

Desktop Handicapping For Thoroughbred Racing

Known as the "Sport of Kings," thoroughbred racing has been handicapped by experts for decades. Now, in "Desktop Handicapping for Thoroughbred Racing," author Howard Berenbon tells you how to use your computer to bet smart --right from your desktop. "Desktop Handicapping for Thoroughbred Racing" begins with a discussion of such handicapping essentials as understanding the racing form; selecting and analyzing pertinent data; evaluating the horses, owners, and trainers; and, of course, placing the bets. In addition to clear charts and photographs, this guide offers links to online databases and other valuable resources. Finally, the author provides detailed instructions on how to download and master his free innovative software program, which works with the book to revolutionize the art of handicapping. "Desktop Handicapping for Thoroughbred Racing" will transform your betting strategies, giving you the winning edge in the Sport of Kings!

An Advanced Approach to Thoroughbred Handicapping and Betting
The Winning Horseplayer

An Advanced Treatment of Pace Analysis

There are a huge number of variables that can affect the outcome of a horse race. The serious handicapper has to deal with them one way or another. The objective of this book is not to develop a handicapping "system," but to offer a number of tools that can relieve you from tedious manual calculations or check lists. It does this by describing and explaining a set of more than 25 different spreadsheets and PC programs. These range from simple odds/probabilities calculations to creating a personal odds line, to analyzing exactas, to correlation and regression analysis. What's more, all of these are available as free downloads from the internet.
