Provides readers with the life and times of this dedicated lawyer and public speaker who worked to support the federal government and the power of the Union during difficult periods of disharmony and dissent among the states.

Excerpt from Eulogy, Daniel Webster New Jersey, with her sisters of the Confederacy, stricken in Provi dence, mourns at the grave of daniel webster. As one of the old thirteen, - ever dear to the departed states man, - Ncw Jersey claims to participate in his obsequies. The achieve merits on our soil were often the theme of his glowing praise. Trenton, and Princeton, and Monmouth, were fields, whose memories of renown were cherished by him as dearly as those of Lexington, and Concord, and Bunker Hill. Our own honoured Richard Stockton, too, was his intimate, personal friend; and the equally distinguished son, New Jer sey's high-souled Senator in Congress and Frelinghuysen, gracing lite rature with the laurels won in the halls of legislation. Nor can it be forgotten that the last cause at the argued by the giant lawyer statesman, was in our own Capital, on the banks of the Delaware, in the presence of our great men, and in sight of the records, the statutes, and the heraldry of new jersey. *The theme I am to speak upon is one that lies very near my heart, this too both as an American and as a man*
*3 and I propose to utter my thoughts with considerable plainness and freedom. For, in truth, I have no popularity to lose, and do not care to make any; that being a thing I have no use for, nor should known what to do with, if I had it. As Americans, we have a right to be proud, we ought to be proud, it will do us good to be proud, of Daniel Webster. He is the one imperial intellect of our nation altogether the greatest and most catholic mind this country has produced. In fact, he is not so properly one man as a multitude of men, rather say, a multitudinous man*
*5 the varied powers, that are commonly dispersed among other men, being massed and consolidated in him. He stands second to none of our lawyers*
*3 and his arguments in the Supreme Court of the United States probably did more than those of any other one man, except Chief Justice Marshall, towards establishing the principles and the practice of our national Constitution. *Excerpt from Daniel Webster, the Orator: An Address Delivered Before the Brooklyn Institute of Arts and Sciences and the New England Society of Brooklyn*
*He was a lawyer, and he was also a statesman. He had studied the constitution that he might defend it. He had examined its principles that he might maintain them. More than all men, or at least as much as any man, he was attached to the general government and to the union of the states. His feelings and opinions all ran in that direction. A question of constitutional law was, of all subjects, that one which was best suited to his talents and learning. Aloof from technicalities and unfettered by artificial rules, such a question gave opportunity for that deep and clear analysis, that mighty grasp of principle, which so much distinguished his higher efforts. His very statement was argument. His inference seemed demonstration. The earnestness of his own convie tion wrought conviction in others. One was convinced and believed and assented because it was gratifying, delightful, to think, to feel and believe, if I union with an intellect of such evident superiority. It is Webster himself, the orator, lawyer, and statesman, who is here painted by his own hand in a portrait for which Dexter sat, but of which none but Webster could fill the outlines. We are to look at Webster the orator. It is the most attractive if not the most important character in which he appeared. Webster's greatest power was the power ofspeech. As an orator he won his highest triumphs, and as an orator he will be longest remembered. His pre-eminence as a lawyer and statesman was largely due to his surpassing powers of clear, eloquent, and convincing statement. There were other lawyers of his time who had more learning of the books, and a few who were quite' his equals in comprehensive grasp of legal principles. There were statesmen who had more qualities of leadership, more organizing and constructive power, more depth and permanence of conviction. As a consummate master of speech, Webster is without a rival in our history, if he has a superior in the history of eloquence. Halfa century has now passed since Webster's death, and threescore and ten years since he reached the summit of his powers. The atmosphere is cleared of the incense of praise and the mists of detraction which rose about him in his own time. His contemporaries have disappeared, and the mem ory of the greatest of them is fading. Historic events have intervened, of the utmost importance, almost transforming the character of the government. Another generation of states men has appeared, done its work, and passed away. That Webster is still among the first in interest of all our great characters is striking evidence of the permanent hold which he took upon his countrymen. The great political changes which have befallen since his day, so far from obliterating his memory, have helped to preserve it; for in every one of them his influence was felt and his authority invoked, as it is in voked to - day, even by those who would pervert it. The new procession of historic figures which has passed across the national stage has hardly crowded him from the central place. The reason is not far to seek. Webster stamped himself in delibly upon the American mind. To an extent of which we are not always conscious, he wove himself into the very fabric of the government. His word directed the course of the public thought on national topics. His great speeches became part of our history, our literature, our constitutional law, almost of our national existence. *From New York Times bestselling historian H. W. Brands comes the riveting story of how, in nineteenth-century America, a new set of political giants battled to complete the unfinished work of the Founding Fathers and decide the future of our democracy*
*In the early 1800s, three young men strode onto the national stage, elected to Congress at a moment when the Founding Fathers were beginning to retire to their farms. Daniel Webster of Massachusetts, a champion orator known for his eloquence, spoke for the North and its business class. Henry Clay of Kentucky, as dashing as he was ambitious, embodied the hopes of the rising West. South Carolina's John Calhoun, with piercing eyes and an even more piercing intellect, defended the South and slavery. Together these heirs of Washington, Jefferson and Adams took the country to war, battled one another for the presidency and set themselves the task of finishing the work the Founders had left undone. Their rise was marked by dramatic duels, fierce debates, scandal and political betrayal. Yet each in his own way sought to remedy the two glaring flaws in the Constitution- its refusal to specify where authority ultimately rested, with the states or the nation, and its unwillingness to address the essential incompatibility of republicanism and slavery. They wrestled with these issues for four decades, arguing bitterly and hammering out political compromises that held the Union together, but only just. Then, in 1850, when California moved to join the Union as a free state, "the immortal trio" had one last chance to save the country from the real risk of civil war. But, by that point, they had never been further apart. Thrillingly and authoritatively, H. W. Brands narrates an epic American rivalry and the little-known drama of the dangerous early years of our democracy.*

*The Vice-President. The resolutions submitted by the Senator from Kentucky were made the special order of the day at 12 o'clock. The Senator from Wisconsin (Mr. Walker) has the floor. Mr. Walker. Mr. President, this vast audience has not assembled to hear me; and there is but one man, in my opinion, who can assemble such an audience. They expect to hear him, and I feel it to be my duty, as it is my pleasure, to give the floor, therefore, to the Senator from Massachusetts. I understand it is immaterial to him upon which of these questions he speaks, and therefore I will not move to postpone the special order. Mr. Webster. I beg to express my obligations to my friend from Wisconsin (Mr. Walker), as well as to my friend from New York (Mr. Seward), for their courtesy in allowing me to address the Senate this morning. Mr. President, I wish to speak to-day, not as a Massachusetts man, nor as a Northern man, but as an American, and a member of the Senate of the United States. *Excerpt from The Works of Daniel Webster, Vol. 3*
*In consequence of the separation of what is now the State of Maine from Massachusetts, in the year 1820, it became necessary to make some change in the constitution of the Commonwealth. The opportunity was thought a favorable one for a general revision of that instrument, which had undergone no amendment since its adoption in 1780. Delegates were accordingly chosen by the people to meet in convention for this purpose, the several towns and districts in the Commonwealth (there were then no cities) being allowed as many delegates as they were respectively entitled to send members to the House of Representatives of the State. Mr. Webster was among the delegates chosen by the town of Boston, and took an active and distinguished part in the business of the convention, both in committee-room and in debate. As soon as the body was organized by the choice of its officers, the chief provisions of the existing constitution were referred to select committees, instructed to consider and report whether any, and if any, what amendments were desirable to be made in them. The subject of the official oaths and subscriptions required by the sixth chapter of the second part of the constitution was referred to a committee for this purpose, of which Mr. Webster was chairman. A report was made by this committee, recommending that, in lieu of all oaths and subscriptions then required, a simple oath of allegiance to the Commonwealth, together with the oath of office, should be taken by all persons chosen or appointed to office. The most important feature of these proposed changes was, that a profession of belief in the Christian religion was no longer required as a qualification for office. These selected paragraphs distill the contents and give you a quick look inside Daniel Webster for Young Americans - Comprising the greatest speeches of the defender of the Constitution: Look inside the book: As it is not a vain and false, but an exalted and religious imagination which leads us to raise our thoughts from the orb which, amidst this universe of worlds, the Creator has given us to inhabit, and to send them with something of the feeling which nature prompts, and teaches to be proper among children of the same Eternal Parent, to the contemplation of the myriads of fellow-beings with which his goodness has peopled the infinite of space; so neither is it false or vain to consider ourselves as interested and connected with our whole race, through all time; allied to our ancestors; allied to our posterity; closely compacted on all sides with others; ourselves being but links in the great chain of being, which begins with the origin of our race, runs onward through its successive generations, binding together the past, the present, and the future, and terminating at last, with the consummation of all things earthly, at the throne of God. ..."If God prosper us, Pg 10" might have been the more appropriate language of our fathers, when they landed upon this Rock, "if God prosper us, we shall here begin a work which shall last for ages; we shall plant here a new society, in the principles of the fullest liberty and the purest religion; we shall subdue this wilderness which is before us; we shall fill this region of the great continent, which stretches almost from pole to pole, with civilization and Christianity; the temples of the true God shall rise where now ascends the smoke of idolatrous sacrifice; fields and gardens, the flowers of summer, and the waving and golden harvest of autumn, shall spread over a thousand hills and stretch along a thousand valleys, never yet, since the creation, reclaimed to the use of civilized man. About Daniel Webster, the Author: On January 27, Webster gave his Second Reply to Hayne, in which Webster openly attacked Nullification, negatively contrasted South Carolina's response to the tariff with that of his native New England's response to the Embargo of 1807, rebutted Hayne's personal attacks against him, and famously concluded in defiance of nullification (which was later embodied in John C. ...At the same time however, Webster, like Clay, opposed the economic policies of Andrew Jackson, the most famous of those being Jackson's campaign against the Second Bank of the United States (1816-1841) in 1832, an institution that held Webster on retainer as legal counsel and of whose Boston Branch he was the director.*

Having promised his soul to the Devil in exchange for good fortune, Jabez Stone asks the talented lawyer Daniel Webster to get him out of the bargain. Through a versatile array of masterly short stories, Benet explored such subjects as American society, history, politics, and the supernatural. Among the two dozen stories selected for this volume are the haunting title story and the wrenching "A Death in the Country." A final section representing Bent's nonfiction collects several of his penetrating essays on writing and education, including "Most Unforgettable Character I've Known." Sensitively selected and thoughtfully arranged, this vibrant anthology will reintroduce readers to an American master.

Excerpt from Life of Daniel Webster: The Statesman and the Patriot, Containing Numerous Anecdotes This Life of Daniel Webster is written for the young; and for that reason, as is elsewhere said, the events of his boyhood and college-days are dwelt upon with more minuteness than those of his after life. For a man occupying the high place which he held in the eye of the nation, his private charac ter was little known. He had not the winning address which draws the great multitude. People did not call him by the familiar terms with which popular idols are designated. He was not covet ous of parade and personal attentions. He never courted the fashion, or appealed to the prejudice. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Excerpt from Letter to the Hon. Daniel Webster, on the Compromises of the Constitution Sir; - I have read, with earnest attention, both your speech on the subject of slavery, delivered in the Senate of the United States on the 7th of March last, and your letter of the 15th of May to the citizens of Newburyport. I am not an "Abolitionist," in the sectarian nor sectional sense of the term. That is: I have never belonged to the "Abolition party," the "Liberty party," nor the "Free Soil party;" but in my political principles, associations and actions, have always been thoroughly and steadfastly a Whig. For more than thirty years I have seriously contemplated slavery as a condition involving human rights and human sensibilities, affections and sufferings; and, for nearly as long a time, I have contemplated the slavery of these United States, in its relation to the political and civil institutions of our country. With the most fervent of the Abolitionists, I have desired that slavery might cease to exist on earth. With the most staunch adherent to constitutional pro-visions and guarantees, I have seen the difficulty of removing it by political action. At the same time, I have seen, with the vision of philosophical certainty, that the human soul, in its specific unity, identity and permanency, was gradually progressing in the development of its intellectual and moral attributes, and expanding itself to the comprehension of clearer, broader, and more accurately defined scientific truth concerning the nature, relations, and interests of man; and could not, by any possible conservative coercion, be confined in those forms and institutions which were the embodiments of the ideas and sentiments of an earlier state. I have seen, with anxiety and awe, that the slavery of our country could not remain as it was; that a change in the condition of the slave, in the relation between the master and the slave, and in the relation between the domestic institution of slavery and the political institution which constitutes our national unity, must inevitably take place; that no power of earth could prevent it; that no power of heaven would. I have seen that the only modes in which the inevitable change can take place, are: first, voluntary emancipation on the part of the slaveholders; second, political action in the exercise of assumed, not to say usurped, legislative authority; third, political disunion and civil war; and fourth, servile insurrection and war. **Excerpt from A Wise Man Is Strong: A Sermon on the Death of Daniel Webster, Delivered in Trinity Church, Washington D. C., November 7, 1852** The wise and foolish, in the language of Solo mon, sometimes mean merely the good and the evil. Sometimes Solomon uses the word wise to designate exclusively intellectual sagacity and power. At other times, as in the text, he includes both meanings in the word. Very frequently he asserts that holiness - the wisdom Of the heart increases the Sagacity, discretion, and power of the understanding - the wisdom of the mind. When these two wisdoms are combined, then, in the highest and best sense of the word, the man is wise. He who in this sense is wise must be strong, and all the knowledge that he gains must increase his strength. **Excerpt from A Discourse on the Life and Character of Daniel Webster** Yet while I recognise the duty upon which I am entering, I shrink from it. I have no hope Of convey ing to your minds my own sense Of the magnitude Of our loss. Still less can I expect to elude the strictures of those who entertain what may, perhaps, be styled the popular view of the legitimate sphere Of the pulpit. But I am pressed with the feeling that I must, as a Pastor, in some way improve this dispensation thatwithout attempting a formal eulogy on Mr. \webster, which would be in the highest degree presumptuous, I must here record my sense of the invaluable services he has rendered to our common country and our common Christianity, and so endeavour to turn the emotions of sorrow which fill our hearts, to some use ful account. From the New York Times bestselling author of You Should Have Known and Admission, a twisty new novel about a college president, a baffling student protest, and some of the most hot-button issues on today's college campuses. Naomi Roth is the first female president of Webster College, a once conservative school now known for producing fired-up, progressive graduates. So Naomi isn't surprised or unduly alarmed when Webster students begin the fall semester with an outdoor encampment around "The Stump"-a traditional campus gathering place for generations of student activists-to protest a popular professor's denial of tenure. A former student radical herself, Naomi admires the protestors' passion, especially when her own daughter, Hannah, joins their ranks. Then Omar Khayal, a charismatic Palestinian student with a devastating personal history, emerges as the group's leader, and the demonstration begins to consume Naomi's life, destabilizing Webster College from the inside out. As the crisis slips beyond her control, Naomi must take increasingly desperate measures to protect her friends, colleagues, and family from an unknowable adversary. Touching on some of the most topical and controversial concerns at the heart of our society, this riveting novel examines the fragility that lies behind who we think we are-and what we think we believe.
