"This Nutshell provides a comprehensive explanation of the basic principles and rules of American tort law as it exists today. This Nutshell has been used for over twenty-five years by law students, law graduates preparing for the bar exam, and others seeking an overview of tort topics. Coverage includes intentional torts and defenses, negligence and its defenses, strict liability, special liability rules for particular activities (such as landowners' liability, products liability, employers, employees, and contractors, and others), damages, the relation between tort and contract, immunities, survival and wrongful death, defamation, privacy, and misrepresentation. The introductory chapter provides background on the definitional dilemma; functions, goals and justifications of tort law; the evolution of tort law; and the roles of judges and juries. Citations to the Restatement of Torts are included. Discussions frequently include not only the rule but also its rationale for a clearer understanding and to aid memory."

The Privacy Nutshell briefly reviews the historical roots of privacy, and then examines each of these U.S. privacy statutes and regulations. Virtually all governments and businesses face privacy considerations as technology continues to evolve. Legal issues related to privacy are exploding on the U.S. legal scene. The EU has a long history of a strong regulatory privacy regime. The U. S., however, follows a sectoral approach to privacy, whereby Congress responds to each privacy "crisis" with a new statute and set of regulations. This sectoral approach has resulted in a unique series of privacy rules for different areas of society. The Privacy Nutshell is an excellent introductory guide to the legal privacy world.

The first edition of this book was written by Jeffrey Schox for his course "Patent Law and Strategy for Innovators and Entrepreneurs" at Stanford University. After an introduction to intellectual property, it explores the patent system, the requirements for a patent, infringement, and inventorship and ownership issues. The second edition included the America Invents Act ("AIA"), which transformed the U.S. patent system from a "first-to-invent" system to a "first-inventor-to-file" system. The third edition added a glossary and general edits. The fourth edition includes five additional cases: KSR (Supreme Court 2007), Stanford v. Roche (Supreme Court 2011), Prometheus (Supreme Court 2012), Nautilus (Supreme Court 2014), and Limelight (Fed. Cir. 2015).
