The text tests students' knowledge of how they should apply the information they have learned to real-life situations. While the exam review gauges their recollection of information, this text asks that information, this text asks that they apply that knowledge to situations that more closely reflect what they are likely to encounter as a salon employee, demonstrating that they know how to use the information they have learned. The questions are more complex than Exam Review questions, or attitudes. The student will have to take many factors into account to achieve the desired results, both from a technical and a communication perspective. Answers are included in the back of the book.

**These essays represent a summation of Piotr Steinkeller's decades-long thinking and writing about the history of third millennium BCE Babylonia and the ways in which it is reflected in ancient historical and literary sources and art, as well as of how these written and visual materials may be used by the modern historian to attain, if not a reliable record of histoire événementielle, a comprehensive picture of how the ancients understood their history. The book focuses on the history of early Babylonian kingship, as it evolved over a period from Late Uruk down to Old Babylonian times, and the impact of the concepts of kingship on contemporaneous history writing and visual art. Here comparisons are drawn between Babylonia and similar developments in ancient Egypt, China and Mesoamerica. Other issues treated is the intersection between history writing and the scholarly, lexical, and literary traditions in early Babylonia; and the question of how the modern historian should approach the study of ancient sources of "historical" nature. Such a broad and comprehensive overview is novel in Mesopotamian studies to date. As such, it should contribute to an improved and more nuanced understanding of early Babylonian history.**

"Having been born a freeman, and for more than thirty years enjoyed the blessings of liberty in a free State—and having at the end of that time been kidnapped and sold into Slavery, where I remained, until happily rescued in the month of January, 1853, after a bondage of twelve years—it has been suggested that an account of my life and fortunes would not be uninteresting to the public." - an excerpt
