Dive into the world of The Matrix ahead of the 2021 release of Lana Wachowski's The Matrix Resurrections! Taking the Red Pill is a thought-provoking, mind-expanding thrill ride through The Matrix, examining the technological challenges, religious symbolism, and philosophical dilemmas the film presents. Renowned scientists, technologists, philosophers, scholars, social commentators, and science fiction authors provide engaging and provocative perspectives:

- **Inventor and technologist Ray Kurzweil reveals the technological trends that make The Matrix more prophetic than anyone suspects**
- **Sun chief scientist Bill Joy's classic essay "Why the Future Doesn't Need Us" describes the horrors that await as these technologies are developed**
- **Yale philosopher and occasional standup comic Nick Bostrom calculates the odds that we are in the Matrix**
- **Best-selling science fiction author Robert J. Sawyer explores the history of artificial intelligence in science fiction culminating with The Matrix**
- **Economist and philosopher of science Robin Hanson shows how we are controlled by a power as malevolent as that of the Matrix**
- Taking the Red Pill will change how you view The Matrix—and the world around you.**

"Fortunately, Scott Roberts boldly goes where few men have surfaced from, providing a well-balanced, innovative, and insightful approach to the topic." —Philip Coppens, author of The Ancient Alien Question Where the bloodlines of the Nephilim leave off, the real story just begins. Or does it go back even further than that? The very real probability that non-human intelligences visited and even copulated with primordial humans is detailed in civilization's most ancient cultural and religious records. These historical records further reveal that these intelligences were reptilian in nature--or, at the very least, have been represented throughout human history in reptilian form. From the Serpent, Nawcash, in the Garden of Eden; Atum, the Egyptian snake-man; and Quetzalcoatl, the feathered serpent god of the Mayans to the double-helix snake symbol of Enki/Ea in ancient Sumerian literature, the serpent has been the omnipresent link between humans and the gods in every culture. In The Secret History of the Reptilians, Scott Alan Roberts investigates and examines the pervasive presence of the serpent in human history, religion, culture, and politics. Are we the product of an extraterrestrial race that moves and breathes--and even breeds--beneath the surface of all of human history? Put on your thinking cap and take an historical, anthropological, archaeological plunge into the heady waters of extraterrestrial origins.

Reveals the cutting edge of New Science and shows how established science disallows inquiry that challenges the status quo--even when it produces verifiable results

- **Contains 43 essays by 19 researchers denoting cutting-edge, heretical, or suppressed scientific research, including Immanuel Velikovsky, Nikola Tesla, Rupert Sheldrake, and Masaru Emoto**
- **Edited by Atlantis Rising publisher, J. Douglas Kenyon**

Following the model of his bestselling Forbidden History and Forbidden Religion, J. Douglas Kenyon has assembled from his bimonthly journal, Atlantis Rising, material that explores science and technology that has been suppressed by the orthodox scientific community--from the true function of the Great Pyramid and the megaliths at Nabta Playa to Immanuel Velikovsky's astronomical insights, free energy from space, cold fusion, and Rupert Sheldrake's research into telepathy and ESP. There is an organized war going on in science between materialistic theory and anything that could be termed spiritual or metaphysical. For example, Masaru Emoto's research into the energetics of water, although supported by photographic evidence, has been scoffed at by mainstream science because he has asserted that humans affect their surroundings with their thoughts. The materialism or absolute skepticism of the scientific establishment is detrimental to any scientific inquiry that thinks outside the box. This mentality is interested in preserving funding for its own projects, those that will not rock the establishment. From Tesla's discovery of alternating current to Robert Schoch's re-dating of the Sphinx, this book serves as a compelling introduction to the true history of alternative and New Science research.

This is the only exposé of one of the world's most secretive and feared organizations: Yale University's nearly 200-year-old secret society, Skull and Bones. Through society documents and interviews with dozens of members, Robbins explains why this old-boy product of another time still thrives today.

The "spirit of sonship" is an apostolic grace which brings about the spiritual maturity of the believer, the revival of apostolic Christianity, and ultimately, the maturity of the church in preparation for the coming of Christ. This important book reveals that the values and heart attitudes of what we may call the spirit of sonship is the very nature and essence of authentic apostolic New Testament Christianity. You will discover a fresh approach to understanding and walking in grace, through relationships. The subject is huge, and wonderful; the whole of the Scriptures and all of salvation history must now be seen in the light of sonship and its implications.

After a world-famous opera star--and ex-flame--asks him to investigate her brother's mysterious death, British Air Service officer Ben Hope gets caught up in a centuries-old web of intrigue surrounding the death--and possible murder--of Mozart. Reprint.

According to Ifa, how does a true human being behave and interact with his or her family, community, nation, and world? Over the past 30 years, Chief Solagbade Popoola has traveled the world, spreading the sacred Holy Scriptures (Odu Ifa) of the Yoruba people. In this groundbreaking work, Chief Popoola examines the 40 virtues of a true human being; the ropes of life that maintain the world's equilibrium; and the razors that cut the ropes of life. The reader will come to understand what Olodumare (God), the Ironmole, and Orisa expect from each and every person, during his or her sojourn on earth. Those who are committed to building a better self, family, community, nation, and world, can use this powerful manual as a guide, in his or her quest, in becoming a true human being.

Given that most ophthalmic surgeons have at some time in their careers struggled with reading a corneal topography map and attempting to ascertain if it is normal or abnormal, this handy step by step guide to corneal topography is an excellent aide-memoire. The illustrious Agarwal family cover the common use of corneal topography - keratoconus detection – as well as more unique areas such as the extensive use of corneal topography for cataract surgery and phakonit, as well as posterior corneal topography, and aberropia. Going one step further than many other texts in the field, this impressive guide also presents splendid information on the use of topography for aberrometry-guided excimer laser applications. Making the difficult and often confusing mixture of art and science that is corneal topography seem more manageable in day-to-day practice. Step by Step Corneal Topography is undoubtedly requisite reading for all ophthalmologists.

The real story behind the Tavistock Institute and its network, from a popular conspiracy expert *The Tavistock Institute, in Sussex, England, describes itself as a nonprofit charity that applies social science to contemporary issues and problems. But this book posits that it is the world's center for mass brainwashing and social engineering activities. It grew from a somewhat crude beginning at Wellington House into a sophisticated organization that was to shape the destiny of the entire planet, and in the process, change the paradigm of modern society. In this eye-opening work, both the Tavistock network and the methods of brainwashing and psychological warfare are uncovered. With connections to U.S. research institutes, think tanks, and the drug industry, the Tavistock has a large reach, and Tavistock Institute attempts to show that the conspiracy is real, who is behind it, what its final long term objectives are, and how we the people can stop them.*

Conspiracy theory and American foreign policy examines the relationship between secrecy, power and interpretation around international controversy, where foreign policy orthodoxy comes up hard against alternative interpretations. It does so in the context of US foreign policy during the War on Terror, a conflict that was covert and conspiratorial to its core. Offering a new dimension to debates on post-truth politics, this book critically examines the 'Arab-Muslim paranoia narrative': the view that Arab-Muslim resentment towards America is motivated to some degree by a paranoid perception of American power in the Middle East. This narrative is traced from its roots in a post-War liberal understanding of populism through to foreign policy debates about the origins of 9/11, to the strategic heart of the Bush Administration's War of Ideas. Balancing conceptual innovation with detailed case analysis, Aistrophe provides a window into the ideological commitments of the US War on Terror. Offering a fascinating insight into conspiracy and paranoia, this book is essential reading for those interested in the relationship between secrecy, power, and contemporary politics.

How an Interdimensional Race Has Controlled the Planet for Thousands of Years - And Still Does

An Introduction to Ramtha and His Teachings

NEW YORK TIMES BESTSELLER • In the final book of his astonishing career, Carl Sagan brilliantly examines the burning questions of our lives, our world, and the universe around us. These luminous, entertaining essays travel both the vastness of the cosmos and the intimacy of the human mind, posing such fascinating questions as how did the universe originate and how will it end, and how can we meld science and compassion to meet the challenges of the coming century? Here, too, is a rare, private glimpse of Sagan's thoughts about love, death, and God as he struggled with fatal disease. Ever forward-looking and vibrant with the sparkle of his unquenchable curiosity, Billions & Billions is a testament to one of the great scientific minds of our day. Praise for Billions & Billions "[Sagan's] writing brims with optimism, clarity and compassion."—Ft. Lauderdale Sun-Sentinel "Sagan used the spotlight of his fame to illuminate the abyss into which stupidity, greed, and the lust for power may yet dump us. All of those interests and causes are handsomely represented in Billions & Billions."—The Washington Post Book World "Astronomer Carl Sagan didn't live to see the millennium, but he probably has done more than any other popular scientist to prepare us for its arrival."—Atlanta Journal & Constitution "Billions & Billions can be interpreted as the Silent Spring for the current generation. . . . Human history includes a number of leaders with great minds who gave us theories about our universe and origins that ran contrary to religious dogma. Galileo determined that the Earth revolved around the Sun, not the other way around. Darwin challenged Creationism with his Evolution of Species. And now, Sagan has given the world its latest challenge: Billions & Billions."—San Antonio Express-News "[Sagan's] inspiration and boundless curiosity live on in the gift of his work."—Seattle Times & Post-Intelligencer "Couldn't stay awake in your high school science classes? This book can help fill in the holes. Acclaimed scientist Carl Sagan combines his logic and knowledge with wit and humor to make a potentially dry subject enjoyable to read."—The Dallas Morning News

In documented detail, the author argues that the same interconnecting bloodlines have controlled the planet for thousands of years. Original.

Prayers to My King is a beautiful gift book created to help women connect intimately with their God. Where the first book in the His Princess™ series reminded us that we are loved intimately and unconditionally by our King, this second book helps us express our deepest thoughts, desires, fears and failures by emulating King David in the Psalms and crying out to God through prayer. Christian women will gain a personal, dynamic prayer life. You want to feel God's presence... embrace His promises... cry out to Him... ..but don't know how! From your heart's deepest cry to life's joyful praises, nothing is off limits to Him. Go confidently now before His throne as you claim these powerful prayers as your own. He hears every word. He's waiting to hear from you. If from there you will seek the Lord your God, you will find Him if you seek Him with all your heart and soul and life. Deuteronomy 4:29, AMP Story Behind the Book "Too many of God's "chosen ones" don't know how to have a real relationship with their Lord. We want to feel His presence, but we don't know how to let Him in. We want to see His promises come true, but we don't believe they are for us personally. We want to experience His power, but we keep trying to live life in our own strength. We want to cry out to Him, but we're afraid to break down and admit that we're weak. My prayer for this book is that women of God will have a personal, life-changing prayer life and be transformed into the daughters of the King they were destined to be from the beginning."

Bored with their work, three Milanese editors cook up "the Plan," a hoax that connects the medieval Knights Templar with other occult groups from ancient to modern times. This produces a map indicating the geographical point from which all the powers of the earth can be controlled—a point located in Paris, France, at Foucault's Pendulum. But in a fateful turn the joke becomes all too real, and when occult groups, including Satanists, get wind of the Plan, they go so far as to kill one of the editors in their quest to gain control of the earth.Orchestrating these and other diverse characters into his multilayered semiotic adventure, Eco has created a superb cerebral entertainment.

The Description of a Compete Human Being

A Book of Short Horror Stories

It happened more than 450,000 years ago. Beings from outer space came to planet Earth in search of resources: fuel for a distant planet. It all began in Sumer, in ancient Mesopotamia. You may think this is an outlandish story by someone who has not slept for some days, but everything you will read is well documented in the most ancient writings known to mankind: the Enuma Elish, Atrahasis, the Epic of Gilgamesh, and many more. These writings, made in cuneiform on clay, have served as a source of inspiration for books of such importance as Genesis and Exodus in the Bible... although over time, the true knowledge has been mutated or mutilated for ideological or religious reasons. Over many years of research, Cediel has been able to verify that the facts are clear and undeniable...it just happens that they are so difficult to believe that science prefers not to accept them, because they do not conform to the historical paradigm. Finally, after years of research, and motivated by a shamanic experience, he has decided to committed his ideas to print: The Verne Code is the result. The Verne Code speaks of penicillin before Fleming, air travel before the first modern plane, of ancient maps of great precision charting places only discovered in the 20th century, of the human genome before Craig Venter, of cloning before Dolly the sheep, of nuclear explosions before Hiroshima and Nagasaki, about the quest for immortality before Geron Corporation; a treasure trove of ancient secrets waiting to be discovered. In The Verne Code, Cediel shows evidence of the extraterrestrial origin of humankind, and argues that the writings of the most ancient civilizations are reliable sources of evidence to allow us to draw objective conclusions. The Verne Code is an exciting journey from the knowledge that existed in the most remote antiquity, to the frontiers of current scientific knowledge. The result is an anthropogenesis, a cosmogenesis, a theory of aging and a breakthrough theory on Atlantis. Cediel also explains the importance of the Sun and anticipates the intellectual and spiritual paradigm that will rule in the next astrological age of Aquarius-Leo. Cediel denounces the state of hypnotic sleep in which mankind finds itself. He affirms the need for humanity to wake up from its dreams so you can be truly free, and master of your destiny. The author claims that we today are witness to a huge manipulation of history, just at the time in history when there is apparently the greatest freedom for the individual. Everything you know is wrong. "People must believe that they are free and not manipulated in order to be able to handle them efficiently." This is the motto of those whose objective is to reduce the vibration of the human race. Only those who realize this will be in a position to stop being manipulated, as only those who realize that they are asleep can wake up. A psycho-neural code has been implanted in our brains so that we believe we are free; we believe we belong to the tribe, the philosophical system, or the movement that will allow us to be free once and for all...but the reality is very different: the intelligence that is fed and powered by the dream of humans has infiltrated the forums and places where humans go to stop being manipulated...evil...yes...but true.....WELCOME TO THE UNIVERSE MATRIX."

A molecular biologist turned Buddhist monk, described by scientists as "the happiest man alive," demonstrates how to develop the inner conditions for true happiness.

A chilling political thriller set at the end of Peru's grim war between Shining Path terrorists and a morally bankrupt government counterinsurgency. Associate District Prosecutor Felix Chacaltana Saldivar is a by-the-book prosecutor wading through life. Two of his greatest pleasures are writing mundane reports and speaking to his long-dead mother. Everything changes, however, when he is asked to investigate a bizarre and brutal murder: the body was found burnt beyond recognition and a cross branded into its forehead. Adhering to standard operating procedures, Chacaltana begins a meticulous investigation, but when everyone he speaks to meets with an unfortunate and untimely end, he realizes that his quarry may be much closer to home. With action rising in chorus to Peru ' s Holy Week, Red April twists and turns racing toward a riveting conclusion.

Child and Adolescent Psychiatry has been widely acclaimed since the publication of its first edition in 1997 (originally titled Child Psychiatry). Each chapter has been designed to present the key facts, concepts and emerging facets of the area, drawing on clinical experience as well as the latest research findings. These guiding principles are followed in the third edition, which has been updated to reflect the varied advances in research and clinical practice that inform the subject. Child and Adolescent Psychiatry is structured into four main parts: first, an introductory section on assessment, classification and epidemiology; second, a section covering each of the main specific disorders and presentations; third, a section on the major risk factors predisposing to child psychiatric disorders; and fourth, a section on the main methods of treatment, covering also prevention, service organization and interpersonal and family therapies as well as fostering and adoption. Spans child and adolescent psychiatry Includes many practical tips on successful assessment and treatment techniques Comprehensive coverage of topics, written in an accessible style by international experts in the field Up to date information on prevention issues Written in an accessible style, the book will be of benefit to all those working with children and adolescents with mental health problems: as an invaluable resource for trainee psychiatrists, paediatricians and general practitioners; as a textbook for undergraduate students in medicine, nursing and related fields; and as a refresher for active clinicians. Supported by a companion website featuring over 200 multiple choice questions and answers to assist those preparing for examinations, including MRCPsych.

This book presents a comparative analysis of the organizing trajectories of indigenous women's movements in Peru, Mexico, and Bolivia. The authors' innovative research reveals how the articulation of gender and ethnicity is central to

shape indigenous women's discourses. It explores the political contexts and internal dynamics of indigenous movements, to show that they created different opportunities for women to organize and voice specific demands. This, in turn, led to various forms of organizational autonomy for women involved in indigenous movements. The trajectories vary from the creation of autonomous spaces within mixed-gender organizations to the creation of independent organizations. Another pattern is that of women's organizations maintaining an affiliation to a male-dominated mixed-gender organization, or what the authors call "gender parallelism". This book illustrates how, in the last two decades, indigenous women have challenged various forms of exclusion through different strategies, transforming indigenous movements' organizations and collective identities.

We are children of the stars. This is our legacy and our heritage. In the history of the cosmos, Earth is a young planet. Our souls, on the other hand, have been around forever and will continue to be around forever. Thus Earth is not our only home. We have lived many lives in unusual environments before deciding to journey here and learn the lessons of Earth. After our schooling is completed on this planet, we will journey onward to discover new worlds to explore. The memories of these soul journeys are recorded in our subconscious, and in Legacy from the Stars hypnotherapist Dolores Cannon shows that they can be retrieved through regressive hypnosis. She reports dramatic cases where the subjects relived other lifetimes in strange environments -- inhabitants of other planets. After reading her latest book, you may agree that "we are all extraterrestrials," and Earth is merely a stop-over in our long adventure.

In a book that marks the author's 20th year of uncovering suppressed information, he takes the manipulation of the human race and the nature of reality to new levels of understanding and calls for humanity to rise from its knees and take back the world from the sinister network of families and non-human entities that covertly control us from cradle to grave. Original.

What makes a narcissist go from self-involved to terrifying? In this national bestseller, Joe Navarro, a leading FBI profiler, unlocks the secrets to the personality disorders that put us all at risk. "I should have known." "How could we have missed the warning signs?" "I always thought there was something off about him." When we wake up to new tragedies in the news every day—shootings, rampages, acts of domestic terrorism—we often blame ourselves for missing the mania lurking inside unsuspecting individuals. But how could we have known that the charismatic leader had the characteristics of a tyrant? And how can ordinary people identify threats from those who are poised to devastate their lives on a daily basis—the crazy coworkers, out-of-control family members, or relentless neighbors? In Dangerous Personalities, former FBI profiler Joe Navarro has the answers. He shows us how to identify the four most common "dangerous personalities"—the Narcissist, the Predator, the Paranoid, and the Unstable Personality— and how to analyze the potential threat level. Along the way, he provides essential tips and tricks to protect ourselves both immediately and in the long-term, as well as how to heal the trauma of being exposed to the destructive egos in our world.

Bill Cooper, former United States Naval Intelligence Briefing Team member, reveals information that remains hidden from the public eye. This information has been kept in Top Secret government files since the 1940s. His audiences hear the truth unfold as he writes about the assassination of John F. Kennedy, the war on drugs, the Secret Government and UFOs. Bill is a lucid, rational and powerful speaker who intent is to inform and to empower his audience. Standing room only is normal. His presentation and information transcend partisan affiliations as he clearly addresses issues in a way that has a striking impact on listeners of all backgrounds and interests. He has spoken to many groups throughout the United States and has appeared regularly on many radio talk shows and on television. In 1988 Bill decided to "talk" due to events then taking place worldwide, events which he had seen plans for back in the early '70s. Since Bill has been "talking," he has correctly predicted the lowering of the Iron Curtain, the fall of the Berlin Wall and the invasion of Panama. All Bill's predictions were on record well before the events occurred. Bill is not a psychic. His information comes from Top Secret documents that he read while with the Intelligence Briefing Team and from over 17 years of thorough research. "Bill Cooper is the world's leading expert on UFOs." -- Billy Goodman, KVEG, Las Vegas. "The onlt man in America who has all the pieces to the puzzle that has troubled so many for so long." -- Anthony Hilder, Radio Free America "William Cooper may be one of America's greatest heros, and this story may be the biggest story in the history of the world." -- Mills Crenshaw, KTALK, Salt Lake City. "Like it or not, everything is changing. The result will be the most wonderful experience in the history of man or the most horrible enslavement that you can imagine. Be active or abdicate, the future is in your hands." -- William Cooper, October 24, 1989.

When the youngest of the Morgan children, Annie, turned eight she didn't know the fate that would await her. As they enter the forest, she and her brother, Bill, will experience unspeakable terror. Only her ties will be able to save them... because she has waited for them for a long time, in a forest flooded by her everlasting evil... THE WITCH...

If you buy into the Pepé Le Pew stereotype of the French – arrogant, stuffy, overly amorous, and rather odiferous (Pepé Le Pew was a skunk. Talk about stereotypical!) – then think again. Not only are the French people some of the most relaxed, pleasant people you'll ever meet, but their society is one of the oldest, most culturally rich societies in the world. So it's no surprise that French is known as perhaps the most beautiful of all languages. Listen to someone speak French – sure, you don't have a clue what she's saying, but aren't you enraptured by the sound of it? Unfortunately, just because a language is beautiful doesn't mean that it's easy to learn. Although French has many things in common with English, French has had many, many centuries to evolve into the language it is today, which means it's had all that time to become more complex. That's where French For Dummies can help. Written in partnership with the language experts at Berlitz, this book can give you what you need for basic communication in French. French For Dummies covers the following topics and more: Basic pronunciation and gestures The nuts and bolts of French grammar Meeting and greeting in French Situations in which you can use French: Making small talk, dining out, shopping, and talking on the phone Traveling to France: Dealing with French currency, staying at a hotel, and getting around town Top Ten lists on ways to pick up French quickly, things you should never say in French, favorite French expressions, and important French holidays to remember. Appendixes with verb conjugation tables, as well as a French mini-dictionary French For Dummies also comes with a CD that has audio transcriptions of all the exercises in the book, so that you can actually hear the French pronunciations. So whether you're taking a business trip and need to pick up a little French quickly; you're cramming for your high school French final; or you've always wanted to learn a new language but don't have the time to drag yourself to a class once a week, French For Dummies can get you well on your way to becoming fluent in no time.

In this damning indictment of legalized gambling, Goodman documents how this business, which generates more than \$40 billion dollars a year in revenues, is also the cause of myriad economic and social problems for the very communities that have looked to it as a panacea.

Since 1947, the mysterious crash of an unidentified aircraft at Roswell, New Mexico, has fueled a firestorm of speculation and controversy with no conclusive evidence of its extraterrestrial origin -- until now. Colonel Philip J. Corso (Ret.), a member of President Eisenhower's National Security Council and former head of the Foreign Technology Desk at the U.S. Army's Research & Development department, has come forward to tell the whole explosive story. Backed by documents newly declassified through the Freedom of Information Act, Colonel Corso reveals for the first time his personal stewardship of alien artifacts from the crash, and discloses the U.S. government's astonishing role in the Roswell incident: what was found, the cover-up, and how these alien artifacts changed the course of 20th century history.
