

Coxeman 15 Id Rather Fight Than Swish

In this compulsively readable and constantly surprising book, Peter Biskind, the author of the film classics "Easy Riders, Raging Bulls" and "Down and Dirty Pictures," writes the most intimate, revealing, and balanced biography ever of Hollywood legend Warren Beatty.

Will Rod Damon's formula for success as a counterspy work? Swinging with the sexy hippies isn't exactly his bag, but he has to groove along to stop the enemy from dropping LSD into the Potomac and blowing the government sky-high. Damon uses his unique ability-an insatiable virility-to trap his deadly prey. It's a desperate race against the clock as the Coxeman hunts for the hidden cache of LSD. But our boy doesn't lose his cool. His unique talents as a lover gets him into the tightest places-but will he live to tell the tale?

Women, Politics, and Power provides a clear and detailed introduction to women's political participation and representation across a wide range of countries and regions. Using broad statistical overviews and detailed case-study accounts, authors Pamela Paxton and Melanie Hughes document both historical trends and the contemporary state of women's political strength across diverse countries. In addition to describing worldwide themes, the book acknowledges differences among women through attention to intersectionality and heterogeneity among women. Dedicated chapters on six geographic regions highlight the distinct paths women may take to political power in different parts of the world. There is simply no other book that offers such a thorough and multidisciplinary synthesis of research on women's political power around the world.

Critical Survey of Mystery and Detective Fiction

From Ancient Maya to 2030

Jean, the bastard cousin of the future king of France, fought his way across the battlefields of 15th Century Europe. His was the world that burned Joan of Arc at the stake, where morals were forgotten and rape one of the spoils of victory. Handsome, fearless Jean le Bâtard held a lovely, scornful temptress in his heart and a bloody sword in his hand to wreak vengeance on the murderers of his father and the hated English conquerors.

Early morning steam rises from the pier pilings of the Subic Bay Naval Base as the shore patrol escorts a handcuffed Fatty Fitzgerald to the quarterdeck of his new ship, the U.S.S. Dermody. Instead of a uniform, Fatty is clothed in a soiled bed sheet. From that moment, life changes for the men aboard the Dermody, especially Larsen, a young sailor fresh from electronics school. The year is 1973, the dog days of the Vietnam War, and the Dermody is beginning her WESTPAC cruise. With no enemy to fight, the ship’s crew turns on itself in fits of racial tension, drug use and insubordination. Enforcing his will with his massive belly, Fatty Fitzgerald brings his spit and polish "rules" to the ship, intent on instilling the discipline of the "old navy" upon his electronics division. Larsen must decide whether to bend to Fatty’s indomitable will, or experience the revolution with Goat, a fellow technician and self-proclaimed hippie. Other influences are Sonny, the emotional leader of the ship’s blacks, and Nettles, the bible-thumping corpsman who attempts to save Larsen’s soul, but loses his own. To complicate things, Larsen falls for Juliet, the Chinese bargirl who steals his heart-for a price. This 157,000-word novel takes place at sea and in the exotic ports of the Orient. Larsen loses his money on the muddy streets of Olongapo, is chased back to his ship by a typhoon in Hong Kong, and endures the Shellback initiation at the equator. By the time the Dermody arrives in Singapore, Larsen has made a decision that will change his life forever. "Steve McQueen Would be Proud" is a coming-of-age story that explores a world that no longer exists, except in the memories of thousands of sailors who served in the Western Pacific during the Vietnam War.

Martin Harris returns home after a short absence to find that his wife doesn't know him and another man is living in his house under his name. The imposter shares all of Martin's memories, experiences, and knowledge down to the last detail. Is it conspiracy? Amnesia? An elaborate hoax or his own paranoid delusion? Part moral fable, part thriller, Unknown is a fast-paced tale of one man's desperate attempt to reclaim his existence-even at the cost of his own life. Watch a Video

A Global Perspective

The Coxeman knows how Lord Brice-Benington would answer that one. He was a big prig lusting for love but too up-tight to have a go at it. So Rod arranges a friendly little love-in to get a rise out of the old boy. Why was Rod so good to him? For the very best reasons: Lord Brice-Benington was the key to stop a potential menace to the Free World's security - a scandal like the Profumo affair that could unseat the British Government and give our enemies the secret plans to a weapon more deadly than the H-Bomb. Mod London, blackmail, drugs and some of the farthest-out sex ever - that's the background for The Coxeman's latest nonstop adventure.

The Red Chinese dare America's most prolific sex expert-Rod Damon-to test his fabled prowess against the flower of Chinese womanhood. Rod rises to the task and embarks on the Oriental love campaign only to find himself limp at his very first whistle stop! Never before have the limitless resources of the Coxeman been so carefully audited. Never before have Rod's fabled funds been so severely taxed-and never before has he found his assets so woefully overdrawn. To preserve his sanity Rod must discover the insidious industry secret that threatens the future of big mergers between the sexes-and he must find out before his own holdings are completely liquidated!

*Angie has been looking for Mr. Right, but all her dates have turned out to be Mr. Oh-so-wrong. Until she meets her new neighbor's boss-tall, dark, and deliciously dominant. Ian, owner of a private security company and an elite BDSM club, has had his eye on the pretty blonde since the day they were introduced. He convinces himself he should stay away from her until a secret he must keep to himself gives him a reason to get closer to her. When trouble knocks on Angie's front door, she puts her life in Ian's hands. His security team is determined to keep her alive at all costs, but when the smoke clears, will Angie walk out of Ian's life forever? ***The Trident Security series contains elements of the BDSM lifestyle, sensual romance, nail-biting suspense, and happily-ever-afters.*

Imagining Mars

Examines different cities from all over the world and looks at their physical, economic, social, and political structure, as well as their relationships to each other and where future urbanization might be headed.

The Coxeman finds himself in a new position as a leader of a team of young men and women from his League for Sexual Dynamics whose mission is to discover how and why masses of enemy agents are infiltrating America. Despite the team's brains, brawn and erotic skills, they fail. One by one they are killed off in the most violent and sadistic ways. Rod realizes that the enemy knows too much too soon. One of his team must be a double agent. But who? And how can Rod uncover the traitor before America is overrun by spies? Rod lays his plans accordingly-and discovers that rescuing victory from the jaws of defeat all depends on how you snatch it!

Dr. Nina Gould was expecting a break from her expeditions with the Order of the Black Sun but fate seems to have other plans when an offer from Egypt sends her and her long-time associate, David Purdue, on an expedition to unearh the long-lost tomb of Cleopatra. Unfortunately, Cleopatra was not laid to rest alone, having been buried with her lover Mark Antony--a famous Roman that catches the attention of the nefarious Third Triumvirate. The long forgotten feud between Egypt and Rome reignites as the race is on between Nina and the Third Triumvirate to see who can find the buried lovers first. Their battle for the tomb sees Nina and Purdue plunge into the Nile, scale the great pyramids, contend with sandstorms, and fight for their lives against opponents that will do anything to win.

Coxeman #02

After more than thirty years in New York City, Elaine Nichols returns home to Ireland to her invalid father and his geriatric Alsatian dog. As a pregnant teenager she was sent away to avoid scandal and possible legal consequences. Shuttling back and forth between two time zones--the 1970s and the present--and set in a Cheever-esque suburb of sadness and shame, The Lives of Women deals with the savagery of respectability, betrayal, and the desperation that ensues when a sixteen-year-old girl gets pregnant and feels she has no one to help her, apart from her friends. Hickey (The Cold Eye of Heaven, Last Train from Liguria) shows herself to be a storyteller of rare ability and a stylist of clarifying beauty.

They had reached the very limits of space. Nothing lay ahead except the evil planet, waiting to destroy. NOTES FROM CAPTAIN BRONET'S LOG: It looked like a lizard, or a snake with legs. It had a large flattish head, three eyes set in triangular formation, and a round food-intake in the centre of the "face." There was no chin. The head perched high on a mottled, leathery neck. The skin on its back was ribbed and corrugated. This creature was the first living thing we encountered on the sinister planet...

For centuries, the planet Mars has captivated astronomers and inspired writers of all genres. Whether imagined as the symbol of the bloody god of war, the cradle of an alien species, or a possible new home for human civilization, our closest planetary neighbor has played a central role in how we think about ourselves in the universe. From Galileo to Kim Stanley Robinson, Robert Crossley traces the history of our fascination with the red planet as it has evolved in literature both fictional and scientific. Crossley focuses specifically on the interplay between scientific discovery and literary invention, exploring how writers throughout the ages have tried to assimilate or resist new planetary knowledge. Covering texts from the 1600s to the present, from the obscure to the classic, Crossley shows how writing about Mars has reflected the desires and social controversies of each era. This astute and elegant study is perfect for science fiction fans and readers of popular science. Ebook Edition Note: The photo of Arthur C. Clarke photo on p. 209 has been redacted.

Atlas of Cities

This textbook provides a comprehensive assessment of women in American politics as participants, candidates, and office holders, as well as important public policies that affect women in their daily lives. Firmly grounded in current Political Science research, this textbook also providescutting-edge analysis of current topics such as gender, feminism, social media, and issues within the current gender justice movement, to name a few. in its coverage. This textbook will be timely and relevant to undergraduate students in its coverage of important topics, and will provide a strongoverview of important research in the field of women and politics for graduate students. In addition, the pedagogical features included throughout the textbook will help students develop critical thinking skills as well as provide resources to become lifelong learners on this topic.

Drawing on years of experience, two financial experts warn investors of the potential financial hazards of mutual funds, discussing the hidden costs of such funds, providing realistic insights into how such funds operate, and offering helpful advice on how to protect one's investments.

Until Rod Damon-The Coxeman-saw the bikini-clad beauties flying, he really believed only the birds and the bees did it. But there was something definitely unnatural about this trio of deadly dames who try to blow him apart. How did they get up there? Who were they working for? If the enemy controlled this invention it could prove to be America's downfall. To get his hands on their gadgets, Rod had to get to the girls. But what Rod didn't bargain for was that the girls were dying to get their hands on him...and they weren't planning to let him go until his heart petered out. Girding his loins in his inimitable manner, Rod plunges into the mystery with a big bang!

Good Peace, A

Stripped and lashed to the mast of a pleasure yacht. Rod is erotically harassed and teased by the bizarre techniques of the world's most depraved women. Will he die writhing in ecstasy? Will he go berserk? Can he escape his beautiful tormentors in time to halt a conspiracy to destroy the Western powers by an invasion of murdering "Men? erotic torment to his body continues ... Never has Rod taken such a licking ... Sex-which has been his whole life-threatens to be his death!

Rod Damon - The Coxeman - learns of an enemy plot to murder world leaders by planting a remote-controlled 'bug' in the brain of a number of agents. The 'bugs' are programmed to have the agents kill on deamand. Rod's job is to try to join the enemy force, HECATE, in order to destroy it. But first he must pass a series of tests, one of which is murder. But Hecate has outsmarted Rod. He finds that he cannot neutralize the assassination orders. More important, he finds that he has lost his power to make love - except on HECATE'S orders! He is now an enemy-controlled sex machine who threatens to screw up the whole Free World!

Challenges the conventional wisdom that violent horror films can only degrade women and incite violence.
