Pig Candy is the poignant and often comical story of a grown daughter getting to know her dying father in his last months. A series of visits with her father to the South he'd escaped as a young black man, Lise Funderburg, the mixed-race author of the acclaimed Black, White, Other, comes to understand his rich and difficult background and the conflicting choices he has had throughout his life. Lise Funderburg is a child of the '60s, a white-looking mixed-race girl raised in an integrated Philadelphia neighborhood. As a child, she couldn't imagine what had made her father so strict, demanding, and elusive; about his past she knew only that he had grown up in the Jim Crow South and fled its brutal oppression as a young man. Then, just as she hits her father is diagnosed with advanced and terminal cancer -- an event that leads father and daughter together on a stream of people to his hometown in rural Jasper County, Georgia. As her father's escort, proxy, and, finally, nurse, Funderburg encounters for the first time the fragrant landscape and fraught society -- and the extraordinary food -- of his childhood. In succulent, evocative, and sometimes tart prose, the author brings to life a fading rural South of pecan groves, family-run farms, and pork-laden country. She chronicles small-town relationships that span generations, the dismantling of her own assumptions about when race doesn't matter, and the quiet segregation that persists to this day. As Funderburg discovers the place and people her father came from, she also, finally, gets to know her magnetic, idiosyncratic father himself. Her account of their thorny but increasingly close relationship is full of warmth, humor, and disarming candor. In one of his last grand acts Funderburg's father recruits his childhood neighbors, and friends to throw a pig roast -- an unforgettable meal that caps an unforgettable portrait of a man enjoying his loved ones right up through his final days. Pig Candy takes readers on a stunning journey that becomes a universal investigation of identity and a celebration of the human will, familial love, and, ultimately, life itself.

Explores Jung's psychological concepts regarding the nature, function and importance of man's symbols as they appear on both the conscious and subconscious level

A razor - sharp evisceration of celebrity culture and literary fame, How I Became a Famous Novelist is a satirical novel masquerading as a tell - all memoir. Sick of life as he knows it, Pete Tarshaw sets out to write a bestselling novel, armed with a formula for success cobbled together from previous bestsellers: he abandons truth, relies heavily on lyrical prose, creates a club with a mysterious name that includes a murder and invokes "confusing sadness" at the end. Once the sales rankings for his novel The Tornado Ashes Club reach their meteoric rise - thanks to a Christian evangelist, a recovering teen starlet and Law and Order: Criminal Intent - Tarshaw's inevitable decline looms, and his fall from grace will be nothing short of spectacular. How I Became a Famous Novelist is the tale of how Pete Tarshaw's "pile of garbage" became the most talked about, read, admired and reviled novel in America. It will change everything you think you know - about literature, appearance, truth, beauty, and those people out there who still care about Form, Space, and Order

What happens when media and politics become forms of entertainment? As our world begins to look more and more like Orwell's 1984, Neil Postman's essential guide to the modern media is more relevant than ever. "It's unlikely that Trump has ever read Amusing Ourselves to Death, but his ascent would not have surprised Postman." -CNN Originally published in 1985, Neil Postman's groundbreaking polemic about the corrosive effects of television on our politics and public discourse has been hailed as a twenty-first-century book published in the twentieth century. Now, with television joined by more sophisticated electronic media—from the Internet to cell phones to DVDs—it has taken on even greater significance. Amusing Ourselves to Death is a prophetic look at what happens when politics, journalism, education, and even religion become subject to the demands of entertainment. It is also a blueprint for regaining control of our media, so that they can serve our highest goals. "A brilliant, powerful, and important book. This is an indictment that Postman has laid down and, so far as I can see, an irrefutable one."

During the Cold War, freedom of expression was vaunted as liberal democracy’s most cherished possession—but such freedom was put in service of a hidden agenda. In *The Cultural Cold War*, Frances Stonor Saunders reveals the extraordinary efforts of a secret campaign in which some of the most vocal exponents of intellectual freedom in the West were working for or subsidized by the CIA—whether they knew it or not. Called “the most comprehensive account yet of the [CIA’s] activities between 1947 and 1967” by the *New York Times*, the book presents shocking evidence of the CIA’s undercover program of cultural interventions in Western Europe and at home, drawing together declassified documents and exclusive interviews to expose the CIA’s astonishing campaign to deploy the likes of Hannah Arendt, Isaiah Berlin, Leonard Bernstein, Robert Lowell, George Orwell, and Jackson Pollock as weapons in the Cold War. Translated into ten languages, this classic work—now with a new preface by the author—is “a real contribution to popular understanding of the postwar period” (*The Wall Street Journal*), and its story of covert cultural efforts to win hearts and minds continues to be relevant today.

A complete collection of annotated lyrics by the prolific rock band, published to coincide with their fiftieth anniversary, features literary, historical, and cultural references for every original song.

The non-jazz improvisation series is a concept that germinated in Dick Weissman's mind while he was attending music school. He wrote a 15-piece arrangement of the old square dance tune, Cripple Creek, and wanted the trombone to take a solo as part of the arrangement. When the trombonist kept playing a bebop solo that was totally unsuitable for the chart, Dick realized that - in addition to the many musicians who do not improvise - there are even jazz musicians who don't know how to improvise outside the limits of their own stylistic backgrounds. The non-jazz improvisation series mostly includes new original tunes that are intended to show how to improvise in many musical styles, including; BluesCountryAmerican folkLatin-AmericanWorld music including South American, Eastern European and AsianOdd meters (playing in a variety of time signatures)New AgeClassicalFolk-RockIn short, the books are an encyclopedia of virtually every musical style, excluding jazz.

Written over the course of three days and three nights, The Subterraneans was generated out of the same kind of ecstatic flash of inspiration that produced another one of Kerouac's early classics, On The Road. Centering around the tempestuous breakup of Leo Percepied and Mardou Fox—two denizens of the 1950s San Francisco underground—The Subterraneans is a tale of dark alleys and smoky rooms, of artists, visionaries, and adventurers existing outside mainstream America's field of vision.

A self-training manual as well as a classroom text, this book is a complete step-by-step course to develop the musician's ability to hear and notate any style of music. Personal training, theory and exercises produce techniques which are combined in an integrated craft which may be applied to composition, orchestration, arranging, improvisation and performance. A kind of finishing school for those who wish to pursue a career in composing, orchestrating, arranging or performing. -- The Score, Society of Composers and Lyricists A myriad of practical information. Comprehensive ear training, important because aural skills are among the most overlooked in music education. -- Survey of New Teaching Materials, Jazz Educators journal A synthesis of the author's vast knowledge and his quest to define the question, "How do we hear?" -- ITG Journal A wonderfully systematic approach to ear training . . . neatly designed and structured, it just flows. Direct and easily understood. -- New books, Jazz Educators Journal Bernard Brandt says: "Hearing and Writing Music", by Ron Gorow, is a superb book. It makes a simple and elegant presentation of the internal process by which we hear sounds and music, how we recognize intervals, chords, melody, harmony, counterpoint, and the timbre of instrumentation/ orchestration, how we can develop the skills of listening, auditory memory and imagination, and how to use these skills to hear and to write down music of any sort. The hallmark of an expert is the ability to explain the basics of his field as simply as possible. By that standard, Mr. Gorow has proven his expertise in this book. I note that the other reviews, both for Amazon and in musical journals, tend to limit the importance of "Hearing and Writing Music" to ear training. I believe that Mr. Gorow's book is valuable for much more than ear training. I have studied it, and as a result of that study, I believe that my auditory memory and imagination and my abilities in score reading have improved enormously. Further, I have been able to use the skills in this book to transcribe melodies, harmonies and counterpoint almost effortlessly, both those that I have heard, and those which existed only in my imagination. This book has opened many doors for me. I believe that it can do so for many others.
