The cult-y pocket-size field guide to the strange and intriguing secrets of the Mojave—its myths and legends, outcasts and oddballs, flora, fauna, and UFOs—becomes the definitive, oracular book of the desert. For the past five years, *Desert Oracle* has existed as a quasi-mythical, quarterly periodical available to the very determined only by subscription or at the odd desert-town gas station or the occasional hipster boutique, its canary-yellow-covered, forty-four-page issues handed from one curious desert zealot to the next, word spreading faster than the printers could keep up with. It became a radio show, a podcast, a live performance. Now, for the first time—and including both classic and new, never-before-seen revelations—*Desert Oracle* has been bound between two hard covers and is available to you. Straight out of Joshua Tree, California, *Desert Oracle* is “The Voice of the Desert”: a field guide to the strange tales, singing sand dunes, sagebrush trails, artists and aliens, authors and oddballs, ghost towns and modern legends, musicians and mystics, scorpions and saguaros, out there in the sand. *Desert Oracle* is your companion at a roadside diner, around a campfire, in your tent or cabin (or high-rise apartment or suburban living room) as the wind and the coyotes howl outside at night. From journal entries of long-deceased adventurers to stray railroad ad copy, and musings on everything from desert flora, rumored cryptid sightings, and other paranormal phenomena, Ken Layne's *Desert Oracle* collects the weird and the wonderful of the American Southwest into a single, essential volume.

Americans now spend over \$300 billion each year in legal gambling, and the gambling industry has become a major contributor to tax revenues. In the past 30 years, nearly all states have permitted some form of gambling, and 126 Native American tribes now operate reservation casinos. Yet, even as legalized gambling has grown by leaps and bounds, public opinion has turned against it, and political opposition has mobilized. Some critics of gambling want to return to the situation before World War I, when virtually all gambling was illegal in every state, while others want to regulate the industry to channel the popular appetite for gambling into its arguably less undesirable forms. Legalized Gambling: For and Against captures all the main arguments on both sides in this increasingly heated controversy, with 23 carefully-selected contributions by a balanced range of writers.

There isn't a person who had anything to do with the gaming industry in Las Vegas—or the world for that matter—that doesn't recognize the company name of Paul-Son Dice. But how many know the name of the man behind Paul-Son, Paul S. Endy Jr.? He was known by many names, including Mr. Paulson, the old man, a mover and a shaker, a bull in a china shop, and Mr. Endy. But to me he was known as my father, and I would like to share the story of his life and the legacy to the gaming industry he left behind. Dear Eric, I went to work at the El Cortez in 1965. By 1967, I became the Casino Manager and started doing business with your dad. I became his oldest and largest customer. Over the years, through several more hotels, I gave Paul-Son Dice and Cards over 90% of my business --- gaming tables, dice, chips, etc. Your father was a true pioneer in the gaming supply business. He, myself and my father, Jackie Gaughan, are all in the Gambling Hall of Fame. Your brother, Tom, and I were close friends and my son, John, worked one summer for your company. Eric, best of luck on this endeavor. I am sure if your father were still alive today, he would be proud of you. Michael Gaughan South Point Hotel Dear Eric, As a Las Vegas resident since 1964 and Mayor for 12 years, I had the pleasure of knowing your father Paul Endy Jr. both personally and professionally. I remember having breakfast with him and the other "movers and shakers" at Papa Gars which was right around the corner and across the railroad tracks from Paul-Son Dice and Card Company. Your dad reminded me of a "Bull in a China Shop" and was able to get things done today, not yesterday and sealed with a handshake. I consider him as a gaming legend and one of the "good old boys" whose fundraising efforts for both UNLV baseball and Westcare were commendable. Thank You for continuing his gaming legacy. Mayor Oscar Goodman Mayor of Las Vegas from 1999-2011 Eric, Your Dad was a real Casino Gaming Legend and a great human being! I remember when your father was inducted into the gaming Hall of Fame in 1996, an honor very well deserved. I will always cherish the time your Dad and I spent together and the commitment we both had to fundraising for charitable causes. I am so proud that you are continuing his legacy by writing his biography. Wayne Newton Mr. Las Vegas

The genie allowed each person to bring one thing. The first friend brought a canteen so he wouldn't die of thirst. The second friend brought an umbrella to keep the sun off. The instructions on the can said: "Put on two coats." *** Why do Entertainers laugh three times when they hear a joke? Once when it is told, once when it is explained to them, and once when they understand it.

This detailed ethnographic study explores the intercultural crafting of contemporary forms of Aboriginal manhood in the world of country, rock and reggae music making in Central Australia. Focusing on four different musical contexts - an Aboriginal recording studio, remote Aboriginal settlements, small non-indigenous towns, and tours beyond the musicians' homeland - the author challenges existing scholarly, political and popular understandings of Australian Aboriginal music, men, and related indigenous matters in terms of radical social, cultural and racial difference. Based on extensive anthropological field research among Aboriginal rock, country and reggae musicians in small towns and remote desert settlements in Central Australia, the book investigates how Aboriginal musicians experience and articulate various aspects of their male and indigenous sense of selves as they make music and engage with indigenous and non-indigenous people, practices, places, and sets of values. Making Aboriginal Men and Music is a highly original, intimate study which advances our understanding of contemporary indigenous and male identity formation within Aboriginal Australian society. Providing new analytical insights for scholars and students in fields such as social and cultural anthropology, cultural studies, popular music, and gender studies, this engaging text makes a significant contribution to the study of indigenous identity formation in remote Australia and beyond.

The project referred to as Alice in Rocky Horrorland: Entertainment's Pursuit of the Transhuman Desert Apocalypse is a compilation of various research efforts to expose the entertainment industry's attempt to implant certain messages and themes into humanity's subconscious via pop culture. Many of us have participated in these events; whether it was enjoying the tale of Alice in Wonderland and her occult initiation into the underground or the sexualization of the androgynous aliens of Rocky Horror Picture Show and their dance across the Abyss (you didn't think the Time Warp song was just in good humor did you'...); you're sure to change the way you view these works of art after considering the evidence that lies within. The Illuminati end game is total annihilation and this New World Order will be established through their evolution of consciousness which craftily guides the unaware through New Age agendas found within Paulo Coelho's best selling tale: The Alchemist. The ultimate apocalypse will be the final

push of man into the digital substrate known as transhumanism, where the final Mark of the Beast will be imprinted on all those who aren't awake to the agenda...

Live better on less and have more fun doing it! This book offers hardcore, real-world, practical advice on how anyone can survive in a precarious economy. Learn useful tips and creative strategies, from a hardworking musician who, like most professional musicians, knows, from hard-won experience, how to not only keep the annoying wolf from the door, but how to give him a painful wedgie, so he'll finally give up and leave you the f*&k alone. Two reasons you should take seriously what this book has to say: 1. Musicians are experts at living on next-to-nothing. Musicians, notoriously unemployed and underpaid, have always had to get by on less, so we're well versed in the tricks and strategies of bare-bones, economic survival. But, of course, sheer survival is not nearly enough. 2. Musicians know how to live fun, fulfilling and productive lives without following all the mind-numbing, conventional '9 to 5' rules of mainstream society! Musicians don't like to admit it out loud, but the truth is... we sleep late, we have more (and better) sex and we have way more fun at our jobs than most folks. Lawyers practice, accountants calculate, plumbers plumb, but musicians... well, when we go to work... we play! You can hold your breath and wait for the global economy to improve... or you can read this book!
