*The revised edition of The Gay and Lesbian Literary Heritage is a reader's companion to this impressive body of work. It provides overviews of gay and lesbian presence in a variety of literatures and historical periods; in-depth critical essays on major gay and lesbian authors in world literature; and briefer treatments of other topics and figures important in appreciating the rich and varied gay and lesbian literary traditions. Included are nearly 400 alphabetically arranged articles by more than 175 scholars from around the world. New articles in this volume feature authors such as Michael Cunningham, Tony Kushner, Anne Lister, Kate Millet, Jan Morris, Terrence McNally, and Sarah Waters; essays on topics such as Comedy of Manners and Autobiography; and overviews of Danish, Norwegian, Philippines, and Swedish literatures; as well as updated and revised articles and bibliographies.*

*Mentally retarded Charlie Gordon participates in an experiment which turns him into a genius but only temporarily.*

*Noel Carroll, film scholar and philosopher, offers the first serious look at the aesthetics of horror. In this book he discusses the nature and narrative structures of the genre, dealing with horror as a "transmedia" phenomenon. A fan and serious student of the horror genre, Carroll brings to bear his comprehensive knowledge of obscure and forgotten works, as well as of the horror masterpieces. Working from a philosophical perspective, he tries to account for how people can find pleasure in having their wits scared out of them. What, after all, are those "paradoxes of the heart" that make us want to be horrified?*

*In this unprecedented collection of science fiction and fantasy quotations, the reader revisits the stunning moment when Mary Shelley's Frankenstein monster first comes to life; witnesses the transformation of Robert Louis Stevenson's Dr. Jekyll into Mr. Hyde; is present when Bruce Wayne resolves to become Batman; and overhears the cosmic conclusions of The Incredible Shrinking Man. Drawing upon two centuries of the vast and provocative literature of science fiction and fantasy, this comprehensive book presents more than 2,900 quotations from wide-ranging sources, including science fiction and fantasy stories, novels, films, and television programs. The quotations are organized by topic—alien worlds; darkness and light; robots, androids, and cyborgs; machines and technology; weapons; and more than one hundred others. The reader will encounter the wit and wisdom of renowned authors (H. G. Wells, Ray Bradbury, J. R. R. Tolkien, Ursula K. Le Guin) along with definitive versions of such important statements as Isaac Asimov's Three Laws of Robotics and Star Trek's Prime Directive. With its thorough index, this book is both an invaluable resource for the writer or scholar and an irresistible page-turner for the curious browser.*

**Blake's Critique of Transcendence is the first full-length book to examine in any detail or consistency the relation between Blake's**

text and the visual designs in *The Four Zoas*, one of the most important works in Blake's oeuvre. It uncovers a Blake deeply engaged with the cultural discourses of his time, in profound dialogue with Swedenborg, Locke, and Young. In the course of this conversation, Blake anatomizes a remarkable variety of cultural practices (including religion, science, and art) designed to achieve transcendence. He focuses in particular on the fate of the body in cultures of transcendence, developing perhaps the first theory of sexual sublimation. Blake's radical visual and verbal strategies in this poem are part of an attempt to defer the movement of transcendence, long enough for the reader to see the warring elements of the fallen world as the dismembered body of humanity. Three boys struggle to come to terms with the death of a friend in a drunk-driving auto accident in which all four were involved, in a story told through newspaper stories, diary entries, school announcements, telephone conversations, and classroom assignments. An inspirational biography of Laura Bridgman, who, after losing her hearing, sight, and sense of smell at a young age, paved the way for future generations of children with disabilities, traces her remarkable life and her dedication to helping others.

**NATIONAL BESTSELLER** • In 1967, after a session with a psychiatrist she'd never seen before, eighteen-year-old Susanna Kaysen was put in a taxi and sent to McLean Hospital. Her memoir of the next two years is a "poignant, honest ... triumphantly funny ... and heartbreaking story" (*The New York Times Book Review*). The ward for teenage girls in the McLean psychiatric hospital was as renowned for its famous clientele—Sylvia Plath, Robert Lowell, James Taylor, and Ray Charles—as for its progressive methods of treating those who could afford its sanctuary. Kaysen's memoir encompasses horror and razor-edged perception while providing vivid portraits of her fellow patients and their keepers. It is a brilliant evocation of a "parallel universe" set within the kaleidoscopically shifting landscape of the late sixties. *Girl, Interrupted* is a clear-sighted, unflinching document that gives lasting and specific dimension to our definitions of sane and insane, mental illness and recovery.

*The best classes have a life of their own, powered by student-led conversations that explore texts, ideas, and essential questions. In these classes, the teacher's role shifts from star player to observer and coach as the students ? Think critically, ? Work collaboratively, ? Participate fully, ? Behave ethically, ? Ask and answer high-level questions, ? Support their ideas with evidence, and ? Evaluate and assess their own work. The Spider Web Discussion is a simple technique that puts this kind of class within every teacher's reach. The name comes from the weblike diagram the observer makes to record interactions as students actively participate in the discussion, lead and support one another's learning, and build community. It's proven to work across all subject areas and with all ages, and you only need a little know-how, a rubric, and paper and pencil to get started. As students practice Spider Web Discussion, they become stronger communicators, more empathetic teammates, better problem solvers, and more independent learners—college and career ready skills that serve them well in the classroom and beyond. Educator Alexis Wiggins provides a step-by-step guide for the implementation of Spider Web Discussion, covering everything from introducing the*

*technique to creating rubrics for discussion self-assessment to the nuts-and-bolts of charting the conversations and using the data collected for formative assessment. She also shares troubleshooting tips, ideas for assessment and group grading, and the experiences of real teachers and students who use the technique to develop and share content knowledge in a way that's both revolutionary and truly inspiring.*

*From the author of *Exhalation*, an award-winning short story collection that blends "absorbing storytelling with meditations on the universe, being, time and space ... raises questions about the nature of reality and what it is to be human" (The New York Times). *Stories of Your Life and Others* delivers dual delights of the very, very strange and the heartbreakingly familiar, often presenting characters who must confront sudden change—the inevitable rise of automatons or the appearance of aliens—with some sense of normalcy. With sharp intelligence and humor, Chiang examines what it means to be alive in a world marked by uncertainty, but also by beauty and wonder. An award-winning collection from one of today's most lauded writers, *Stories of Your Life and Others* is a contemporary classic. Includes "Story of Your Life"—the basis for the major motion picture *Arrival**

*Mobility, Space, and Resistance: Transformative Spatiality in Literary and Political Discourse* draws from various disciplines—such as geography, sociology, political science, gender studies, and poststructuralist thought—to posit the productive capabilities of literature in political action and at the same time show how literary art can resist the imposition and domination of oppressive systems of our spatial lives. The various approaches, topics, and types of literature discussed in this volume display a concern for social issues that can be addressed in and through literature. The essays address social injustice, oppression, discrimination, and their spatial representations. While offering interpretations of literature, this collection seeks to show how literary spaces contribute to understanding, changing, or challenging physical spaces of our lived world.

*As a spokesman for disaffected youth of the post-1960s, Murakami Haruki has become one of the most important voices in contemporary Japanese literature, and he has gained a following in the United States through translations of his works. In *Dances with Sheep*, Matthew Strecher examines Murakami's fiction—and, to a lesser extent, his nonfiction—for its most prevalent structures and themes. Strecher also delves into the paradoxes in Murakami's writings that confront critics and casual readers alike.*

*Murakami writes of "serious" themes yet expresses them in a relatively uncomplicated style that appeals to high school students as well as scholars; and his fictional work appears to celebrate the pastiche of postmodern expression, yet he rejects the effects of the postmodern on contemporary culture as dangerous. Strecher's methodology is both historical and cultural as he utilizes four distinct yet interwoven approaches to analyze Murakami's major works: the writer's "formulaic" structure with serious themes; his play with magical realism; the intense psychological underpinnings of his literary landscape; and his critique of language and its capacity to represent realities, past and present. *Dances with Sheep* links each of these approaches with Murakami's critical focus on the fate of individual identity in contemporary Japan. The result is that the simplicity of the Murakami hero, marked by lethargy and nostalgia, emerges as emblematic of contemporary humankind, bereft of identity, direction, and meaning. Murakami's fiction is reconstructed in *Dances with Sheep* as a warning against the dehumanizing effects of late-model capitalism, the homogenization of the marketplace, and the elimination of effective counterculture in Japan.*

The struggle of three brothers to stay together after their parent's death and their quest for identity among the conflicting values of their adolescent society.

"A stunningly beautiful new memoir . . . a near-perfect work of literature." —Stephen Elliot, San Francisco Chronicle  
Nick Flynn met his father when he was working as a caseworker in a homeless shelter in Boston. As a teenager he'd received letters from this stranger father, a self-proclaimed poet and con man doing time in federal prison for bank robbery. Another Bullshit Night in Suck City tells the story of the trajectory that led Nick and his father onto the streets, into that shelter, and finally to each other.

In an innovative and invigorating exploration of the complex relations between women and the modern, Rita Felski challenges conventional male-centered theories of modernity. She also calls into question those feminist perspectives that have either demonized the modern as inherently patriarchal, or else assumed a simple opposition between men's and women's experiences of the modern world. Combining cultural history with cultural theory, and focusing on the fin de siecle, Felski examines the gendered meanings of such notions as nostalgia, consumption, feminine writing, the popular sublime, evolution, revolution, and perversion. Her approach is comparative and interdisciplinary, covering a wide variety of texts from the English, French, and German traditions: sociological theory, realist and naturalist novels, decadent literature, political essays and speeches, sexological discourse, and sentimental popular fiction. Male and female writers from Simmel, Zola, Sacher-Masoch, and Rachilde to Marie Corelli, Wilde, and Olive Schreiner come under Felski's scrutiny as she exposes the varied and often contradictory connections between femininity and modernity. Seen through the lens of Felski's discerning eye, the last fin de siecle provides illuminating parallels with our own. And Felski's keen analysis of the matrix of modernism offers needed insight into the sense of cultural crisis brought on by postmodernism.

The psychologist may appear in science fiction as the herald of utopia or dystopia; literary studies have used psychoanalytic theories to interpret science fiction; and psychology has employed science fiction as an educational medium. Science Fiction and Psychology goes beyond

such incidental observations and engagements to offer an in-depth exploration of science fiction literature's varied use of psychological discourses, beginning at the birth of modern psychology in the late nineteenth century and concluding with the ascendancy of neuroscience in the late twentieth century. Rather than dwelling on psychoanalytic readings, this literary investigation combines with history of psychology to offer attentive textual readings that explore five key psychological schools: evolutionary psychology, psychoanalysis, behaviourism, existential-humanism, and cognitivism. The varied functions of psychological discourses in science fiction are explored, whether to popularise and prophesy, to imagine utopia or dystopia, to estrange our everyday reality, to comment on science fiction itself, or to abet (or resist) the spread of psychological wisdom. Science Fiction and Psychology also considers how psychology itself has made use of science fiction in order to teach, to secure legitimacy as a discipline, and to comment on the present.

For more than three decades, preeminent scholars in comparative literature and postcolonial studies have called for a return to philology as the indispensable basis of critical method in the humanities. Against such calls, this book argues that the privilege philology has always enjoyed within the modern humanities silently reinforces a colonial hierarchy. In fact, each of philology's foundational innovations originally served British rule in India. Tracing an unacknowledged history that extends from British Orientalist Sir William Jones to Palestinian American intellectual Edward Said and beyond, *Archaeology of Babel* excavates the epistemic transformation that was engendered on a global scale by the colonial reconstruction of native languages, literatures, and law. In the process, it reveals the extent to which even postcolonial studies and European philosophy—not to mention discourses as disparate as Islamic fundamentalism, Hindu nationalism, and global environmentalism—are the progeny of colonial rule. Going

further, it unearths the alternate concepts of language and literature that were lost along the way and issues its own call for humanists to reckon with the politics of the philological practices to which they now return.

*A magisterial study of the history and theory of one of the most controversial political movements Anarchism routinely gets a bad press. It's usually seen as meaning chaos and disorder -- or even nothing at all. And yet, from Occupy Wall Street to Pussy Riot, Noam Chomsky to David Graeber, this philosophical and political movement is as relevant as ever. Contrary to popular perception, different strands of anarchism -- from individualism to collectivism -- do follow certain structures and a shared sense of purpose: a belief in freedom and working towards collective good without the interference of the state. In this masterful, sympathetic account, political theorist Ruth Kinna traces the tumultuous history of anarchism, starting with thinkers and activists such as Peter Kropotkin and Emma Goldman and through key events like the Paris Commune and the Haymarket affair. Skilfully introducing us to the nuanced theories of anarchist groups from Russia to Japan to the United States, The Government of No One reveals what makes a supposedly chaotic movement particularly adaptable and effective over centuries -- and what we can learn from it.*

*This text guides the reader through the varying approaches to translation studies in the latter half of the 20th century. Chronologically ordered and divided into clear sections, it collects together key essays, articles and book extracts. Decadence and Literature explains how the concept of decadence developed since Roman times into a major cultural trope with broad explanatory power. No longer just a term of opprobrium for mannered art or immoral behaviour, decadence today describes complex cultural and social responses to modernity in all its forms. From the Roman emperor's indulgence in luxurious excess as both personal vice and political control, to the Enlightenment libertine's rational pursuit of hedonism, to the nineteenth-century dandy's simultaneous delight and distaste with modern urban life,*

*decadence has emerged as a way of taking cultural stock of major social changes. These changes include the role of women in forms of artistic expression and social participation formerly reserved for men, as well as the increasing acceptance of LGBTQ+ relationships, a development with a direct relationship to decadence. Today, decadence seems more important than ever to an informed understanding of contemporary anxieties and uncertainties.*

*How did literary aestheticism emerge in Victorian Britain, with its competing models of religious doubt and visions of secularisation? For Lyons, the aestheticism developed and progressively revised by Algernon Charles Swinburne (1837-1909) and Walter Pater (1839-1894) illuminates the contradictory impulses of modern secularism: on the one hand, a desire to cast itself as a form of neutrality or disinterestedness; on the other, a desire to affirm 'this world' as the place of human flourishing or even enchantment. The standard narrative of a 'crisis of faith' does not do justice to the fissured, uncertain quality of Victorian visions of secularisation. Precisely because it had the status of a confusing hypothesis rather than a self-evident reality, it provoked not only dread and melancholia, but also forms of fantasy. Within this context Lyons gives a fundamentally new account of the aims and nature of Victorian aestheticism, taking as a focus its deceptively simple claim that art is for art's sake first of all.*

“Rich with historical detail . . . examines the figure and theme of the death penalty in imaginative literature from Cooper to Dreiser.” —Gregg Crane, Professor of English Language and Literature, University of Michigan Drawing from legal and extralegal discourse but focusing on imaginative literature, *Literary Executions* examines representations of, responses to, and arguments for and against the death

penalty in the United States over the long nineteenth century. John Cyril Barton creates a generative dialogue between artistic relics and legal history. He looks to novels, short stories, poems, and creative nonfiction as well as legislative reports, trial transcripts, legal documents, newspaper and journal articles, treatises, and popular books (like *The Record of Crimes*, *A Defence of Capital Punishment*, and *The Gallows, the Prison, and the Poor House*), all of which were part of the debate over the death penalty. Barton focuses on several canonical figures—James Fenimore Cooper, Nathaniel Hawthorne, Lydia Maria Child, Walt Whitman, Herman Melville, and Theodore Dreiser—and offers new readings of their work in light of the death penalty controversy. Barton also gives close attention to a host of then-popular-but-now-forgotten writers—particularly John Neal, Slidell MacKenzie, William Gilmore Simms, Sylvester Judd, and George Lippard—whose work helped shape or was shaped by the influential anti-gallows movement. By engaging the politics and poetics of capital punishment, *Literary Executions* contends that the movement to abolish the death penalty in the United States should be seen as an important part of the context that brought about the flowering of the American Renaissance during the antebellum period and that influenced literature later in the nineteenth and early twentieth centuries

“A witty, learned, authoritative survey of philosophical thought.” —The New York Times Book Review The first authoritative and accessible single-volume history of philosophy to cover both Western and Eastern traditions, from one of the world's most eminent thinkers The story of philosophy is an epic tale, spanning civilizations and continents. It explores some of the most creative minds in history. But not since the long-popular classic by Bertrand Russell, *A History of Western Philosophy*, published in 1945, has there been a comprehensive and entertaining single-volume history of this great, intellectual, world-shaping journey. With characteristic clarity and elegance, A. C. Grayling takes the reader from the age of the Buddha, Confucius, and Socrates through Christianity's capture of the European mind, from the

Renaissance and Enlightenment on to Mill, Nietzsche, Sartre and, finally, philosophy today. Surveying in tandem the great philosophical traditions of India, China, and the Persian-Arabic world, and astonishing in its range and accessibility, Grayling's *The History of Philosophy* is destined to be a landmark work.
