"Having been born a freeman, and for more than thirty years enjoyed the blessings of liberty in a free State—and having at the end of that time been kidnapped and sold into Slavery, where I remained, until happily rescued in the month of January, 1853, after a bondage of twelve years—it has been suggested that an account of my life and fortunes would not be uninteresting to the public." -an excerpt

Each volume in the 7-volume series The World of Science Education reviews research in a key region of the world. These regions include North America, South and Latin America, Asia, Australia and New Zealand, Europe, Arab States, and Sub-Saharan Africa. The focus of this Handbook is on science education in Europe. In producing this volume the editors have invited a range of authors to describe their research in the context of developments in the continent and further afield. In reading this book you are invited to consider the historical, social and political context of science education in Europe. The impact of the European Union on research and development over many years. A growing number of multi-national projects have contributed to the establishment of a community of researchers increasingly accepting of methodological diversity. That is not to say that Europe is moving towards homogeneity, as this volume clearly shows.

INSTANT NEW YORK TIMES BESTSELLER The #1 New York Times bestselling author of It Ends with Us—whose writing is “emotionally wrenching and utterly original” (Sara Shepard, New York Times bestselling author of the Pretty Little Liars series)—delivers a tour de force novel about a troubled marriage and the one old forgotten promise that might be able to save it. Quinn and Graham’s perfect love is threatened by their imperfect marriage. The memories, mistakes, and secrets that they have built up over the years are now tearing them apart. The one thing that holds them together is a promise made in the past. This is a heartbreaking page-turner that asks: Can a resounding love with a perfect beginning survive a lifetime between two imperfect people?

1. INTRODUCTION This book describes a new interdisciplinary theory for explaining cultural change. In contrast to traditional evolutionist theories, the present theory stresses the fact that a culture can evolve in different directions depending on its life conditions. Cultural selection theory explains why certain cultures or cultural elements spread, possibly at the expense of other cultures or cultural elements which then disappear. Cultural elements include social structure, traditions, religion, rituals, art, norms, morals, ideologies, ideas, inventions, knowledge, technology, etc. This theory is inspired by Charles Darwin's idea of natural selection, because cultural elements are seen as analogous to genes in the sense that they may be reproduced from generation to generation and they may undergo change. A culture may evolve because certain cultural elements are more likely to spread and be reproduced than others, analogously to a species evolving because individuals possessing certain traits are more fit than others to reproduce and transmit these traits to their offspring.

Music and sport are both highly significant cultural forms, yet the substantial and longstanding connections between the two have largely been overlooked. Sporting Sounds addresses this oversight in an intriguing and innovative collection of essays. With contributions from leading international psychologists, sociologists, historians, musicologists and specialists in sports and cultural studies, the book illuminates our understanding of the vital part music has played in the performance, reception and commodification of sport. It explores a fascinating range of topics and case studies, including: The use of music to enhance sporting performance Professional applications of music in sport Sporting anthems as historical commemorations Music at the Olympics Supporter rock music in Swedish sport Caribbean cricket and calypso music; From local fan cultures to international mega-events, music and sport are inextricably entwined. Sporting Sounds is a stimulating and illuminating read for anybody with an interest in either of these cultural forms.

This book studies insubordination using Germanic data. On a descriptive level, it distinguishes a wide number of (previously undescribed) types of complement and conditional insubordination in English, German, Dutch, Swedish, Danish and Icelandic. On a theoretical level, these data are used to investigate the boundaries of insubordination, and the degree to which insubordination is a constructionally and semantically unified phenomenon.

This text on contemporary issues in management accounting research and practice explains advances in theoretical areas which have a direct impact on management accounting practice (eg decision-making, management control, micro-economics, organization theory and accounting history). The contributors examine changes in practice brought about by new tools and techniques such as forecasting, model building, microcomputers, strategic management accounting and performance appraisal.

The mega-bestselling novel that made Jeffrey Archer a star, Kane and Abel, ‘a sprawling blockbuster!’—Publishers Weekly TWO STRANGERS BORN WORLDS APART, ONE DESTINY THAT WOULD DEFINE THEM BOTH... William Lowell Kane and Abel Rosnovski, one the son of a Boston millionaire, the other a penniless Polish immigrant—born on the same day near the turn of the century on opposite sides of the world—are brought together by fate and the quest of a dream. Two men—ambitious, powerful, ruthless—are locked in a relentless struggle to build an empire fueled by their all-consuming hatred. Over sixty years and three generations, through war, marriage, fortune, and disaster, Kane and Abel battle for the success and triumph that only one man can have. ‘Archer is a master entertainer.’—Time

NEW YORK TIMES BESTSELLER • Joyce’s beguiling debut is [a] modest-seeming story of ordinary English lives that enthralis and moves you as it unfolds.—People (four stars) IN DEVELOPMENT AS A MAJOR MOTION PICTURE • LONGLISTED FOR THE MAN BOOKER PRIZE • NAMED ONE OF THE BEST BOOKS OF THE YEAR BY THE WASHINGTON POST Meet Harold Fry, recently retired. He lives in a small English village with his wife, Maureen, who seems irritated by almost everything he does. Little differentiates one day from the next. Then one morning a letter arrives, addressed to Harold in a shaky scrawl, from a woman he hasn’t heard from in twenty years. Queenie Hennessy is in hospice and is writing to say goodbye. But before Harold mails off a quick reply, a chance encounter convinces him that he absolutely must deliver his message to Queenie in person. In his yachting shoes and light coat, Harold Fry embarks on an urgent quest. Determined to walk six hundred miles to the hospice, Harold believes that as long as he walks, Queenie will live. A novel of charm, humor, and profound insight into the thoughts and feelings we all bury deep within our hearts, The Unlikely Pilgrimage of Harold Fry introduces Rachel Joyce as a wise—and utterly irresistible—storyteller.

The devilish has long been integral to myths, legends, and folklore, firmly located in the relationships between good and evil, and selves and others. But how are ideas of evil constructed in current times and framed by contemporary social discourses? Modern Folk Devils builds on and works with Stanley Cohen’s theory on folk devils and moral panics to discuss the constructions of evil. The authors present an array of case-studies that illustrate how the notion of folk devils nowadays comes into play and animates ideas of otherness and evil throughout the world. Examining current fears and perceived threats, this volume investigates and analyzes how and why these devils are constructed. The chapters discuss how the devilish may take on many different forms: sometimes they exist only as a potential threat, other times they are a single individual or phenomenon or a visible group, such as refugees, technocrats, Roma, hipsters, LGBT groups, and rightwing politicians. Folk devils themselves are also given a voice to offer an essential complementary perspective on how panics become exaggerated, facts distorted, and problems acutely angled. Bringing together researchers from anthropology, sociology, political studies, ethnology, and criminology, the contributions examine cases from across the world spanning from Europe to Asia and Oceania.

This book brings together a range of scholars from 10 different countries to address the contemporary state of play in national standard language education - i.e. the L1 subjects. It seeks to understand the field from within a comparative-historical and transnational frame. Four thematic threads are woven through the volume: educationalisation; globalisation; pluriculturalism; and technologization. The chapters range over various aspects of L1 as a school subject: literature, language and literacy; reading and writing; media and digital technology; the dialogue between curriculum inquiry and Didaktik studies; the continuing relevance of Bildung; the significance of history and nation; and new challenges of culture and environment in the face of climate change. The book concludes with a reflection on the prospects for L1 education today and tomorrow, in a now thoroughly globalised context and, accordingly, deeply implicated in a necessary new project of nation re-building.

The fact that the most ancient marble portraits were once intentionally polychrome has always been lurking at the corners of art historical and archaeological research. Despite the fact, that the colours of the sculpted forms completed, enhanced and even extended the plastic shapes, the topic has not been devoted much dedicated attention. This book represents the first full-length academic monograph which explores the original polychromy of Roman white marble portraiture. It presents results from scientific analysis of portraits in statuary and bust formats dating to the first three centuries CE. The book also explores the cultural and social significance of colours in their original contexts, and how the immaterial affects of the polychrome, three-dimensional images can be integrated into the traditional research into ancient portraiture, which has tended to place overwhelming emphasis on iconography, typology and biography. By doing so the ancient sculpted marble form, as we know it, will be exposed and confronted, and the impact of manipulated material effects, that were meant to evoke a broad range of multisensory experiences, will be emphasized. The book puts forth a new way of analysis to be tested and developed in the future.

When 16-year-old poetry blogger Tessa Dickinson is involved in a car accident and loses her eyesight for 100 days, she feels like her whole world has been turned upside-down. Terrified that her vision might never return, Tessa feels like she has nothing left to be happy about. But when her grandparents place an ad in the local newspaper looking for a typist to help Tessa continue writing and blogging, an unlikely answer knocks at their door: Weston Ludovico, a boy her age with bright eyes, an optimistic smile...and no legs. Knowing how angry and afraid Tessa is feeling, Weston thinks he can help her. But he has one condition -- no one can tell Tessa about his disability. And because she can't see him, she treats him with contempt: screaming at him to get out of her house and never come back. But for Weston, it's the most amazing feeling: to be treated like a normal person, not just a sob story. So he comes back. Again and again and again. Tessa spurns Weston's "obnoxious optimism", convinced that he has no idea what she's going through. But Weston knows exactly how she feels and reaches into her darkness to show her that there is more than one way to experience the world. As Tessa grows closer to Weston, she finds it harder and harder to imagine life without him -- and Weston can't imagine life without her. But he still hasn't told her the truth, and when Tessa's sight returns he'll have to make the hardest decision of his life: vanish from Tessa's world...or overcome his fear of being seen. 100 Days of Sunlight is a poignant and heartfelt novel by author Abbie Emmons. If you like sweet contemporary romance and strong

family themes then you'll love this touching story of hope, healing, and getting back up when life knocks you down.

Through a series of vividly imaginative and wildly colorful characters, Hoeg gives us a very different account of the twentieth century, which in Denmark encompasses the transition from a medieval society to a modern welfare state with its accompanying cultural revolutions. Reminiscent of the work of the magical realists but with a distinctive Nordic twist, *The History of Danish Dreams* is a truly magical novel.

First published in 1908, "*Scouting for Boys*" is the seminal work on scouting by British Army officer and founder of the worldwide scouting movement, Robert Baden-Powell. Originally written as a manual for self-instruction, "*Scouting for Boys*" details many important scouting skills including scoutcraft, tracking, woodcraft, camping, and first-aid. Baden-Powell's work is a rework of his earlier "*Aids to Scouting*", published in 1899, and borrows many ideas from Ernest Thompson Seton's "*The Birch Bark Roll of the Woodcraft Indians*", published in 1906. "*Scouting for Boys*" includes numerous tales that can be told around the campfire, as well as many of Baden-Powell's personal anecdotes, and opinions on proper moral character of boy scouts. While some of the information in this work may seem outdated and some of the moralizing may seem antiquated to modern readers, "*Scouting for Boys*" remains an important historical work in the scouting movement. Having sold millions of copies since its first publication, the impact Baden-Powell's "*Scouting for Boys*" as well as his personal advocacy for the scouting movement cannot be overstated. This edition is printed on premium acid-free paper.

August Bournonville har en enestående plads i dansk ballethistorie, ikke blot i kraft af sine mange år som balletmester ved Det kongelige Teater og sine egne balletter, men også fordi han om nogen var med til at gøre dansk ballet kendt i udlandet. Lektor og balletkritiker Erik Aschengreen har skrevet tre essays om August Bournonville i anledning af hundredeåret for hans afgang som balletmester hos Det kongelige Teater. Teksterne beskæftiger sig med Bournonvilles forhold til andre balletdansere og -forfattere samt hans plads i ballethistorien. Erik Aschengreen (f. 1935) er en dansk universitetslektor, forfatter og balletkritiker. Fra 1964 til 2005 skrev Erik Aschengreen om ballet og dans for Berlingske og har sideløbende udgivet en lang række bøger om ballet og balletdansere. Erik Aschengreen har været med til at stifte uddannelsen i dansevidenskab ved Københavns Universitet.

Fabric-cast concrete involves casting concrete in forms made with flexible formwork. This provides the potential to produce forms that are both structurally efficient and architecturally exciting in a relatively inexpensive and practical manner. By careful shaping of the fabric it is possible to produce complex shapes that would otherwise be difficult and expensive to produce using conventional formwork systems. This book contains six essays that describe the collaboration between the Universities of Edinburgh and E London, together with the Centre for Architectural and Structural Technology (CAST) at the University of Manitoba, in their detailed and practical research into concrete casting and formwork. Richly illustrated with photographs and diagrams and containing new and innovative research this book offers the architect, engineer and student inspiration and technical guidance in this re-emerging material.

The field of sports history is no longer a fledgling area of study. There is a great vitality in the field and it has matured dramatically over the past decade. Reflecting changes to traditional approaches, sport historians need now to engage with contemporary debates about history, to be encouraged to position themselves and their methodologies in relation to current epistemological issues, and to promote the importance of reflecting on the literary or poetic dimensions of producing history. These contemporary developments along with a wealth of international research from a range of theoretical perspectives, provide the backdrop to the new Routledge Companion to Sports History. This book provides a comprehensive guide to the international field of sports history as it has developed as an academic area of study. Readers are guided through the development of the field across a range of thematic and geographical contexts and are introduced to the latest cutting edge approaches within the field. Including contributions from many of the leading sports historians, the Routledge Companion to Sports History is the most important single volume for researchers and students in, and entering, the sport's history field. It is an essential guide to contemporary research themes, to new ways of doing sports history, and to the theoretical and methodological foundations of this most fascinating of subjects.

'Modsprogets proces' beskæftiger sig med eksperimenterende dansk litteratur fra 1960'erne og frem til bogens udgivelse i 1982. Den består af en række interviews med fremtrædende danske forfattere samt analyser af centrale værker. Tilsammen danner de en kompliceret mosaik, der afspejler denne spændende periode, hvor noget af det eneste, forfatterne havde tilfælles, var, at de var helt forskellige fra hinanden. Litteraturhistoriker og oversætter Erik Skyum-Nielsen (f. 1952) har udgivet en lang række bøger om litteratur og kultur, og er uddannet mag.art. i nordisk litteratur fra Københavns Universitet og har siden 2003 været ansat som lektor ved samme. Skyum-Nielsen er desuden litteraturkritiker ved Dagbladet Information.

In 1899 while serving in the 2nd Boer War, Robert Baden-Powell penned his sixth military book, Aids To Scouting. It was a non-typical training manual filled with personal stories of intrigue and even games. Its goal was to encourage the development of light reconnaissance scouting skills within the British Army. The book was well received by various armies of its time, including the French Army. His successful defense of Mafeking (1899-1900) in South Africa made Baden-Powell a well-known national hero in Britain. But what completely surprised Baden-Powell was that his book was eagerly taken up by teachers and youth groups to help organize outdoor activities and sport. He eventually embraced the idea of adapting his work into a new youth-oriented book, Scouting for Boys (1908) which went on to sell approx. 150 million copies to date. It was that follow-on book that firmly launched the international Boy Scouts movement. Aids to Scouting contains sections on the characters of a scout, as well as practical advice on observation, stealth/camouflage, map reading, sketching, tracking, reporting and care of horses. It presents these topics in a simple conversational style that makes it easy to read, and is illustrated with personal anecdotes of military adventures by the author. It gives scholars clear insights into his mindset and beliefs that served him well in the siege of Mafeking and shows a clear lineage to the formation of the tenets of his formation of the Boy Scouts. Anyone interested in the history of Boy Scouting will definitely want to read this interesting and formative book. (NOTE - Appendix C contents is missing in this Kindle version - but we
