

treatment Updated edition uses current market statistics (market size, market participants, and uses of credit derivatives), covers the application of CDS technology to other asset classes (CMBX, ABX, etc.), and expands the treatment of individual instruments to cover index products, and more

An 1/8th of an inch doesn't sound like much of an edge but in the Olympic 100 meter sprint it's the difference between taking home the gold medal or the silver medal. Like the world of sports, successful option trading comes down to a few simple edges that can be the difference between making the lion's share of profits or just ending up the lion's lunch on Wall Street. As a 25-year veteran of the stock and options markets as well as a frequent contributor to Futures Magazine, Traders.com Advantage, MoneyMorning.com, and other financial publications, I know from experience that the leverage and risk control provided by option trading strategies is unmatched. The dirty secret that most option trading books won't tell you is that most options end up expiring worthless. Worse, even if you're right about the direction and time your option trade perfectly, a rise or fall in the option's volatility can still cause a loss. And, for those who are trying to build up to option trading in your spare time, it can be tough trying to watch the markets from open-to-close when you're juggling work, family, and other responsibilities. To succeed, you need to arm yourself with strategies that put the odds in your favor, not work against you. The good news is that options have the flexibility to craft easy option spread positions that profit from time decay, not just price movement. Even better, using these option strategies, you can enjoy more winning trades, greater consistency in performance, and a smoother equity curve by making time decay work for you instead of against you. In this book, you'll learn: \* How to pick the best trades and in what markets. \* What tools you're going to need. \* Detail how simple the strategies are and how to use them. \* Simple tools to help you make your trade decisions. \* Which moving averages help you determine the trend. \* What simple indicators to use. \* How to know which option to sell so that you make the most money. \* How to know which option to trade to lower our risk and increase winning percentages. \* What to do if things don't go as planned (this is going to be your backup plan to keep you from suffering unnecessary losses). \* Risk management strategies to help you grow your account while controlling your risk. \* And, alot more. Start today in learning how to make greater and more consistent returns by going to the orange buy button in the upper right-hand side of the page to download this book and get started now!

Learn why stock options - a versatile investment tool that has seen explosive growth over the past few years - belong in your portfolio. If you're already trading options, this book is also for you. You will gain a thorough understanding of option pricing, function and equivalents, which will help you trade more effectively. Adopt more advanced option strategies, like iron condors and double diagonals, to help protect your nest egg and earn healthy returns. Includes chapter quizzes and accompanying CD-ROM.

Stop settling for non-existent savings account rates and bank CDs which pay less than 1%... and start making your investments work for you again... If you're worried about the current market uncertainty, these 3 options strategies are your antidote to chaos. You can use them to generate consistent returns, no matter what happens to your stock. Making it the perfect income strategy, because you can use covered calls, credit spreads & iron condors to create instant cash, with premiums paid directly into your brokerage account. Even if you know nothing about options, this book will get you right up to speed. Here is just a fraction of what you'll discover: - The 6 criteria we use to select the best stocks to write covered calls on - The vital difference between covered and uncovered calls - Options Greeks explained in 10 minutes - 3 rules for adjusting your covered call - How to use covered calls to lower the purchase price of stocks you already own - The 8 criteria we use to select the best stocks to write credit spreads - The only 3 technical indicators you need to know for credit spreads. Ignore everything else, you only need these 3 beginner friendly metrics to get started - 10 effective ways to master the mental side of trading - The 5 best low-commission brokers for beginner options traders - Trade options like Warren Buffett? The world's greatest investor has used this specific strategy to make \$4.9 Billion over the past decade - 3 "non-negotiable" trading rules. Adhere to these and you will be ahead of 90% of amateur traders - Exactly what level the VIX should be at before you sell a spread. A backtest implementing this one tweak made the strategy 50% more profitable over 10 years worth of trades ...and much, much more! Plus, inside the book you get free access to a 9 part video course covering every aspect of profitable investing So even if you've never used options before, the book walks you through everything step by step. You'll find everything explained in plain English, free from technical jargon. Even if you get stuck, you can always send us an email (provided inside the book) or reach out in our private investing community on social media - we're always happy to help with any questions you might have. And remember... bank CD's will only pay you between 0% and 1%... the dividend yield on the S&P 500 is around 2%... and 5 to 10 year municipal bonds will only pay between 2% and 3%. But if you use what's inside this book, you could have the opportunity to earn so much more than that. And when you receive just a single premium from one of these trades (which is paid into your account instantly) it will cover the cost of this book 10x over. Credit Spread Options for Beginners 2021: Crash Course to Find Out how to Trade with the Credit Spread

White Space Is Not Your Enemy

The Secret

The Monthly Income Machine

Discover the facts, myth, history, and mystery of the spiritual art of Tarot-reading. Whether you want to learn to read the cards or deepen your Tarot interpretation skills, The Ultimate Guide to Tarot honors the deep heritage of Tarot, while guiding you through practical techniques. Tarot expert Liz Dean offers an overview to all of the important elements of each card from symbols, to links with astrology, kabbala and numerology. The Ultimate Guide to Tarot also includes all the classic tarot spreads â€œ Celtic Cross, Horseshoe, Star and Astrological Year Ahead â€œ plus, a mini-layout to try for each of the 22 major cards. Learn how to combine the three essential ingredients of a great tarot reading: knowing the meaning of the cards, how to lay them out, and trusting the intuitive messages the images often spark within us during a reading. This synthesis is the true magic of tarot. With the authority and confidence this book offers, The Ultimate Guide to Tarot will be the must-have companion for beginner readers and tarot aficionados alike.

Option credit spread strategy is one of the best ways to take advantage of the stock market's complex behavior. In this Credit Spread Options Book, you will discover: - The 8 criteria we use to select the best stocks to write credit spreads - The vital difference between naked and uncovered calls - 10 examples of stock you should never use to trade credit spreads. Amateurs do this all the time and you can lose as much as \$31,000 on a single trade. Learn why these stocks are so dangerous and what to do instead - How to automatically set up take profit levels so you only have to spend a couple of minutes each month managing your trades - Options Greeks explained in 10 minutes - Exactly what level the VIX should be at before you sell a spread. A backtest implementing this one tweak made the strategy 50% more profitable over 10 years worth of trades - A simple strategy for selecting the right strike price for your options - The only 3 technical indicators you need to know for credit spreads. Ignore everything else, you only need these 3 beginner-friendly metrics to get started - No strategy is risk-free, but on page 101 we show you how to set up your trades to avoid any big losses - How to find the best credit spreads stocks for free. Stock scanning services will charge you \$300 a year for this information, but our approach costs nothing and lists the exact same companies So, you would finally realize that options analysis and trading is not rocket science but rather an efficient way to successfully trade the dynamic stock market.

A Beginner's Guide to the Stock Market

This compilation includes: OPTIONS TRADING CRASH COURSE 101. Ready-to-use beginner's guide to gaining the confidence needed to start investing, making money and creating an alternative passive income with proven strategies. OPTIONS TRADING FOR BEGINNERS. A crash course with all the advanced business-tested strategies and all the components of analysis to trade, invest and make money like a professional broker. Do you want to step out of your comfort zone, invest, and create a passive income using financial leverage? Do you want to learn more advanced business-tested strategies to trade, invest, and make money like a pro? If yes, then you are in the right place. 2 manuscripts rolled up into 1 enables both new and more experienced traders to delve into the many aspects of the options market. From the outside, this universe looks mind-boggling, even dangerous. But the reality is that the procedure isn't that troublesome, yet you have to control your insatiability, be persistent when it comes to success, and learn to build a large variety of investments you can work on like a professional investor. Start from a central, lower chance system and always keep in mind the fundamental principle of "Don't lose money". You may single out a credit spread, secured calls or DITM options. Attempt the procedure in various economic situations. Paper trade until you 're acquainted with how it functions and where the threats may lie. Once you have gained the confidence, move forward and learn how a professional trader approaches the market by constructing and coordinating the deployment of different trading strategies, including the trading strategies and risk management techniques necessary for success. You will understand all the components of technical and price analysis to trade and how to apply these principles. This bundle covers the following topics: What trade is and how does the market works Basic of contracts and terminology Factors determining options prices Buying Vs. Selling Advanced contract specifications and option terminology Expiration profit and loss Theoretical pricing models Volatility Straddle Butterfly spread Comparing underlying instruments ...And much more This is incredibly significant. These methods have been proven to work and this bundle shows that understanding the market and being able to navigate it is not nearly so uncomfortable as it seems from a distance. And, best of all, it teaches mechanisms and methodology and shows how to apply the knowledge. Ready to get started? Click "Buy Now"!

Here's The Options Trading Course That Will Make You A Master Trader - Even If You Have Zero Experience! Unlike all those option trading books that have flooded your Amazon kindle homepage, this options trading crash course will help you learn how to make profit with options and offer you the technical analysis required to become an expert in stock trading. Starting today! Are you ready? Discover The Complete Trading Course: 3 Books In 1 Mega-Value Options Trading For Beginners Bundle! If you are reading this, then you are probably interested in getting a piece of the stock trading action, isn't that right? Well, now you don't have to waste your precious time watching all those tutorials with the so-called "trade market gurus" or spend endless hours searching the internet for a reliable source of high probability trading strategies. By the end of this game-changing option trading for beginners guide by Warren Ray Benjamin, you will be able to: Master The Art Of Options Trading With "How To Trade Options: A Beginner's Guide To Investing & Profit with Options Trading", which will help you: Learn the basics of options trading and investing Understand the purchase of trading stock options Find out the top reasons to trade options Discover advanced trading strategies Avoid common beginner mistakes when trading in the zone And That's Not All! This comprehensive option trading for beginners mega bundle includes 2 more trading books; "Day Trading Strategies" and "Swing Trading", which will allow you to gain an in-depth understanding of: Day trading basics 10 tips for successful day trading Swing trading basics Special tips for swing traders What Are You Waiting For? When it comes to day trading for beginners, swing trading with options, options investing in the US stock market, and options trading strategies that will help you build wealth, this all-in-one beginner's guide is exactly what you need!

The Monthly Income Machine is NOT just another book that simply defines option terms, strategies, and when you might use various speculative approaches. It reveals instead a specific, detailed list of exact entry and trade management rules for the conservative investor seeking reliable monthly income... up to 8-10% per MONTH Return on Investment (ROI). The technique it offers is suitable for regular accounts, retirement accounts and any investor wanting to consistently seek profit from the markets with minimum and controllable risk. When the reader finishes this readable step-by-step guide to risk-averse income investing, he will see why the principle it is built on is the way many pro's invest.

Get a handle on option spreads to hike profit and squash loss The Complete Book of Option Spreads and Combinations is the definitive educational resource and reference guide for using option spreads and other common sense option strategies. This useful guide shows readers how to select the right strategy for their market outlook and risk/reward comfort level by describing the inner workings of each strategy and how they are affected by underlying market movements, implied volatility, and time decay. Even more importantly, readers will understand where each strategy performs well, and the market conditions where each should be avoided. Once the proper strategy is selected, readers will learn how to identify the best options to use based on "moneyness" and time to expiration. The companion website features tools including an option pricing tool and implied volatility calculator to help traders implement these concepts effectively. There are many different types of spreads, and while less risky than other option strategies in general, they are more complex, with more variables to monitor. This guide serves as a handbook for the trader wanting to exploit options to the greatest possible benefit. Generate monthly income by selling covered strangles Use call spreads to recover from a losing stock position Protect an existing stock position using put diagonals Discover the best strategies for directional market plays Option spreads are a great tool for traders who would rather be an option seller but who need to limit their risk. The Complete Book of Option Spreads and Combinations identifies those strategies that benefit from option erosion but that limit risk. If managed properly, spreads can provide both novice and experienced investors with the potential for a large return while limiting risk. Electronic trading platforms and reduced brokerage commissions have increased option spread trading, which should occupy a spot in every savvy investor's toolkit. Comprehensive and authoritative, The Complete Book of Option Spreads and Combinations provides a valuable manual and lasting reference.

Are You Looking For Answers In Life? The tarot deck mysteriously appeared in the parlors and sitting rooms of wealthy Italian families in the late 1400s, inspiring immediate appeal as a charming, whimsical game of self-discovery, lyrical ideas, and philosophical musings.

Today, the tarot deck is just as mysterious as when it first became popular. Tarot Guide For Beginners makes this powerful tool easy to learn how to use, with clear, concise definitions and ways to incorporate the tarot into your daily life. With Tarot Guide For Beginners, you will be able to: Learn the differences between the major and minor arcana--the two different decks within the tarot deck itself. Understand the concept of the tarot as a way to learn about one's self through subtle storytelling. Understand the origins of the tarot. Learn easy-to-use tarot card spreads to answer life's most common questions. Tackle problems such as lack of motivation, self-control, emotional healing, fear, and confusion. Tarot Guide For Beginners makes it easy to use the tarot to live a better life. Use the tarot to help create blueprints and plans needed to be successful in areas such as finance, love, personal freedom, family, and health. Learn to incorporate the powerful tool of the tarot into daily life for manifestation, meditation, self-discovery, and more. With Tarot Guide For Beginners: A Simple-to-Follow Guide That Teaches You Psychic Tarot Reading, Simple Spreads, and the Meaning of the Cards, you will be able to change your life dramatically, and gain the skills and tools to achieve your financial dreams, strengthen your relationships, improve self-esteem and make better life choices. The key to a joyful, successful life already exists within the powerhouse of our subconscious mind. Using the tarot for clarity and self-reflection will unlock with that hidden key, causing breakthroughs and positive life changes that can lead to a better life. Tarot Guide For Beginners takes the confusion out of tarot card reading. You will access the ancient wisdom, arcane knowledge and powerful insights of the tarot, and utilize easy, personalized tarot spreads that focus on the areas of your life that you want to change.

Stop settling for non-existent savings account rates and bank CDs which pay less than 1%... and start making your investments work for you again... If you're worried about the current market uncertainty, these 3 options strategies are your antidote to chaos. You can use them to generate consistent returns, no matter what happens to your stock. Making it the perfect income strategy, because you can use covered calls, credit spreads & iron condors to create instant cash, with premiums paid directly into your brokerage account. Even if you know nothing about options, this book will get you right up to speed. Here is just a fraction of what you'll discover: - The 6 criteria we use to select the best stocks to write covered calls on - The vital difference between covered and uncovered calls - Options Greeks explained in 10 minutes - 3 rules for adjusting your covered call - How to use covered calls to lower the purchase price of stocks you already own - The 8 criteria we use to select the best stocks to write credit spreads - The only 3 technical indicators you need to know for credit spreads. Ignore everything else, you only need these 3 beginner friendly metrics to get started - 10 effective ways to master the mental side of trading - The 5 best low-commission brokers for beginner options traders - Trade options like Warren Buffett? The world's greatest investor has used this specific strategy to make \$4.9 Billion over the past decade - 3 "non-negotiable" trading rules. Adhere to these and you will be ahead of 90% of amateur traders - Exactly what level the VIX should be at before you sell a spread. A backtest implementing this one tweak made the strategy 50% more profitable over 10 years worth of trades ...and much, much more! Plus, inside the book you get free access to a 9 part video course covering every aspect of profitable investing So even if you've never used options before, the book walks you through everything step by step. You'll find everything explained in plain English, free from technical jargon. Even if you get stuck, you can always send us an email (provided inside the book) or reach out in our private investing community on social media - we're always happy to help with any questions you might have. And remember... bank CD's will only pay you between 0% and 1%... the dividend yield on the S&P 500 is around 2%... and 5 to 10 year municipal bonds will only pay between 2% and 3%. But if you use what's inside this book, you could have the opportunity to earn so much more than that. And when you receive just a single premium from one of these trades (which is paid into your account instantly) it will cover the cost of this book 10x over.

Ever since its original publication in Germany in 1938, Max Schweidler's Die Instandsetzung von Kupferstichen, Zeichnungen, Buchern usw. has been recognized as a seminal modern text on the conservation and restoration of works on paper. This volume, based on the authoritative revised German edition of 1950, makes Schweidler's work available in English for the first time, in a meticulously edited and annotated scholarly edition. An extensively illustrated appendix presents case studies of eleven Old Master prints that were treated using the techniques Schweidler discusses.

Would you like to step into the trading world to generate an extra income at the end of the month, even if you've never invested before and know nothing about it? If the answer is "YES", then keep reading... Many people tend to think that trading is something really hard to learn, that can generate a profit only for brokers or people with years and years of experience in the field, but this couldn't be further from reality. While it's true that trading requires technical knowledge and study, it's also true that there are many different ways to prepare yourself and learn everything about it. This collection of books will help you quick-start your trading activity, and it will offer you a wealth of useful, easy-to-apply information, tips, and proven techniques that any beginner can understand, in fact, by reading this bundle you'll learn: - What Options Trading Is, And Why It Is So Great For Beginners, to understand everything about this activity, from how the options trading process works, up to technical terms and strategies, so you can have huge knowledge on the subject - How To Avoid 5 Mistakes That Beginners Usually Make, so you can know them in order to avoid them, to never have to put your money at risk while options trading - Many Practical Stock Options Trading Techniques, so you can actually put in practice what you learn and maximize the ways in which you can generate profit from your activity - How To Get Started With Day Trading, to pursue your trading activity without exposing yourself to overnight risk, to never have to face unexpected moves while the market is closed and you're sleeping - Everything About Swing Trading, from the basics, to the winning tips for swing traders, you will have an in-depth knowledge of this way of trading, which it's perfect for people that work during market hours - What's The Right Mindset For Success, to learn how to observe the market from an unemotional perspective, to be able to keep profiting even in the long run - ... & Much More! You don't have to feel intimidated by investing in the stock market, because with this collection of books you will have the key to understand everything about it, and it will bring you from zero to actually generating profit, so... ..What are you waiting for? Scroll to the top of the page and click the "BUY NOW" button to start! Josh Swing has been working in the world of finance for many years and has accumulated an ever increasing amount of knowledge. He has always advised his friends (who have been pestering him with requests since the first day he found a job as a trader) on which strategy to follow, on how to move in the financial market even as a novice and how to implement their knowledge. Hence the idea of putting in writing the advice and methods developed over the years, in order to share with a wider circle the know-how that has made him a successful trader.

*If You Are Afraid to Leave Your Money in the Markets Right Now... This simple, repeatable iron condor options strategy could make you \$1,000s extra every month from home, with your laptop or smartphone. And you want a low-risk way to "repair" some of the financial damage caused by the coronavirus crash... There's a unique situation in the market you can take advantage of today. Smart traders have been using this strategy for years to make thousands of dollars per week - with much less risk than buying stocks... and no matter what the market is doing... Legendary investor Warren Buffett - one of the most conservative investors in the world - uses this strategy too. That's one reason why conservative financial journal Barron's calls it: "One of the greatest strategies in existence..." Now, we know what you might be thinking: "Options are risky, right?" The simple answer is no. You see, options are one of the most misunderstood investments in the world. Most folks buy options for risky speculations. You can lose your shirt that way, and fast... especially if you don't know what you're doing. But the way we do it, you sell options. And when you do that, you can make great gains without needing to guess which direction a stock is going. Gains like... SPY - \$360 from a single trade Disney - \$440 from a single trade Netflix - \$1,220 from a single trade Here is just a fraction of what you'll discover inside this book: The "instant cash" options strategy which immediately deposits money into your trading account- Page 33 10 effective ways to master the mental side of trading - Page 112 The 5 best low-commission brokers for beginner options traders - Page 88 Trade options like Warren Buffett? The world's greatest investor has used this specific strategy to make \$4.9 Billion over the past decade - Page 17 3 live Iron Condor trades with different adjustments strategies for each one. Many traders struggle with adjustments, so we show you different "in the trenches" examples on real trades - Page 81 How to avoid overadjusting your trades. An extensive backtest reveals the surprisingly simple strategy which you can use to automate your profits - Page 73 A simple formula for accurately calculating your potential ROI from each trade - Page 70 The binary trap: Why you should never use an iron condor to trade earnings - Page 55 3 "non-negotiable" trading rules. Adhere to these and you will be ahead of 90% of amateur traders - Page 105 Should you trade SPY or SPX? The surprising answer is on Page 60 We tested 71,417 trades and found the best VIX level to enter your trades at - Page 54 ...plus \$135 worth of free bonus material inside! You don't need to have any experience to profit. Nor do you need to monitor the markets 24/7. This is the perfect strategy to use in your spare time. Because you can make extra income with just 1-2 trades per month. And contrary to what many folks believe, becoming a "master" doesn't have to take years and thousands of hours of study. If you have a small account, this is one of the few ways you can turn it into a BIG account, with large, consistent income streams. Once you master the fundamental secrets of the options market, someday soon you could treat your family to a vacation... upgrade the house... or buy that sports car you've had your eye on. Even if you've never traded options before, everything inside is written in plain English, with clear definitions for everything. With real examples for all the concepts inside. So to get a head start on making consistent profits in the options market today, scroll up and click "add to cart"*

*White Space Is Not Your Enemy is a practical graphic design and layout guide that introduces concepts and practices necessary for producing effective visual communication across a variety of formats—from web to print. Sections on Gestalt theory, color theory, and WET layout are expanded to offer more in-depth content on those topics. This new edition features new covering current trends in web design—Mobile-first, UI/UX design, and web typography—and how they affect a designer's approach to a project. The entire book will receive an update using new examples and images that show a more diverse set of graphics that go beyond print and web and focus on tablet, mobile and advertising designs.*

*Stop settling for ever-decreasing dividend yields and bank CDs which pay less than 1%... and start making your investments work for you again... If you're worried about the current market uncertainty, covered calls are your antidote to chaos. You can use them to generate safe returns, no matter what happens to your stock. It's like generating rental income on stocks you already own, even if those stocks don't already pay dividends. Which is why with smart covered call writing, you can double your monthly cash flow. Making it the perfect income strategy, because you can use covered calls to create instant cash, with premiums paid directly into your brokerage account. So you can use this smart, safe strategy to generate "Synthetic Dividends" on stocks that you already own. In fact... you can make as much as 40% extra per year by writing covered calls... compared to if you just bought and held the same stock. Perfect for retirement investors. Covered calls aren't risky... when used correctly they actually decrease your risk... and even the most conservative investors can benefit from adding covered call writing to their investment strategy. Even if you know nothing about options, this book will get you right up to speed. Here is just a fraction of what you'll discover: The 6 criteria we use to select the best stocks to write covered calls on - Page 96 The vital difference between covered and uncovered calls - Page 55 Why you shouldn't write covered calls in an IRA. Many investors make this mistake, but learn why using a regular account will actually save on your tax bill - Page 54 How to use covered calls to lower the purchase price of stocks you already own 3 rules for adjusting your covered call - Page 129 A simple strategy for selecting the right strike price - Page 160 How to find the best covered call stocks for free. Stock scanning services will charge you \$99/month for this information, but our approach costs nothing and lists the exact same companies - Page 100 How to get started with covered calls if you only have a small account. This is perfect if you want the benefits but don't have \$5,000 or more to invest - Page 133 Plus, inside the book you get free access to a 7 part video course covering all aspects of profitable investing So even if you've never used options before, the book walks you through everything step by step. You'll find everything explained in plain English, free from technical jargon. Even if you get stuck, you can always send us an email (provided inside the book) or reach out in our private investing community on social media - we're always happy to help with any questions you might have. And remember... bank CD's will only pay you between 0% and 1%... the dividend yield on the S&P 500 is around 2%... and 5 to 10 year municipal bonds will only pay between 2% and 3%. But if you use what's inside this book, you could have the opportunity to get much more than that. For instance... if you put together a portfolio of three of the best covered call stocks... you could see an average yield of 15% per year... just from your covered call income. That's 2 to 3 times more than you'll see anywhere else. All this from your regular brokerage account, just as easily as you can buy stock. Because if you know how to buy stocks, you can use covered calls. It's that simple. And when you receive just a single premium from one of these covered calls (which is paid into your account instantly) it covers the cost of this book 10x over. To get your copy right now, just scroll up and click "add to cart"*

If you feel like you've "missed the boat" on Bitcoin. Think again... Because while Bitcoin continues to hit all time highs, this book will show you it's not too late to invest in "Digital Gold" What was once a fringe currency only used by a dark corner of the web... is now the fastest growing financial asset on Earth. And this is just the beginning... You see, we are still in just the 2nd inning of Bitcoin as a financial entity. So while no financial vehicle is making people rich as quickly as Bitcoin... Less than 10% of Americans and 2% of the worldwide population owns it. But now, the major players are taking an interest. Like Billionaire Hedge Fund owner Paul Tudor Jones Internet pioneer Tim Draper, who was an early investor in companies like Hotmail, Tesla and Robinhood. And CEO of Social Capital, Chamath Palihapitiya, who predicts Bitcoin will be worth \$1 million within the next 15 years. So even if you've been unconvinced thus far, this book will give you the straight facts on Bitcoin as a financial asset... without any of the hype or noise. Here is just a fraction of what you will discover: - The surprisingly small amount of Bitcoin you need to join the top 1% of Bitcoin owners worldwide - Page 15 - How a complete technophobe can buy Bitcoin is less than 5 minutes - Page 65 - 5 Billionaires who believe Bitcoin has a part to play in the world economy - Page 16 - Is Bitcoin a legitimate currency? Answered on page 32 - A simple way to automate your Bitcoin purchases so you can take advantage of dollar cost averaging - Page 66 - The exact percentage of Bitcoin transactions that are used for illegal activities. Anti-Bitcoiners get this wrong all the time - Page 51 - Why you should never use Robinhood to buy Bitcoin - Page 70 - The downside of purchasing Bitcoin funds like GBTC - Page 71 - How much of your portfolio should you dedicate to Bitcoin? Our "one size fits all" solution is on page 102 Plus free video tutorials for safely buying and storing Bitcoin on Page 7 This is not a 600 page theoretical book which you need a math degree to understand. Written in plain English and free from repetitive technical jargon. Every single piece of financial and technical terminology is clearly defined inside. You'll find easy-to-follow advice on how to buy and store Bitcoin yourself... without having to pay expensive fees to middlemen. For everyone who feels frustrated after watching Bitcoin soar in price... this is your chance to get in while the going is good. And not feel like you missed the boat... So even if you're never read a single finance or investing book in your life, you will immediately understand how to become a successful long-term investor. An approachable guide to sustainable options trading, minimal luck needed. Traders who are successful long-term do not rely on luck, but rather their ability to adapt, strategize, and utilize available tools and information. Modern markets are becoming increasingly accessible to the average consumer, and the emergence of retail options trading is opening a world of opportunities for the individual investor. Options are highly versatile and complex financial instruments that were exclusive to industry professionals until recently. So where should beginners start? The Unlucky Investor 's Guide to Options Trading breaks down the science of options trading to suit interested traders from any background. Using statistics and historical options data, readers will develop an intuitive understanding of the potential risks and rewards of options contracts. From the basics of options trading to strategy construction and portfolio management, The Unlucky Investor 's Guide to Options Trading guides readers through the world of options and teaches the crucial risk management techniques for sustainable investing.
