

Das Buch Vom S Den

Using different theoretical approaches and frameworks this book addresses a broad range of themes in contrastive linguistics, including inflection, derivation and compounding, tense, wh-questions, post-verbal subject focus and clitics, among others. Comparing English, German, Greek, Romance, Slavic and South Pacific languages, the book highlights the significance of the contrastive perspective for language-specific descriptive and general interface issues, casting light on contrasts between languages at the levels of morphology and syntax. In this respect, it makes a valuable contribution to our understanding of language typology and language universals.

The Jewish Quarterly Review

*1753 saw the publication of two major works of Old Testament scholarship: Robert Lowth's *On the Sacred Poetry of the Hebrews* and Jean Astruc's *Conjectures on Genesis* (published anonymously when Astruc was Professor of Medicine at the College Royal in Paris). Both these works have had considerable repercussions in biblical study down to the present day. Indeed, they may be said to have inaugurated modern critical approaches to biblical poetry and prose, respectively, of the Old Testament. To mark and reflect upon the 250th anniversary of the publication of these volumes, the University of Oxford hosted a "Sacred Conjectures" conference in 2003. An international group of scholars gathered to discuss the context and legacy of Lowth's and Astruc's seminal contributions to the field of biblical scholarship; the majority of the papers presented at the conference appear in this volume. The collection aims to provide for Lowth and Astruc not only an account and evaluation of their life and work but also an understanding of the wider intellectual context of their scholarship and the reception and influence of their work ever since.*
