Provides test-taking strategies, a subject review, and two full-length practice tests.

In 1519, Hernâan Cortâes arrived on the shores of Mexico with a roughshod crew of adventurers and the intent to expand the Spanish empire. Along the way, this brash and roguish conquistador schemed to convert the native inhabitants to Catholicism and carry off a fortune in gold. In Tenochtitlân, the City of Dreams, Cortâes met his Aztec counterpart, Montezuma: king, divinity, ruler of a complex and sophisticated civilization with fifteen million people, and commander of the most powerful military machine in the Americas. Yet in less than two years, Cortâes defeated the entire Aztec nation in one of the most astonishing military campaigns ever waged. Sometimes outnumbered thousands-to-one, Cortâes repeatedly beat seemingly impossible odds. Journalist Levy meticulously researches the mix of cunning, courage, brutality, superstition, and finally disease that enabled Cortâes and his men to survive.--From publisher description.

The Incas is a captivating exploration of one of the greatest civilizations ever seen. Seamlessly drawing on history, archaeology, and ethnography, this thoroughly updated new edition integrates advances made in hundreds of new studies conducted over the last decade. • Written by one of the world's leading experts on Inca civilization • Covers Inca history, politics, economy, ideology, society, and military organization • Explores

The Oxford History of Islam offers the most wide-ranging and authoritative account available of the second largest--and fastest growing--religion in the world. John L. Esposito, Editor-in-Chief of the four-volume Oxford Encyclopedia of the Modern Islamic World, has gathered together sixteen leading scholars, both Muslim and non-Muslim, to examine the origins and historical development of Islam--its faith, community, institutions, sciences, and arts. Beginning in the pre-Islamic Arab world, the chapters range from the story of Muhammad and his

Companions, to the development of Islamic religion and culture and the empires that grew from it, to the influence that Islam has on today's world. The book covers a wide array of subjects, casting light on topics such as the historical encounter of Islam and Christianity, the role of Islam in the Mughal and Ottoman empires, the growth of Islam in Southeast Asia, China, and Africa, the political, economic, and religious challenges of European imperialism in the nineteenth and twentieth centuries, and Islamic communities in the modern Western world. In addition, the book offers excellent articles on Islamic religion, art and architecture, and sciences as well as bibliographies. Events in the contemporary world have led to an explosion of interest and scholarly work on Islam. Written for the general reader but also appealing to specialists, *The Oxford History of Islam* offers the best of that recent scholarship, presented in a readable style and complemented by a rich variety of illustrations.

Living in a "perfect" world without social ills, a boy approaches the time when he will receive a life assignment from the Elders, but his selection leads him to a mysterious man known as the Giver, who reveals the dark secrets behind the utopian facade.

Fifteen Poets of the Aztec World

"Fascinating.... Lays a foundation for understanding human history."—Bill Gates In this "artful, informative, and delightful" (William H. McNeill, *New York Review of Books*) book, Jared Diamond convincingly argues that geographical and environmental factors shaped the modern world. Societies that had had a head start in food production advanced beyond the hunter-gatherer stage, and then developed religion --as well as nasty germs and potent weapons of war --and adventured on sea and land to conquer and decimate preliterate cultures. A major advance in our understanding of human societies, *Guns, Germs, and Steel* chronicles the way that the modern world came to be and stunningly dismantles racially based theories of human history. Winner of the Pulitzer Prize, the Phi Beta Kappa Award in Science, the Rhone-Poulenc Prize, and the Commonwealth club of California's Gold Medal.

In this first English-language translation of a significant corpus of Nahuatl poetry into English, Miguel León-Portilla was assisted in his rethinking, augmenting, and rewriting in English by Grace Lobanov. Biographies of fifteen composers of Nahuatl verse and analyses of their work are followed by their extant poems in Nahuatl and in English. This book re-presents the poetry of Rudyard Kipling in the form of bold slogans, the

better for us to reappraise the meaning and import of his words and his art. Each line or phrase is thrust at the reader in a manner that may be inspirational or controversial... it is for the modern consumer of this recontextualization to decide. They are words to provoke: to action. To inspire. To recite. To revile. To reconcile or reconsider the legacy and benefits of colonialism. Compiled and presented by sloganist Dick Robinson, three poems are included, complete and uncut: 'White Man's Burden', 'Fuzzy-Wuzzy' and 'If'.

The Code of Hammurabi (Codex Hammurabi) is a well-preserved ancient law code, created ca. 1790 BC (middle chronology) in ancient Babylon. It was enacted by the sixth Babylonian king, Hammurabi. One nearly complete example of the Code survives today, inscribed on a seven foot, four inch tall basalt stele in the Akkadian language in the cuneiform script. One of the first written codes of law in recorded history. These laws were written on a stone tablet standing over eight feet tall (2.4 meters) that was found in 1901.

In 1177 B.C., marauding groups known only as the "Sea Peoples" invaded Egypt. The pharaoh's army and navy managed to defeat them, but the victory so weakened Egypt that it soon slid into decline, as did most of the surrounding civilizations. After centuries of brilliance, the civilized world of the Bronze Age came to an abrupt and cataclysmic end. Kingdoms fell like dominoes over the course of just a few decades. No more Minoans or Mycenaeans. No more Trojans, Hittites, or Babylonians. The thriving economy and cultures of the late second millennium B.C., which had stretched from Greece to Egypt and Mesopotamia, suddenly ceased to exist, along with writing systems, technology, and monumental architecture. But the Sea Peoples alone could not have caused such widespread breakdown. How did it happen? In this major new account of the causes of this "First Dark Ages," Eric Cline tells the gripping story of how the end

was brought about by multiple interconnected failures, ranging from invasion and revolt to earthquakes, drought, and the cutting of international trade routes. Bringing to life the vibrant multicultural world of these great civilizations, he draws a sweeping panorama of the empires and globalized peoples of the Late Bronze Age and shows that it was their very interdependence that hastened their dramatic collapse and ushered in a dark age that lasted centuries. A compelling combination of narrative and the latest scholarship, 1177 B.C. sheds new light on the complex ties that gave rise to, and ultimately destroyed, the flourishing civilizations of the Late Bronze Age—and that set the stage for the emergence of classical Greece.

Considered by many the greatest war novel of all time, All Quiet on the Western Front is Erich Maria Remarque's masterpiece of the German experience during World War I. I am young, I am twenty years old; yet I know nothing of life but despair, death, fear, and fatuous superficiality cast over an abyss of sorrow. .

. . This is the testament of Paul Bäumer, who enlists with his classmates in the German army during World War I. They become soldiers with youthful enthusiasm. But the world of duty, culture, and progress they had been taught breaks in pieces under the first bombardment in the trenches. Through years of vivid horror, Paul holds fast to a single vow: to fight against the principle of hate that meaninglessly pits young men of the same generation but different uniforms against one another . . . if only he can come out of the war alive. "The world has a great writer in Erich Maria Remarque. He is a craftsman of unquestionably first rank, a man who can bend language to his will. Whether he writes of men or of inanimate nature, his touch is sensitive, firm, and sure."—The New York Times Book Review

The most modern and complete overview of Olmec culture, its accomplishments and impact on later Mexican civilizations, hailed by Michael Coe as the first truly complete and authoritative account of this 3,000-year-old culture, is fast becoming the standard work on the subject.

An unabridged translation of a 16th century Dominican friar's history of the Aztec world before the Spanish conquest, based on a now-lost Nahuatl chronicle and interviews with Aztec informants. Duran traces the history of the Aztecs from their mythic origins to the destruction of the empire, and describes the court life of the elite, the common people, and life in times of flood, drought, and war. Includes an introduction and annotations providing background on recent studies of colonial Mexico, and 62 b&w illustrations from the original manuscript. Annotation c. by Book News, Inc., Portland, Or.

In the case studies that make up the bulk of this book, middle and high school history teachers describe the decisions and plans and the problems and possibilities they encountered as they ratcheted up their instruction through the use of big ideas. Framing a teaching unit around a question such as 'Why don't we know anything about Africa?' offers both teacher and students opportunities to explore historical actors, ideas, and events in

the Conquest up to the present. This longstanding classic now features full-colour photos of the vibrant art and architecture of ancient Mesoamerica throughout.

Philosophers of the Warring States is an anthology of new translations of essential readings from the classic texts of early Chinese philosophy, informed by the latest scholarship. It includes the Analects of Confucius, Meng Zi (Mencius), Xun Zi, Mo Zi, Lao Zi (Dao De Jing), Zhuang Zi, and Han Fei Zi, as well as short chapters on the Da Xue and the Zhong Yong.

Pedagogically organized, this book offers philosophically sophisticated annotations and commentaries as well as an extensive glossary explaining key philosophical concepts in detail. The translations aim to be true to the originals yet accessible, with the goal of opening up these rich and subtle philosophical texts to modern readers without prior training in Chinese thought.

Frequently cited as a land that birthed civilization and culture as we know it, the impact of ancient Greece on the world cannot be overstated. Its flourishing city-states laid the creative foundations for much of the literature, drama, art, and
