level of art, seduction, an indirect and subtle form of power, has toppled empires, won elections and enslaved great minds. In this beautiful, sensually designed book, Greene unearths the two sides of seduction: the characters and the process. Discover who you, or your pursuer, most resembles. Learn, too, the pitfalls of the anti-Seducer. Immerse yourself in the twenty-four manoeuvres and strategies of the seductive process, the ritual by which a seducer gains mastery over their target. Understand how to 'Choose the Right Victim', 'Appear to Be an Object of Desire' and 'Confuse Desire and Reality'. In addition, Greene provides instruction on how to identify victims by type. Each fascinating character and each cunning tactic demonstrates a fundamental truth about who we are, and the targets we've become - or hope to win over.

From the mid-nineteenth century on, America and Japan were caught in an extraordinary political, military and economic duel. This clash was characterised by a cultural incompatibility that was to haunt the negotiations of their two leaders, Emperor Hirohito and General MacArthur. Hirohito was a remarkable man. Diffident, uncharismatic and

apparently obtuse, he survived as god-ruler of Japan for six decades through internal strife, war, defeat, occupation and economic victory. But Hirohito met his equal in MacArthur. Brash and domineering, MacArthur merited the honorary Japanese epithet shogun or 'army leader' for his almost single-handed six year rule over Japan. In this absorbing dual biography Robert Harvey traces their tense and complex relationship. His broad scope encompasses two great nations in war and peace - a momentous period of history which provides illuminating insight into American actions across the world today.

NEW YORK TIMES BESTSELLER • The bestselling author of *Zealot* and host of *Believer* explores humanity's quest to make sense of the divine in this concise and fascinating history of our understanding of God. In *Zealot*, Reza Aslan replaced the staid, well-worn portrayal of Jesus of Nazareth with a startling new image of the man in all his contradictions. In his new book, Aslan takes on a subject even more immense: God, writ large. In layered prose and with thoughtful, accessible scholarship, Aslan narrates the history of religion as a remarkably cohesive attempt to understand the

divine by giving it human traits and emotions. According to Aslan, this innate desire to humanize God is hardwired in our brains, making it a central feature of nearly every religious tradition. As Aslan writes, "Whether we are aware of it or not, and regardless of whether we're believers or not, what the vast majority of us think about when we think about God is a divine version of ourselves." But this projection is not without consequences. We bestow upon God not just all that is good in human nature—our compassion, our thirst for justice—but all that is bad in it: our greed, our bigotry, our penchant

This book begins with a discussion of the nature of command and control. It includes a distillation of the essence of command and control, providing definitions and identifying the enduring functions that must be performed in any military operation.

Since there is no single approach to command and control that has yet to prove suitable for all purposes and situations, militaries throughout history have employed a variety of approaches to commanding and controlling their forces. A representative sample of the most successful of these approaches is reviewed and their implications are discussed.

The authors then examine the nature of Industrial Age militaries, their inherent properties, and their inability to develop the level of interoperability and agility needed in the Information

Age. The Industrial Age has had a profound effect on the nature and the conduct of warfare and on military organizations. A discussion of the characteristics of Industrial Age militaries and command and control is used to set the stage for an examination of their suitability for Information Age missions and environments. The nature of the changes associated with Information Age technologies and the desired characteristics of Information Age militaries, particularly the command and control capabilities needed to meet the full spectrum of mission challenges, are introduced and discussed in detail. Two interrelated force characteristics that transcend any mission are of particular importance in the Information Age: interoperability and agility. Each of these key topics is treated in a separate chapter. The basic concepts necessary to
