated conquest of rebellious conquistadores, the reorganization of native populations, and the economic overhaul of diverse Andean landscapes. These disruptive processes of modern world-building carried forward old ideas about sovereignty, social change, and human progress. Although overshadowed by the Western philosophies and technologies that drive our world today, those apocalyptic

In 1099, when the first crusaders arrived triumphant and bloody before the walls of Jerusalem, they carved out a Christian European presence in the Islamic world that remained for centuries, bolstered by subsequent waves of new crusades and pilgrimages. But how did medieval Muslims understand these events? What does an

Islamic history of the Crusades look like? The answers may surprise you. In *The Race for Paradise*, we see medieval Muslims managing this new and long-lived Crusader threat not simply as victims or as victors, but as everything in-between, on all shores of the Muslim Mediterranean, from Spain to Syria. This is not just a straightforward tale of warriors and kings clashing in the Holy Land - of military confrontations and enigmatic heroes such as the great sultan Saladin. What emerges is a more complicated story of border-

crossers and turncoats; of embassies and merchants; of scholars and spies, all of them seeking to manage this new threat from the barbarian fringes of their ordered world. When seen from the perspective of medieval Muslims, the Crusades emerge as something altogether different from the high-flying rhetoric of the European chronicles: as a diplomatic chess-game to be mastered, a commercial opportunity to be seized, a cultural encounter shaping Muslim experiences of Europeans until the close of the Middle

Scholars, journalists, and politicians uphold Muslim-ruled medieval Spain—"al-Andalus"—as a multicultural paradise, a place where Muslims, Christians, and Jews lived in harmony. There is only one problem with this widely accepted account: it is a myth. In this groundbreaking book, Northwestern University scholar Darío Fernández-Morera tells the full story of Islamic Spain. *The Myth of the Andalusian Paradise* shines light on hidden features of this medieval culture by drawing on an abundance of primary sources that

scholars have ignored, as well as archaeological evidence only recently unearthed. This supposed beacon of peaceful coexistence began, of course, with the Islamic Caliphate's conquest of Spain. Far from a land of tolerance, Islamic Spain was marked by religious and therefore cultural repression in all areas of life, and by the marginalization of Christians and other groups—all this in the service of social control by autocratic rulers and a class of religious authorities. As professors, politicians, and pundits continue to celebrate Islamic Spain for its “multiculturalism” and “diversity,” Fernández-Morera sets the record

The Caucasus--a region of supreme natural beauty and fiercely proud warriors--has throughout history been characterized by violence and turmoil. During the Great Caucasus War of 1834-1859, the warring

mountain tribes of Daghestan and Chechnya united under the charismatic leadership of the Muslim chieftain Imam Shamil, the "Lion of Daghestan", and held at bay the invading Russian army for nearly 25 years. Lesley Blanch vividly recounts the epic story of their heroic and bloody struggle for freedom and the life of a man still legendary in the Caucasus.

Analysis of Columbus and his discovery of the New World and how it changed the distribution and mixture of life-forms and

cultures.

Compiled in 1582, Ballads of the Lords of New Spain is one of the two principal sources of Nahuatl song, as well as a poetical window into the mindset of the Aztec people some sixty years after the conquest of Mexico. Presented as a cancionero, or anthology, in the mode of New Spain, the ballads show a reordering—but not an abandonment—of classic Aztec values. In the careful reading of John Bierhorst, the ballads reveal in no uncertain terms the pre-conquest Aztec belief

Download Free Conquest Of Paradise

in the warrior's paradise and in the virtue of sacrifice. This volume contains an exact transcription of the thirty-six Nahuatl song texts, accompanied by authoritative English translations. Bierhorst includes all the numerals (which give interpretive clues) in the Nahuatl texts and also differentiates the text from scribal glosses. His translations are thoroughly annotated to help readers understand the imagery and allusions in the texts. The volume also includes a helpful introduction and a larger essay, "On the

Translation of Aztec Poetry," that discusses many relevant historical and literary issues. In Bierhorst's expert translation and interpretation, Ballads of the Lords of New Spain emerges as a song of resistance by a conquered people and the recollection of a glorious past. Announcing a New Digital Initiative

<http://www.lib.utexas.edu/books/utdigital/> UT Press, in a new collaboration with the University of Texas Libraries, will publish an interactive digital adaptation of the Ballads

that will expand the scholarly content beyond what is possible to publish in book form. The web site, to launch in conjunction with the book in July 2009, includes all of the printed book plus scans of the original codex, a normative transcription, and space to interact with the author and other scholars, as well as art, audio, a map, and other related material. The digital Ballads will be open access, bringing one of the university's rare holdings to scholars around the world.

story of how the West was reborn. In the bestselling tradition of *The Swerve* and *A Distant Mirror*, *The Verge* tells the story of a period that marked a decisive turning point for both European and world history. Here, author Patrick Wyman examines two complementary and contradictory sides of the same historical coin: the world-altering implications of the developments of printed mass media, extreme taxation, exploitative globalization, humanistic learning, gunpowder warfare, and mass religious conflict in the long term, and their intensely disruptive consequences in the short-term. As told through the lives of ten real people--from famous figures like Christopher Columbus

Download Free Conquest Of Paradise

and wealthy banker Jakob Fugger to a ruthless small-time merchant and a one-armed mercenary captain--The Verge illustrates how their lives, and the times in which they lived, set the stage for an unprecedented globalized future. Over an intense forty-year period, the seeds for the so-called "Great Divergence" between Western Europe and the rest of the globe would be planted. From Columbus's voyage across the Atlantic to Martin Luther's sparking the Protestant Reformation, the foundations of our own, recognizably modern world came into being. For the past 500 years, historians, economists, and the policy-oriented have argued which of these individual developments best explains the
