faceted concerted intervention, which could be specific to just one set of political and physical socio-economic conditions. A framework to analyse the interaction between policy design and implementation can assist in improving both of these in various physical, economic and political situations. This book focuses on the interaction between policy making and strategic behaviour of policy makers, water users and other stakeholders, and how policy analysis and other analytical tools from the field of game theory and negotiation can improve policy design. The book presents analysis by high-level policy makers and policy analysts
