

Dinosaurium Welcome To The Museum

Welcome to the museum that is always open to explore... Step inside the pages of this beautiful book to discover galleries of dinosaurs, expertly curated to bring you the experience of a fascinating exhibition from the comfort of your own home. Dinosaurium features a wide range of dinosaurs from the most-loved Triceratops and Tyrannosaurus Rex to lesser-known species such as Coelophysis and Tsintaosaurus. With stunning artwork from Chris Wormell (known for the cover of H is for Hawk and his picture books including George and the Dragon) and informative text with input from experts in palaeontology, Dinosaurium is the perfect gift for anyone with an interest in this fascinating field. Welcome to the Museum is a series of beautifully illustrated, stunningly curated, informative books for all ages. From Animalium and Botanicum to Historium and Dinosaurium there is a book for everyone to discover and explore.

Danny wants a new pet but he doesn't want a boring pet. He wants a dinosaur! Luckily, The Wondrous Dinosaurium has just opened in town and its proprietor Mr. Ree is more than happy to help. But it turns out that dinosaurs don't make the most practical of pets! This large-format poster book lets you decorate your walls with images from Chris Wormell's Dinosaurium. Featuring prehistoric life of all kinds, it's a stunning celebration of dinosaurs big and small!

The author shares stories that trace her route to success as an artist, focusing on her upbringing in rural 1970s Vermont where she learned daily lessons in self-reliance and lacked exposure to basic life skills.

Cabana Anthology, drawn from the sought-after, sumptuous biannual Cabana magazine, celebrates the most luxurious personal statements in interior design, lifestyle, architecture, and all related luxuries. Founded in 2014 by Martina Mondadori Sartogo, Cabana Anthology features the very best photography, interviews, profiles, and features from the publication's first five formative years and offers an extraordinary mix of topics, interiors, objects, and visual essays from contributors ranging from Justine Picardie, Patrick Kinmonth, and Christian Louboutin to Lauren Santo Domingo and Gianluca Longo, photographed by the likes of Miguel Flores-Vianna and Tim Beddow. With astonishing production values not seen since the legendary Flair magazine of the 1950s, this new book—which will be a true collector's item—is a must-have for regular subscribers, as well as art and design aficionados who missed out the first time around. Due to the unique cloth binding of this book, covers may vary slightly from the example shown here, and will be shipped to customers at random.

This large-format poster book lets you decorate your walls with images from Katie Scott's Botanicum. Featuring plantlife of all kinds, from right around the world, it's a stunning celebration of all things botanical.

This book was produced in consultation with Dr. Jonathan Tennant.

Paintings and sculptures come to life when a young girl visits the Metropolitan Museum of Art with her classmates. What starts as just another tour of the museum becomes a joyful parade as the art, which must not be touched, touches the young museum-goers in surprising ways. Images of works in New York's Metropolitan Museum of Art are beautifully illustrated as dynamic characters by Luciano Lozano Raya in this wordless picture book. Famous paintings and sculptures from throughout the museum will be recognizable to adults while the mischievous breaking of the fourth wall will delight younger readers.

Animalium

Welcome to the Museum

Explore the World's Most Famous Dinosaur!

Historium

A beautiful colouring book from the creator of the bestselling Animalium.Packed with creatures great and small, from the tiniest polyp to the mighty lion, this beautiful colouring book is perfect for all animal-lovers. Colour in the animals, decorate the frames and learn incredible facts along the way. You can then tear out each page and hang your masterpieces proudly on the wall. From the creators of the bestselling Animalium, this title reveals the intricate line-drawings behind Katie Scott's finished illustrations. Engaging, informative and visually stunning, this fantastic addition to the 'Welcome to the Museum' series is sure to get you feeling creative. So pick up your pencils and discover the world of Animalium.

Following the incredible Anatomicum, this activity book is bursting with fascinating facts and puzzles, perfect for budding artists and science enthusiasts. Activities include amazing mazes, mix-and-match brain-teasers, colouring, drawing and much much more. With pull-out pages, readers can easily tear out their creative masterpieces to proudly display.

Join artist Claude Monet as he chases his cat through his greatest works! Claude Monet's iconic horse was also home to a small white pottery cat. When this cat awakes from its nap and comes to life, it jumps into one of Monet's famous paintings! The cat can't be caught as it frolics and meanders through Monet's greatest works, always just too far out of Monet's reach. Inspired by the actual porcelain cat that was prominently displayed in Monet's studio, this book offers a fun feline perspective and is a great way to teach kids about Monet's art.

From the moment life crawled out of the oceans and onto land, to when our primate ancestors climbed down from the trees, the history of Planet Earth is filled with incredible stories. This beautifully illustrated guide explores some of the most exciting and incredible events in evolution, through 13 case studies. Step back in time and discover a world where whales once walked, crocodiles were warm-blooded, and snakes had legs! Meet terrifying giant birds, and tiny elephants living on islands in this fascinating creature guide like no other. Learn how whales once walked on four legs before taking to the oceans; how dinosaurs evolved into birds; and how the first cats were small and lived in trees. Featuring a stunning mix of annotated illustrations, illustrated scenes, and family trees, evolution is explained here in a captivating and novel style that will make children look at animals in a whole new way.

You're the Hero: Jungle Adventure

Welcome to the Museum: Historium

Play Felt Roarsome Dinosaurs!

'Far, far away in the high, high mountains in a deep, deep valley in a dark, dark cave - there lived a mighty dragon.' He was an awesome and frightening creature, terrorising whole armies, destroying castles, demolishing forests and kidnapping princesses. But this mighty dragon had a deep, dark secret. . . . Uncover a charming tale of adventure, a dragon, and an unlikely hero. Told with gentle humour and mesmerising illustrations, this is a picture book to enchant and delight. This stunning new edition is perfect for new readers, as well as fans of George, the Dragon and the Princess. This much-loved classic tale comes from the exceptional storyteller and illustrator, Chris Wormell.

With a younger text, Dinosaurium Junior Edition means more readers than ever can enter the museum, and discover the wonders of the past.

Discover more than 160 exhibits in this virtual museum, open all hours. Welcome to the museum! There are more than 160 historical artifacts to be discovered in Welcome to the Museum: Historium. Wander the galleries of this museum whenever you wish—it's open 365 days a year!—and discover a collection of curated objects on every page, accompanied by informative text. Each chapter features a different ancient civilization, from the Silla dynasty of Korea to ancient Rome.

This is the story of a little girl and her small brown dog. They live all alone in a little cave high up on the mountainside in the middle of the great wide wilderness. Then one day in the bitter cold of winter, as they are returning to their cave, they see bear tracks in the snow . . . The ending to this adorable story will melt your heart and make you smile. This is a stunning new edition of this charming children's tale, from the exceptional storyteller and illustrator, Chris Wormell.

Monet's Cat

Dinosaurium Poster Book

A Race For Life

Welcome to Planetarium. This museum is open all hours. It houses an incredible collection of astronomical objects, from small, icy moons to huge swirling galaxies. So how big is the Universe? How did it begin and what mysteries does it hold? With specially written text for younger readers, step inside to explore the Universe in all its glory.

It's time for a Jurassic adventure (and Triassic and Cretaceous too!) in this roar-some novelty book title, perfect for interactive and creative play. From a greedy T. rex to a flying pterosaur on the hunt for his next meal, children will love spotting their favorite reptiles within the simple story and placing the soft felt play pieces on the prehistoric scenes. With more than twenty re-usable felt pieces and five colorful play scenes to explore, it's dinosaur roars and claws galore! Mess-free, educational fun for children age three and up.

Our world is wonderful, and it's up to us to take care of it. You may feel small, but your actions can make a big difference. This title encourages children to take care of the planet, but it doesn't just focus on the problems—it teaches them proper practical solutions to the issues facing our world today. Veterinarian, author, and TV host Jess French guides kids through taking care of our planet, from living a sustainable lifestyle to using their voice in politics. Unlike many books about the environment, Jess not only covers how to take care of plants and animals, but also the positive contribution that humans can make on each other's lives, too. Strong themes of self-care and mindfulness run through the book, and kids are introduced to activism. Discover how to reduce your carbon footprint, understand the importance of preserving our forests, oceans, and endangered animals, and learn the best ways to stand up for what you believe in. Bright, cool illustrations by Aleesha Nandhra combine with photography to create vibrant, engaging spreads, and Jess French's encouraging and instructive text empowers kids to look after the environment, themselves, and each other. What a Wonderful World is the perfect book to show children that being kind to each other and working together is the best way to start protecting the planet.

The newest title in the Welcome to the Museum series focuses its attention on the impressive beasts that once ruled the world dinosaurs.The 2017 offering from Big Picture Press's Welcome to the Museum series, Dinosaurium is a stunningly curated guide to dinosaurs. The Amazing Story of Plant Evolution

Anatomicum Activity Book

When Plants Took Over the Planet

The Art of C. G. Jung

Animalium Colouring Book

DinosauriumBig Picture Press

Have you ever heard of the Strangler Tree? The Bubblegum Tree? The Upside-Down Tree? How about trees with horns, bottles, sausages, crowns, and ones that walk or even explode? Crazy, maybe, but true. Find out more about these, and many others, in this colorfully illustrated collection of the most bizarre—but real—trees from around reminding us that the art of nature is far stranger than fiction. The perfect book for inquisitive naturalists with imaginations, Strange Trees also includes a map of the world showing where the trees grew.

A lavishly illustrated volume of C.G. Jung's visual work, from drawing to painting to sculpture. A world-renowned, founding figure in analytical psychology, and one of the twentieth century's most vibrant thinkers, C.G. Jung imbued as much inspiration, passion, and precision in what he made as in what he wrote. Though it spanned his entire painting, drawing, and sculpture, Jung's practice of visual art was a talent that Jung himself consistently downplayed out of a stated desire never to claim the title "artist." But the long-awaited and landmark publication, in 2009 of C.G. Jung's The Red Book revealed an astonishing visual facet of a man so influential in the realm of thought. Stunning symbolic images with an exploration of "thinking in images" in therapeutic work and the development of the method of Active Imagination. The remarkable depictions that burst forth from the pages of that calligraphic volume remained largely unrecognized and unexplored until publication. The release of The Red Book generated an visual works and allowed scholars to engage with the legacy of Jung's creativity. The essays collected here present previously unpublished artistic work and address a remarkably broad spectrum of artistic accomplishment, both independently and within the context of The Red Book, itself widely represented. Tracing the evolution of Jung's childhood to adult life while illuminating the close relation of Jung's lived experience to his scientific and creative endeavors, The Art of C.G. Jung offers a diverse exhibition of Jung's engagement with visual art as maker, collector, and analyst.

A lake turns into an island. A cozy bay into a secluded cape. A gulf with sea turtles transforms into a peninsula surrounded by pirate ships. This unique information book for the very young switches between bodies of water and corresponding land masses with the simple turn of a page. Readers will delight as the story of Water Land unfolds connected the earth and the water really are. This book has Common Core connections.

Planetarium Junior Edition

Planetarium

Historium Activity Book

George and the Dragon

How to Catch a Frog

Discover the incredible story of how plant life grew to cover the surface of planet Earth, from long before human life existed up to the present day. This large-format, highly illustrated book will guide readers through the key aspects of the life of plants, from early ferns which were most certainly munched on by dinosaurs, to carnivorous plants that snap and 'attack' their prey, or powerful medicinal plants that can heal ailments and boost health. Mysterious and wonderful plants and trees are explored through the diverse habitats they're found in, from the Amazon Rainforest to the Sahara Desert, and through the animals found living on them or amongst them. This book also explores how humans use - and abuse - our precious plants, and how reliant we all are on the survival of our planet's network of botanical life. When Plants Took Over the Planet is the latest in the Incredible Evolution series, a beautifully illustrated set of books rich with facts about how life developed on the planet. Discover incredible stories of ancient species in When the Whales Walked, and explore the ancestry of the human race in When We Became Humans.

Welcome to the Fungarium! Step into the world of fungi and learn all about these strange and fascinating life-forms. Illustrator Katie Scott returns to the Welcome to the Museum series with exquisite, detailed images of some of the most fascinating living organisms on this planet--fungi.

Exploring every sort of fungi, from the kinds we see on supermarket shelves to those like penicillium that have shaped human history, this collection is the definitive introduction to what fungi are and just how vital they are to the world's ecosystem.

Following Historium, the latest addition to the Welcome to the Museum series, comes this fantastic companion activity book. Bursting with fascinating facts and puzzles, this book offers hours of entertainment to artists and budding historians alike. Beautiful and inspiring, the myriad of activities in this book challenge the reader to discover something new and use their imagination to draw, decorate and design on every pull-out page.A collection of full-colour, immaculately detailed images from unparalleled new talent, Richard Wilkinson.Play historian with imaginative activities that invite you to engage with the art and culture of ancient worlds.This title, alongside Historium Poster Book, builds on the success of the original Historiumtitle and the Welcome to the Museum series.

Welcome to the museum! Here you will find a collection of objects from ancient civilisations. Objects of beauty, objects of functionality, objects of war, objects of life, and objects of death and burial. As you wander from room to room, explore the magnificence of what civilisations have left behind over thousands of years of human history.
