Written by Pauli Murray the legendary civil rights activist and one of the founders of NOW, Proud Shoes chronicles the lives of Murray's maternal grandparents. From the birth of her grandmother, Cornelia Smith, daughter of a slave whose beauty incited the master's sons to near murder to the story of her grandfather Robert Fitzgerald, whose free black father married a white woman in 1840, Proud Shoes offers a revealing glimpse of our nation's history.

These essays include writings from Cornel West, Michael Omi, Audre Lorde, Gloria Anzaldua and Michelle Fine. The essays address the multiplicity and scope of oppressions ranging from ableism to racism and other less-well known social aberrations.

robs the millions who suffered in bondage of their full legacy. As historian Edward E. Baptist reveals in *The Half Has Never Been Told*, the expansion of slavery in the first eight decades after American independence drove the evolution and modernization of the United States. In the span of a single lifetime, the South grew from a narrow coastal strip of worn-out tobacco plantations to a continental cotton empire, and the United States grew into a modern, industrial, and capitalist economy. Told through intimate slave narratives, plantation records, newspapers, and the words of politicians, entrepreneurs, and escaped slaves, *The Half Has Never Been Told* offers a radical new interpretation of American history.

American historians have long been fascinated by the "peopling" of North America in the seventeenth century. Who were the immigrants, and how and why did they make their way across the ocean? Most of the attention, however, has been devoted to British immigrants who came as free people or as indentured servants (primarily to New England and the Chesapeake) and to Africans who were forced to come as slaves. Trade in Strangers focuses on the eighteenth century, when new immigrants began to

flood the colonies at an unprecedented rate. Most of these immigrants were German and Irish, and they were coming primarily to the middle colonies via an increasingly sophisticated form of transport.

Wokeck shows how first the German system of immigration, and then the Irish system, evolved from earlier, haphazard forms into modern mass transoceanic migration. At the center of this development were merchants on both sides of the Atlantic who organized a business that enabled them to make profitable use of underutilized cargo space on ships bound from Europe to the British North American colonies. This trade offered German

and Irish immigrants transatlantic passage on terms that allowed even people of little and modest means to pursue opportunities that beckoned in the New World. Trade in Strangers fills an important gap in our knowledge of America's immigration history. The eighteenth-century changes established a model for the better-known mass migrations of the nineteenth and twentieth centuries, which drew wave after wave of Europeans to the New World in the hope of making a better life than the one they left behind—a story that is familiar to most modern Americans.

The target of intense critical comment when it was first published in 1927, Arrogant Beggar's scathing attack on charity-run boardinghouses remains one of Anzia Yezierska's most devastating works of social criticism. The novel follows the fortunes of its young Jewish narrator, Adele Lindner, as she leaves the impoverished conditions of New York's Lower East Side and tries to rise in the world. Portraying Adele's experiences at the Hellman Home for Working Girls, the first half of the novel exposes the "sickening farce" of institutionalized charity while portraying the class tensions that divided affluent German American Jews

Those gifts are on abundant display in *The Latin Deli*, an evocative collection of poetry, personal essays, and short fiction in which the dominant subject—the lives of Puerto Ricans in a New Jersey barrio—is drawn from the author's own childhood. Following the directive of Emily Dickinson to "tell all the Truth but tell it slant," Cofer approaches her material from a variety of angles. An acute yearning for a distant homeland is the poignant theme of the title poem, which opens the collection. Cofer's lines introduce us "to a woman of no-age" presiding over a small store whose wares—Bustelo coffee, jamon y queso, "green plantains hanging in stalks like votive offerings"—must satisfy, however imperfectly,

And in poems such as "The Life of an Echo" and "The Purpose of Nuns," Cofer offers eloquent ruminations on the mystery of desire and the conflict between the flesh and the spirit. Cofer's ambitions as a writer are perhaps stated most explicitly in the essay "The Myth of the Latin Woman: I Just Met a Girl Named Maria." Recalling one of her early poems, she notes how

An intersectional history of the shared struggle for African American and Latinx civil rights Spanning more than two hundred years, An African American and Latinx History of the United States is a revolutionary, politically charged narrative history, arguing that the "Global South" was crucial to the development of America as we know it. Scholar and activist Paul Ortiz challenges the notion of westward progress as exalted by widely taught formulations like "manifest destiny" and "Jacksonian democracy," and shows how placing African American,

Latinx, and Indigenous voices unapologetically front and center transforms US history into one of the working class organizing against imperialism. Drawing on rich narratives and primary source documents, Ortiz links racial segregation in the Southwest and the rise and violent fall of a powerful tradition of Mexican labor organizing in the twentieth century, to May 1, 2006, known as International Workers' Day, when migrant laborers—Chicana/os, Afrocubanos, and immigrants from every continent on earth—united in resistance on the first “Day Without Immigrants.” As African American civil rights activists fought Jim Crow laws and Mexican labor organizers warred against the suffocating grip of

Ronald Takaki was recognized as one of the foremost scholars of American ethnic history and diversity. When the first edition of A Different Mirror was published in 1993, Publishers Weekly called it "a brilliant revisionist history of America that is likely to become a classic of multicultural studies" and named it one of the ten best books of the year. Now Rebecca Stefoff, who adapted Howard Zinn's best-selling A People's History of the United States for younger readers, turns the updated 2008 edition of

Takaki's multicultural masterwork into A Different Mirror for Young People. Drawing on Takaki's vast array of primary sources, and staying true to his own words whenever possible, A Different Mirror for Young People brings ethnic history alive through the words of people, including teenagers, who recorded their experiences in letters, diaries, and poems. Like Zinn's A People's History, Takaki's A Different Mirror offers a rich and rewarding "people's view" perspective on the American story.
