In this book Jukka Korpela offers an analysis of the trade in kidnapped Finns and Karelians into slavery in Eastern Europe. Blond slaves from the north of Europe were rare luxury items in Black Sea and Caspian markets, and the high prices they commanded stimulated and sustained a long-distance trade based on kidnapping in special robbery missions and war expeditions. Captives were sold into the Volga slave trade and transported through market webs further south. This business differed and was separate from the large-scale raids carried out on Crimeans for enslavement in Eastern Europe, or the mass kidnappings characteristic of Mediterranean slavery. The trade in Finns and Karelians provides new perspectives on the formation of the Russian state as well as the economic networks of official and unofficial markets in Eastern Europe.

Tolstoy has held the attention of mankind for well over a century. A gifted writer, whose novels and short stories continue to entrance readers all over the world, he was at the same time a fearless moral philosopher who explored and challenged the fundamental bases of human sociopolitical, economic, legal, and cultural. In these essays McLean investigates some of the numerous paradoxes in the Tolstoyan heritage, engaging both with Tolstoy the artist, author of those incomparable novels, and Tolstoy the thinker, who, from his impregnable outpost at Yasnaya Polyana, questioned the received ideas and beliefs of the whole civilized world. In two concluding essays, "Tolstoy beyond Tolstoy," McLean deals with the impact of Tolstoy on such diverse figures as Ernest Hemingway and Isaiah Berlin.

What can contemporary activists and political theorists learn from the life and work of Rosa Luxemburg? Examining her contribution to radical democracy and revolutionary socialism, Jon Nixon shows why Red Rosa's legacy lives on. Luxemburg's political and intellectual formation was in itself a 'long revolution', conceived of over time and in response to world events; her groundbreaking ideas around internationalism and spontaneity were formulated in the context of revolution. Returning to her thinking on global capitalism, democratic renewal, state militarism, and the social question, Nixon draws out the enduring nature of her work, using her framework of ideas as a lens through which to view the contemporary debates. By establishing a rich and distinctive account of Luxemburg, Nixon makes the argument for why her struggle for democratic renewal is as relevant as ever.

Henry Mancini, the first publicly successful and personally recognizable film composer in history, has practically become a Hollywood brand name. In his lifetime, he sold thirty million albums and won four Oscars and twenty Grammy awards. Through Mancini, mere background music in movies became part of pop culture--an expression of sophistication and wit with a modern sense of cool and

a lasting lyricism that has not dated. The first comprehensive study of Mancini's music, Henry Mancini: Reinventing Film Music describes how the composer served as a bridge between the Big Band period of World War II and the impatient eclecticism of the Baby Boomer generation, between the grand formal orchestral film scores of the past and a modern American minimalist approach. Mancini's sound seemed to capture the bright, confident, welcoming voice of the middle class's new efficient life: interested in pop songs and jazz, in movies and television, in outreach politics but also conventional stay-at-home comforts. As John Caps shows, Mancini easily combined it all in his music. Mancini wrote his first dramatic music for a radio series in 1950. By the mid-1960s, he wielded influence in Hollywood and around the world with his iconic scores: dynamic jazz for the noirish detective TV show Peter Gunn, the sly theme from The Pink Panther, and his wistful folk song "Moon River" from Breakfast at Tiffany's. Following the evolution of Mancini's style, Caps traces the history of movie scoring in general: from the jazz-pop of the 1960s to the edgier, electro-funk harmonies of the Watergate 1970s, from the revisionist 1980s marked by New Age trends and new jazz chords to the frustrating New Hollywood of the 1990s when films were made by committees of lawyers rather than by artisans. Through insightful close readings of key films, Caps traces Mancini's collaborations with important directors and shows how he homed in on specific dramatic or comic aspects of each film to create musical effects through clever instrumentation, eloquent melodies, and the strong narrative qualities of his scores. Accessible and engaging, this fresh view of Mancini's oeuvre and influence will delight and inform fans of film and popular music.

A Novel

Best Russian Short Stories Edited by Thomas Seltzer. Conceive the joy of a lover of nature who, leaving the art galleries, wanders out among the trees and wild flowers and birds that the pictures of the galleries have sentimentalised. It is some such joy that the man who truly loves the noblest in letters feels when tasting for the first time the simple delights of Russian literature. French and English and German authors, too, occasionally, offer works of lofty, simple naturalness; but the very keynote to the whole of Russian literature is simplicity, naturalness, veraciousness.

The book is a case study of Putin's use of the tactics of divide and rule in relation to, particularly, the hard-line elements among his supporters. It illustrates Putin's methods of staying in power vis-à-vis groups that might put too much pressure on him, or who might even try to oust him. The project also suggests that Putin's survival tactics have brought Russia to a deeply corrupt, state-dominated form of authoritarianism, which lacks deep institutional roots and will probably lead in due course to some form of state collapse. This work will appeal to a wide audience including political scientists, academics, graduate students, and everyone who is interested in contemporary Russian politics.

Performative theatre is one of the most important trends of our time. It is emblematic of the work of many European theatrical artists in the early twenty-first century. Annamaria Cascetta does not propose a model or a historical overview, but rather strives to identify the salient features of a significant trend in the theatrical research and transformation of our time by analysing some crucial examples from outstanding works, of great international resonance. She draws on work by artists from different generations, all active between the late twentieth century and the first decades of the twenty-first, and in various European countries, performed in a number of European theatres in recent years. The aim is to apply a method of analysis in depth, bringing out the technical elements of contemporary "performative theatre" in the field, and above all to highlight the close links between it and the urgent and troubled issues and problems of history and society in the phase of cultural and anthropological transition we are experiencing.

David Harris's Trailblazing Journey to Rise Above Racial Barriers

Past Due

Slaves from the North

Daughter from the Dark

A 16-year-old girl who suddenly encounters death reconsiders her own life and searches for answers to the everlasting questions: "What are we living for? What is the sense of life? Who am I really? She finds answers from a most erudite man, the martial-arts master Sensei.

"Senelick's accomplishment is astounding."—Library Journal Anton Chekhov is a unique force in modern drama, his works cherished for their brilliant wit and insight into the human condition. In this stunning new translation of one of Chekhov's most popular and beloved plays, Laurence Senelick presents a fresh perspective on the master playwright and his groundbreaking dramas. He brings this timeless trial of art and love to life as memorable characters have clashing desires and lose balance in the shifting eruptions of society and a modernizing Russia. Supplementing the play is an account of Chekhov's life; a note on the translation; an introduction to the work; and variant lines, often removed due to government censorship, which illuminate the context in which they were written. This edition is the perfect guide to enriching our understanding of this great dramatist or to staging a production.

It was 1964 and Black men didn't fly commercial jets. But David Harris was about to change that ... After years of flying B-52 bombers in the United States Air Force, David Harris applied to be a pilot for commercial airliners, an opportunity no other African American before him---not even the famed Tuskegee Airmen---had ever been afforded. After receiving rejection after rejection, he finally signed on with American Airlines in 1964. But this success was just the beginning of another uphill battle for equal treatment. It was the height of the civil rights movement, a time of massive protests as people struggled to end racial segregation and give black people equal rights. As a light-skinned, light-eyed Black man, David was told by many people he could have "passed" for white. But he didn't do that. Instead, he made the bold decision to disclose his race to his employers and fellow airmen. He had experienced discrimination throughout his life, but this was different. He now carried the pride of his family and the hopes of future Black aviators on his

shoulders. This gripping narrative, perfect for middle grade readers and Black History Month, follows Harris's turbulent path to become the first African-American commercial airline pilot in the U.S., presented against the backdrop of racial tensions, protests, and the landmark civil rights legislation of the 1960s. It's the story of a man who fought social injustice the only way he knew how---by succeeding. Don't miss Michael H. Cottman's other middle grade fan favorite, *Shackles From the Deep*, which Booklist called "rich with intrigue and poignant, thought-provoking questions ... Part mystery, part history, part self-discovery, a stunning trip well worth taking." (Starred review)

Many consider 'Anna Karenina' to be the greatest novel of all time. A profound and exhaustive exploration of Russian life and the human condition. Tolstoy creates one of the most complex heroines in literature as he details Anna falling a conscious victim to her own passion. The dramatic scope of the story, the memorable characters, and the wealth of emotions that Tolstoy displays render 'Anna Karenina' much more than a novel, but rather an unmissable chronicle of the human condition that transcends both space and time. A perfect delve into Russian literature for those who enjoyed Christy Lefteri's 'The Beekeeper of Aleppo'. Leo Tolstoy (1828-1910) was a Russian author. His focus was novels, but he also wrote many short stories, alongside essays and plays in his later life. Deemed the master of realistic fiction, his novel 'Anna Karenina' (1875-77) is considered to be the greatest novel of all time. Some of his other notable works include 'War and Peace' (1865-69), 'The Kingdom of God is Within You' (1894), and his final novel 'Resurrection' (1899). His frank examinations of the world around him

are unmissable for fans of Fyodor Dostoyevsky, Anton Chekhov, and Virginia Woolf, who was openly inspired by Tolstoy's ideas about social class.
