The first epic poem written in Italian is the Teseida delle nozze di Emilia (Theseid of the Nuptials of Emilia) by Giovanni Boccaccio, the well-known author of the Decameron. Conceived and composed during the Florentine author's stay in Naples, it combines masterfully both epic and lyric themes in a genre that may be defined as an epic of love. Besides its intrinsic literary value, the poem reflects the author's youthful emotions and nostalgia for the happiest times of his life.

A classic history of banking and trade in the medieval period, combining superb research and analysis with graceful writing. The Medici Bank was the most powerful banking house of the 15th century. Headquartered in Florence, Italy, it established branches in Rome, Venice, Geneva, Lyons, Bruges, London, and many other cities. The bank served as financial agent of the Church, extended credit to monarchs, and facilitated international trade in Western Europe. By their personal influence and the use of their profits, the owners and administrators of the bank contributed significantly to the

Following Trent, a new mode of confession makes its appearance, a baroque discourse in which "the heart speaks to the heart." Senior argues that Corneille similarly creates a new kind of hero who distinguishes himself as much by the confessional trial of self-statement as by his military exploits. In the work of Racine, Senior notes, Minos appears again, tormenting the conscience of Phedre.

Geoffrey Berg, a graduate of Cambridge University, England, believes the case for atheism has never been put in as forceful and logically cogent a way as it merits, least of all by the great philosophers. In this book he sets out to remedy that by strengthening

some traditional atheistic arguments and by initiating some new logical arguments for atheism. Geoffrey Berg develops six simple completely logical arguments in clear language that practically everybody can understand in a way that has never been done before to prove that belief in God is not merely unsupported by Logic but is actually contrary to Logic. This is a groundbreaking book because it is probably the first attempt by a single author that devotes an entire book to absolutely disproving the existence of God, all the time matching verbal arguments with strictly logical formulations of the

argument. It aims to crystallize the case for atheism in a way that has not been done before. It is likely in retrospect to be seen as a landmark book because some of the novel arguments in this book are likely to be used hereafter by people around the world.

It explores the lives and thoughts of two brothers, the lawyer Andrea Meneghini (1806 – 1870) and the botanist Giuseppe Meneghini (1811 – 1889), illustrating the world of Padua's social and intellectual elite in the decades before the 1848 revolution. A closer look at park designs, gardening associations and networks, flower exhibitions, agricultural societies, organicist metaphors, and botanical research on the organization of living bodies opens up unexpected parallels between actors and ideas of two apparently

The Maronite Church is one of twenty-two Eastern Catholic Churches in communion with the Pope of Rome. Her patriarch is in Lebanon. Forty-three bishops and approximately five million faithful make up her presence throughout the world. The story of Maron, a fifth-century hermit-priest, and the community gathered around him, later called the Maronites, tells another fascinating story of the monastic

and missionary movements of the Church. Maron's story takes place in the context of Syrian monasticism, which was a combination of both solitary and communal life, and is a narrative of Christians of the Middle East as they navigated the rough seas of political divisions and ecclesiastical controversies from the fourth to the ninth centuries. Abbot Paul Naaman, a Maronite scholar and former Superior General of the Order of Lebanese Maronite Monks, wisely places the study of the origins of the Maronite Church

squarely in the midst of the history of the Church. His book, *The Maronites: The Origins of an Antiochene Church*, published during the sixteenth centenary of Maron's death, offers plausible insights into her formation and early development, grounding the Maronite Church in her Catholic, Antiochian, Syriac, and monastic roots. Abbot Paul Naaman is a Maronite scholar and former Superior General of the Order of Lebanese Maronite Monks. The history of the Black Sea as a source of Mediterranean slaves stretches from

ancient Greek colonies to human trafficking networks in the present day. At its height during the fourteenth and early fifteenth centuries, the Black Sea slave trade was not the sole source of Mediterranean slaves; Genoese, Venetian, and Egyptian merchants bought captives taken in conflicts throughout the region, from North Africa, sub-Saharan Africa, the Balkans, and the Aegean Sea. Yet the trade in Black Sea slaves provided merchants with profit and prestige; states with military recruits, tax revenue, and

diplomatic influence; and households with the service of women, men, and children. Even though Genoa, Venice, and the Mamluk sultanate of Egypt and Greater Syria were the three most important strands in the web of the Black Sea slave trade, they have rarely been studied together. Examining Latin and Arabic sources in tandem, Hannah Barker shows that Christian and Muslim inhabitants of the Mediterranean shared a set of assumptions and practices that amounted to a common culture of slavery. Indeed, the Genoese,

Venetian, and Mamluk slave trades were thoroughly entangled, with wide-ranging effects. Genoese and Venetian disruption of the Mamluk trade led to reprisals against Italian merchants living in Mamluk cities, while their participation in the trade led to scathing criticism by supporters of the crusade movement who demanded commercial powers use their leverage to weaken the force of Islam. Reading notarial registers, tax records, law, merchants' accounts, travelers' tales and letters, sermons, slave-buying

manuals, and literary works as well as treaties governing the slave trade and crusade propaganda, Barker gives a rich picture of the context in which merchants traded and enslaved people met their fate.

The founders and forerunners of the Southern Baptist Convention were fundamentally shaped by the thought of Puritan theologian Jonathan Edwards and his theological successors. While Baptists in the antebellum South boasted a different theological pedigree than Presbyterians or Congregationalists, and while they inhabited a Southern landscape unfamiliar to the bustling

Where To Download Dell Vostro 1310 Instruction

cities and tall forests of New England, they believed their similarities with Edwards far outweighed their differences. Like Edwards, these Baptists were revivalistic, Calvinistic, loosely confessional, and committed to practical divinity. In these four things, Southern Edwardseanism lived, moved, and had its being. In the nineteenth-century, when so many Presbyterians scoffed at Edwards's "innovation" and Methodists scorned his Calvinism, Baptists found in Edwards a man after their own heart. By 1845, at the first Southern Baptist Convention, Southern Edwardseans had laid the groundwork for a convention marked by the theology of Jonathan Edwards.

In Codi's Journey, Jeff describes these events within the context of an inspiring and heartfelt narrative illustrating the very challenging circumstances Codi faced during her final 12 months. Any dog owner who has ever shared stories about the "humanness" of their pet, as well as any adult who has ever loved & lost a beloved animal companion, will surely find this work captivating. To provide even greater depth into Codi's story, Jeff details how this feisty canine became a part of his family. He likewise shares many engaging anecdotes about her personality and several of her more

Personal Note: My foremost intention with this work is to
share an authentic story with two key messages. First,
that our pets actually are "sages with fur" with a far
greater understanding of life (and us) than commonly
thought. Second, that it's perfectly normal to feel intense
& long-lasting grief at the loss of a pet. This is particularly
so when that animal served as an adult's primary
companion for years. In this regard, I sincerely want any
reader who also has experienced such a loss to know
that someone truly does understand the sadness and
emptiness they felt when their beloved pet passed on.*

Vertical Readings in Dante's Comedy is a reappraisal of the poem by an international team of thirty-four scholars. Each vertical reading analyses three same-numbered cantos from the three canticles: Inferno i, Purgatorio i and Paradiso i; Inferno ii, Purgatorio ii and Paradiso ii; etc. Although scholars have suggested before that there are correspondences between same-numbered cantos that beg to be explored, this is the first time that the approach has been pursued in a systematic fashion across the poem. This collection – to be issued in three volumes – offers an unprecedented repertoire

of vertical readings for the whole poem. As the first volume exemplifies, vertical reading not only articulates unexamined connections between the three canticles but also unlocks engaging new ways to enter into core concerns of the poem. The three volumes thereby provide an indispensable resource for scholars, students and enthusiasts of Dante. The volume has its origin in a series of thirty-three public lectures held in Trinity College, the University of Cambridge (2012-2016) which can be accessed at the 'Cambridge Vertical Readings in Dante's Comedy' website.

Digital forensics deals with the acquisition, preservation, examination, analysis and presentation of electronic evidence. Networked computing, wireless communications and portable electronic devices have expanded the role of digital forensics beyond traditional computer crime investigations. Practically every crime now involves some aspect of digital

Furthermore, it has a vital role in information assurance - investigations of security breaches yield valuable information that can be used to design more secure systems. Advances in Digital Forensics V describes original research results and innovative applications in the discipline of digital forensics. In addition, it highlights some of the major

Negotiating the Art of Fatherhood in Late Medieval and Early Modern Italy examines contested notions of fatherhood in written and visual texts during the development of the mercantile economy in fourteenth- and fifteenth-century Italy. It analyzes debates about the household and community management of wealth, emotion, and trade in luxury "goods," including enslaved women, as moral questions. Juliann Vitullo

considers how this mercantile economy affected paternity and the portraits of ideal fatherhood, which in some cases reconceived the role of fathers and in others reconfirmed traditional notions of paternal authority.

What can stories of magical engraved rings or prophetic inscriptions on walls tell us about how writing was perceived before print transformed the world? Writing beyond Pen and Parchment introduces readers to a Middle Ages where writing is not confined to manuscripts but is inscribed in the broader material world, in textiles and tombs, on weapons or human skin. Drawing on the work done at the Collaborative Research Centre “Material Text Cultures,” (SFB 933) this volume presents a comparative overview of how and where text-bearing artefacts appear in medieval German, Old Norse, British, French, Italian and Iberian literary traditions, and also traces the paths inscribed objects chart across multiple linguistic and cultural traditions. The volume’s focus on the
